Stilwells Mission To China Us Army In Wo:

The United States Army in China, 1900-1938 Alfred Emile Cornebise, 2015-07-13 A study of U S Chinese relations involving the U S Army this work focuses at the personnel level on the Army s service in China While studies have been published of the U S Marines and U S Navy s involvement in China little attention has been given the Army s missions in this theater Operations in China were a key part of the history and traditions of the 9th 14th 15th and 31st Regiments whose coats of arms still feature dragons as symbols of their service there Many who served in the 15th in China went on to impressive careers as general officers prompting one soldier to ask what other infantry regiment of those days can boast of such an alumni list Also covered is the 31st Regiments involvement in Shanghai during the Second Sino Japanese War the prelude of the coming of World War II in Asia *The Allied Resupply Effort in the China-Burma-India Theater During World War II* Leo J. Daugherty III, 2008-02-05 Japan s attack on Pearl Harbor in 1941 secured for Chiang Kai shek s Chinese Nationalist forces what no amount of pleading had been able to produce an influx of U S supplies This volume explores the strategies of the Allies in China Burma and India in World War II and the politically charged campaign waged in that theater After an overview of the Allied situation in early 1942 the work presents the personal accounts of six individuals who served as part of the resupply effort in the CBI theater Captain Edward Goodman Captain David C Hall Staff Sergeant Robert Boehm Corporal Anthony R Silva Corporal Alexander McVean and Tech Sergeant Kenneth R Quigley The service of African Americans in the CBI theatre is also discussed in detail Appendices contain information on the organization of a motor transport truck regiment in Persia during World War II and an extract from a December 1944 log of an Air Jungle Rescue Unit in Burma **The U.S. Army and World War II** Judith Bellafaire, 1998 The U S Army and World War II is an anthology of selected papers from three international conferences held in 1990 1992 and 1994 on the Army s role in the war Taking the best from those meetings Judith L Bellafaire has organized the various presentations into four thematic categories prewar planning the home front the European theater and the Asian Pacific theaters reflecting the diversity of both the war and the interest of those seeking to understand its many facets In these carefully edited papers one will find the more conventional treatments of doctrine strategy and operations side by side with those focusing on military mobilization and procurement race and gender psychological warfare and large scale advice and assistance programs Despite significant changes in military technology and the geopolitical landscape of the world since those desperate times the human problems highlighted by the authors are not much different from many of those facing Army leaders today Although the past can never provide the specific recipes needed for the future experience has shown that both the basic ingredients and the manner in which they are prepared and processed have remained remarkably constant Those grappling with the challenges of stability operations and other contingency missions in support of the Global War on Terrorism will find this collection of readings invaluable

Pach Jr.,2018-11-15 In this important study Chester Pach traces the emergence of military assistance as a major instrument of contemporary American foreign policy During the early Cold War arms aid grew from a few country and regional programs into a worldwide effort with an annual cost of more than 1 billion Pach analyzes the Truman administration s increasing reliance on arms aid for Latin America Greece and Turkey China and Western Europe to contain Communist expansion during the late 1940s He shows that a crucial event was the passage of the Mutual Defense Assistance Act of 1949 the progenitor of a long series of global Cold War arms measures Pach demonstrates that the main impetus for the startling growth of military assistance was a belief that it would provide critical political and psychological reassurance to friendly nations Although this aid was ostensibly provided for military purposes the overriding goals were insuring goodwill raising foreign morale stiffening the will to resist communism and proving American resolve and reliability Policymakers Pach contends confused means with ends by stressing the symbolic importance of furnishing aid They sought additional appropriations with the threat that any diminution or cessation of aid suggested a weakening of American commitment Pach reveals that civilian not military officials were the principal advocates of the expansion of military aid and he shows how the policies established during the Truman administration continued to exert a profound influence throughout the Cold War Some officials questioned the self-perpetuating qualities of military aid programs but Pach concludes that their warnings went unheeded Although fiscal restraints in the Truman administration temporarily stemmed the growth of aid the Korean War exploded budgetary limitations Military assistance spending expanded rapidly in size and scope gaining a momentum that succeeding administrations could not resist Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value
