## **Tensions Necessary Conflicts In Life And Love:**

**Tensions** H. A. Williams, 2001-03-06      **Tensions** Harry Abbott Williams, 1976      **Wrestling with Doubt** Frank D. Rees, 2001 Rees provides a theological analysis of doubts as a constructive element within the Christian experience of faith. He considers three theological frameworks each of which offers an interpretation of doubt and two life story theologies that deal with faith and doubt.

**The Place of Judas Iscariot in Christology** Anthony Cane, 2017-07-05 Exploring the significance of Judas Iscariot for Christian theology and the difficult issues surrounding Judas, Anthony Cane shows that focusing on the tension between providential and tragic interpretations of Judas in the New Testament and in subsequent writing about Judas is the key to understanding his significance. Building on the work of Karl Barth and Donald MacKinnon, Cane's argument sheds light not simply on the way Judas is understood but on the way Jesus and the whole economy of salvation are understood. This book also highlights implications for the way in which issues relating to anti-Semitism and evil and suffering are most effectively explored.

**Applications of a Psychospiritual Model in the Helping Professions** Cedric Speyer, John Yappe, 2020-11-19 This book brings together the historically separate domains of mental health and spiritual awareness in a holistic framework called InnerView Guidance. Building on strength-based and solution-oriented approaches to therapy, the InnerView model offers a unique psychospiritual approach which can be applied in any of the helping professions. InnerView recognizes the individual's need for internal cohesion between psychological growth and spiritual development. It is a principle-driven paradigm that foregrounds soul work as a central evolutionary task. The book presents the core concepts and methodology involved in the alignment of ego with soul. Chapters explain the theoretical roots of the model, explore practical applications in therapeutic settings, and introduce InnerView as a rich synergy of psychotherapy and spiritual guidance. Taking an original and cutting-edge approach, this valuable text will be essential reading for scholars and students as well as practitioners in the fields of psychotherapy, counselling, life coaching, social work, and spiritual care.

**Being about Borders** Michele Saracino, 2011-05-01 In an age of globalization where borders seem to be disappearing everywhere between nations, religions, and even within families, it is easy to believe our reactions to difference are vanishing as well. Bringing together the latest insights from constructive theology, contemporary continental theory, and trauma studies, Michele Saracino shows how deceiving and even deadly this assumption can be. She argues that in the post-9/11 era, Christians are obligated now more than ever to be vigilant about difference, to be attentive to the emotional dissonance that encountering others incites, and to acknowledge it before border disputes escalate into violence. We are neither so different that we have nothing to talk about nor so similar that we have everything to celebrate. Instead, for Saracino, we are caught in the middle at porous borders, at in-between spaces which cause consternation, fear, anger, and even rage. By embracing these conflicting emotions that accompany border life, Saracino claims that Christians can honor the person and work of Jesus Christ and the mystery of the incarnation and perhaps become living memorials to those who have

suffered trauma all in the name of their being different Michele Saracino is an associate professor of religious studies at Manhattan College in Riverdale New York She is the author of *On Being Human A Conversation with Lonergan and Levinas* and researches and teaches on the intersections between theology and culture

**Suspended God** Maeve Louise Heaney, 2022-03-24 Heaney traces the hidden history of music's presence in Christian thought including its often unrecognized influence on key figures such as von Balthasar Barth and Bonhoeffer She uses Lonergan's theological framework to explore musical composition as a theological act showing why when and how music is a useful symbolic form The book introduces eleven ground breaking theologians and each chapter offers an entry point into the thought of the theologian being presented through an original piece of music which can be found on the companion website <https://bloomsbury.pub/suspendedgod> Heaney argues that music is a universally important means of making sense of life with which theology needs to engage as a means of expression and of development Musical composition is presented as an appropriate and even necessary form of doing theology in its quest to engage with the past mediate truth to the present and tradition it into the future

essential problem In this book the authors take a different approach The term conflict literally means clashing together from the Latin conflare to strike together Wherever people come together their interests and beliefs are sure to clash And conversely clashes only occur when there is something shared to quarrel about Whether we like it or not living with each other means clashing with each other Five Dutch researchers share their exploration of the paradoxical situation that we cannot survive without the other because we only really learn about ourselves when we come into contact with others At the same time it is problematic to live with the other since our lives clash with the life of the other and we try to shield ourselves and draw boundaries How to live in difference and not be indifferent to the other That s the question
