Teng Hsiao-ping And The General Program:

Teng Hsiao-ping and the "General Program" ,1977 The Labors of Sisyphus Joan Roland,2017-07-05 Almost a half century has passed since the inception of the People's Republic of China. In that time a charismatic leader has ruled and died leaving a wake of Destruction in his quest to transform China. In that time too the PRC's most powerful ally and mentor the Soviet Union has dismantled and announced that communism had failed. Today China fluctuates between tradition and modernity ideology and pragmatism between an antiquated collectivist ethic and a new spirit of individualism. It is a country precariously suspended between past and future. Maria Hsia Chang's *The Labors of Sisyphus* is a long overdue reassessment of the meaning and purpose of the Chinese communist revolution. In it she discusses the thought of Mao Zedong and Deng Xiaoping reform and its dilemmas regionalism in greater China and autonomous areas and nationalism. She also examines China's immediate present and uncertain future. If it manages to transform economic growth into development China filled with natural resources and a large capable labor force has the potential to become a world superpower. It could also collapse under the weight of its own problems regionalism a flawed state sector corruption and a pronounced decline in state capacity. If China succeeds an imposing new economic power will enter the global stage one that is often arbitrary and prone to despotism and xenophobia unless it is tempered by political reform. Prior accounts of communist China have failed to capture China's evolving present. In all its complexity and variety misrepresenting Maoist China. In the process Information shortfall was partly to blame as recently as August 1994 the Chinese government itself decried falsification of statistics by government officials and cadres. Sinologists in the 1960s and 1970s had to approach analysis of contemporary China with clear recognition of the limitations involved and the questionable validity of the factual sources available. Maria Hsia Chang lends structure meaning and purpose to the very complex recent political and historical past of communist China. With greater access to more accurate information Chang is able to analyze objectively without political motive or intention providing readers with a fresh look at the People's Republic. Her pathbreaking work will be of interest to scholars of international economics and politics sinologists and historians.

Chinese Politics: The death of Mao (1976) to the fall of Hua Kuo-feng (1980) James T. Myers,Jürgen

Domes, Erik von Groeling, 1986 Political power struggles in mainland China after Mao's death **A Place In The Sun** A. James Gregor, 2019-04-16 China has endured a century of turmoil beginning with the anti dynastic revolution associated with Sun Yat Sen through the military and tutelary rule of Chiang Kai shek the revolutionary regime of Mao Zedong and the radical reforms of Deng Xiaoping China has had little respite Historians and social scientists have attempted to understand some of this history as being the consequence of the impact of European ideologies including Marxism Marxism Leninism and Fascism Rarely instructive or persuasive the discussions regarding this issue have more often than not led to puzzlement rather than enlightenment In *A Place in the Sun* A James Gregor offers an interpretation of the role of European Marxist and Fascist ideas on China's revolutionaries that is both original and based on a lifetime of scholarship devoted to revolutionary ideologies Gregor renders a detailed analysis of their respective influence on major protagonists In the exposition Gregor reveals an unsuspected and complex set of relationships between the Chinese revolution and essentially European ideologies His discussion concludes with a number of estimations that suggest implications for the future of modern China and its relationship with the advanced industrial democracies How post Dengist China the world's most populous nation is to be understood remains uncertain to most comparativists and historians Gregor provides one well supported alternative and he is carefully attentive to the implications of this alternative **Chinese Politics: Documents and Analysis : Ninth Party Congress (1969) to the Death of Mao (1976)** James T. Myers, Jürgen Domes, Milton D. Yeh, 1989 An analytical overview of the period with the overall aim being to provide a comprehensive reference work together with narrative commentary that will make the most important personalities events of this period of Chinese political history available to interested readers in a convenient accessible series of volumes *Marxism, China, and Development* A. James Gregor, 2017-07-05 China has always been something of a mystery to Westerners For one generation Mao Zedong and his followers were simple agrarian reformers while for another they were the communist emperor and his blue ants In the 1970s some of the finest Sinologists believed there was much the United States could learn from Mao's Great Proletarian Cultural Revolution with regard to bureaucracy criminal justice health care and mass education By the 1980s those same theorists asserted that Maoism was nothing more than a feudal fascism and had absolutely nothing positive to teach Marxism China and Development provides a plausible explanation of these developments that have had such a powerful effect on the people of China for the past half century The author describes and explains the strange collection of beliefs that made up the Marxism of Mao Zedong He seeks to understand why the communist leadership of China like that of the USSR tried to spur economic growth by abandoning the market modalities common to developed economies A James Gregor's conceptual framework is both original and makes more comprehensible the history of Marxism and the history of China Among the major topics he covers are imperialism political democracy economics and alternatives to Maoism and Marxism for China While it is unlikely that our understanding of so complex a series of events as modern Chinese history will soon become less controversial Marxism China

and Development's clear concise explanations will clarify some perplexing areas and make the new turns in Chinese political economy more understandable This is a monumental effort at theory construction that will be of interest to political scientists economists sociologists and Sinologists

Finding a Path for China's Rise Philippe Lionnet, 2023-01-02 The rise of China is ever present in debates on globalisation and ongoing power shifts In a time of rising international tensions understanding the interdependencies between China's course and the world economy is ever more important Often the economic reforms under Deng Xiaoping after 1978 are emphasised They initiated dramatic changes in China's economy and contributed to its ascent as a world power In contrast less attention has been given to the context in which these reforms were implemented Philippe Lionnet analyses important adjustments in China's agricultural industrial and foreign trade policies in the course of the 1970s as well as their origins He shows how policy experiments and their limits shaped the path of the socialist state

Deng Xiaoping and the Chinese Revolution David Goodman, 2002-09-11 To the outside world Deng Xiaoping represents a contradiction he is both China's most successful moderniser and the Butcher of Beijing China's supreme leader who must take responsibility for the events surrounding Tiananmen Square in June 1989 However Deng the politician has no such contradiction only the Chinese Communist Party can bring modernisation to China For Deng any threat to the Communist Party is a threat to the project of China's modernisation This book attempts to reach beyond the spectacular economic success of recent years to understand Deng's own particular role and the sources of his political power Deng Xiaoping was involved with the communist movement before there was even a Communist Party of China and his entire career has been shaped by both the party and the network of relationships and people within it David Goodman explores the way in which Deng has survived being purged three times via his contacts with key politicians Zhou Enlai in Paris in the early 1920s and Mao Zedong from 1933 to the early 1960s His close relationship with the military from the Sino Japanese War of 1937 through to the present day has also enabled him to survive difficult political periods Indeed Deng's wartime experience in the Taihang Mountains plays a central but often overlooked role in his later career particularly as a source of political support David Goodman has been able to draw on the substantial documentary sources that have become available from China since 1989 as well as the analysis of Deng's political life that has proliferated inside the People's Republic in recent years In addition there is included a catalogue and analysis of the speeches and writings of Deng Xiaoping since 1938 that will prove to be an invaluable reference aid to his years of influence and power The result is a balanced evaluation of Deng the politician that provides fresh insights into the career of

one of the twentieth century's greatest political survivors **Deng Xiaoping and the Chinese Revolution** David S. G. Goodman, 1994 David Goodman reaches beyond China's spectacular economic success of recent years to understand the sources of Deng's political power This is a balanced evaluation of the career of one of the century's great political survivors
