Vietnam's Children in a Changing World Rachel Burr,2006-03-24 Like the majority of children living in the global South today a large number of Vietnamese youths work to help support their families International human rights organizations have focused on these children seeking to bring their lives into line with an understanding of childhood that is generally accepted in the developed world In this ethnographic study Rachel Burr draws on her daily observations of working children in Hanoi and argues that these youngsters are misunderstood by the majority of agencies that seek to help them Most aid programs embrace a model of childhood that is based on Western notions of individualism and bountiful resources They further assume that this model is universally applicable even in cultures that advocate a collective sense of self and in countries that do not share the same economic advantages Burr presents the voices and experiences of Vietnamese children in the streets in a reform school and in an orphanage to show that workable solutions have become lost within the rhetoric propagated by aid organizations The reality of providing primary education or adequate healthcare for all children for instance does not stand a chance of being achieved until adequate resources are put in place Yet organizations preoccupied with the child rights agenda are failing to acknowledge the distorted global distribution of wealth in favor of Western nations Offering a unique firsthand look at the experiences of children in contemporary Vietnam this book also provides a broad analysis of how internationally led human rights agendas are often received at the local level

Maya Saints and Souls in a Changing World John M. Watanabe,2010-07-22 The Maya of Santiago Chimaltenango have experienced increasingly rapid even violent integration into Guatemalan society in the last fifty years yet they still distinguish themselves ethnically from Spanish speaking Guatemalans and other Maya Why this sense of ethnic identity persists and also changes over time is the focus of Maya Saints and Souls in a Changing World a beautifully written ethnography of a Mam speaking Maya town in the western highlands of Guatemala John Watanabe uniquely explores how Chimaltecos themselves define their local distinctiveness This approach uncovers significant continuities in lifeways and world view that might otherwise remain imperceptible to an outsider Another important feature of the study is that it updates Charles Wagley s pioneering research in the community during the 1930s Watanabe identifies both the external historical factors that have prompted change in the community since Wagley s time and the people s responses to these changes
