Buddhist is designed to be a complimentary practice to the traditional 12 step journey not a replacement While traditional twelve step programs help addicts become sober by removing the drug of choice and providing a spiritual path they rarely delve deep into what causes people to suffer in the first place The integration of Buddhism with the traditional process provides the wisdom and meditations that can help addicts truly find a deep spiritual liberation from all causes and conditions of suffering for good

The Portable Mentor Mitchell J. Prinstein, 2012-09-14 The ten year anniversary of the book offers an excellent opportunity to publish a second edition Several aspects of the book have evolved considerably since its first printing For instance substantial revision to the internship licensure and certification processes has occurred and are reflected in this resource Much of the literature on clinical psychology cultural sensitivity and the current job market is updated Changes in technology have large effects on teaching and practicing clinical psychology These modifications are needed to offer appropriate and updated information for students In short virtually every chapter has substantial modification to ensure that the material is accurate and up to date
