Chronicling the most ambitious airlift in history Carried out over arguably the world's most rugged terrain in its most inhospitable weather system and under the constant threat of enemy attack the trans Himalayan airlift of World War II delivered nearly 740 000 tons of cargo to China making it possible for Chinese forces to wage war against Japan This operation dwarfed the supply delivery by land over the Burma and Ledo Roads and represented the fullest expression of the U S government's commitment to China In this groundbreaking work the first concentrated historical study of the world's first sustained combat airlift operation John D Plating argues that the Hump airlift was initially undertaken to serve as a display of American support for its Chinese ally which had been at war with Japan since 1937 However by 1944 with the airlift's capability gaining momentum American strategists shifted the purpose of air operations to focus on supplying American forces in China in preparation for the U S's final assault on Japan From the standpoint of war materiel the airlift was the precondition that made possible all other allied military action in the China Burma India theater where Allied troops were most commonly inserted supplied and extracted by air Drawing on extensive research that includes Chinese and Japanese archives Plating tells a spellbinding story in a context that relates it to the larger movements of the war and reveals its significance in terms of the development of military air power The Hump demonstrates the operation's far reaching legacy as it became the example and prototype of the Berlin Airlift the first air battle of the Cold War The Hump operation also bore significantly on the initial moves of the Chinese Civil War when Air Transport Command aircraft moved entire armies of Nationalist troops hundreds of miles in mere days in order to prevent Communist forces from being the ones to accept the Japanese surrender

Flying Blind Kenneth L. Chastain Jr., 2011-02-11

Flying Blind is a novel of one man's hazardous journey in South Asia during the Second World War Flight Officer Service Pilot Roger Caron joined the army air force even though he was too old to be drafted He simply couldn't pass up the opportunity to fly military aircraft Like many men his age he became hooked on aviation by Charles Lindbergh's 1927 solo transatlantic flight Caron started out flying gliders and pulling weeds for flying

lessons He learned all he could about repairing and piloting airplanes it was the focus of his life Through a flying buddy he met a young girl who worked her way into his heart She had some health issues and was very young only sixteen but they ended up getting married anyway His passion for aviation often kept them apart while he traveled from place to place advancing his career So after he joined the army air force and was sent to war in China Burma and India the separation was just another of many It was made bearable for Caron because he would be flying and flying was in his blood After spending many months enduring the hazards of war life back home reached across the seas and grabbed him The story begins with his landing in Calcutta near the end of September 1944 His treacherous assignment was to fly army cargo planes over the towering Himalayas referred to as the Hump As a member of the Army Air Force Air Transport Command he would be supplying war materials and troops to China in support of the Allied effort against the Japanese invaders Unfortunately aircraft of that era were poorly suited for the dangerous weather of the cloud enshrouded mountains made worse by the region's lack of sophisticated navigational aids An equally threatening hazard was the occasional but lethal Japanese fighter out hunting for unarmed Allied transports Caron would need skill tenacity and a healthy dose of luck to survive his coming ordeal After a quick turnaround in Calcutta he found himself a passenger on a C 47 transport on his way to his first duty station in Myitkyina Burma This remote outpost had just recently been retaken from the Japanese at great cost by General Stilwell's army While landing in Myitkyina Caron's plane was strafed by a Japanese Zero and crash landed He and the rest of those onboard survived the ordeal but it was an ominous welcome to his first duty station in the China Burma India CBI Theater of Operations On his first flight over the Hump Caron was copilot on a war weary olive drab C 47 piloted by one of his tent mates Bill Lackey whom he had first met in Myitkyina Like Caron Lackey was from Los Angeles and they'd quickly become friends Their volatile cargo was high octane gasoline carried in fifty five gallon drums On this passage through the towering mountains ice formed on the wings hailstones hammered the fuselage and the plane lost altitude When the crew was nearly ready to bail out an updraft shot them up and over the dangerous peaks to safety This trip foretold what most would be like flying blind through the clouds on instruments only On what later became known as Black Friday Caron and his crew experienced a harrowing ride over the Hump Upon arrival in Kunming China the plane captain tried to delay the return flight to Burma because of the extreme weather and the multitude of maydays called in from other aircraft Permission was denied but they were able to stall until the Hump was declared closed Many planes and crews were lost in the killer storm and his tent mate and friend Bill Lackey was one of those missing Caron's luck ran out following a promotion to plane captain Sitting in the left hand seat of the cockpit he and his crew flew mules to China where just before landing one of the mules stuck its head through a window Despite concern of the effect on the plane's stability under minimum weather conditions Caron successfully landed the plane However on the return leg of the
