**Contemporary Japan** Ioannis Gaitanidis,2022-10-20 This book critically analyses the creation and effects of spirituality as both discourse and practice in Japan It shows how the value of spirituality has been sustained by scholars who have wished for a more civic role for religion by the publishing industry whose exponential growth in the 1980s fashioned those who later identified as the representatives of this new spirituality culture by spiritual therapists who have sought to eke out a livelihood in an increasingly professionalized and regulated therapeutic field and by the cruel optimism of an increasingly precarious workforce placing its hopes in the imagined alternative that the supirichuaru represents Ioannis Gaitanidis offers a new transdisciplinary conceptualisation of alternativity that can be applied across and beyond the disciplines of religious studies media studies popular culture studies and the anthropology sociology of medicine      Coral Anika Theill,2003-01-01

**Guide to Psychic Power** Rosemary Ellen Guiley,1950-07-10      *Super Freak: Lessons from a Reluctant Psychic* Pamela Southwell,2025-01-23 When Pamela Southwell was two and a half years old she asked a question in her mind and heard a voice in her head that answered her question It was the first time she heard this man s voice The same voice helped her out again when she was four years old and spoke to her at various times throughout her childhood It wasn t until she was fourteen years old while she was using an Ouija board with her friends that she found out who this voice was The pointer spelled out the name of her great grandfather But how could that be He had passed away before she was even born As she grew older other strange experiences started happening her dreams were coming true she could astral travel she could talk to living and dead pets as well as people in the spiritual realm For many years Pamela denied her psychic abilities She hid them away for fear that others might think she was a freak while she also worried that she may have a mental illness Decades later she finally found some friends who supported her and books to guide her and answer her questions about all things beyond our three dimensional reality After developing her gifts further she began giving psychic readings to clients

connecting with their loved ones or pets in spirit or foretelling their futures These interactions affirmed her abilities yet she still doubted herself She was still reluctant to accept that she had these skills However one night a message came from spirit with a confirmation so solid that she could no longer doubt her abilities In *Super Freak Lessons from a Reluctant Psychic* Pamela not only shares personal adventurous stories and advice about being a psychic but also provides a safe space for others like her to embrace their authentic selves and know they are not alone Follow her on her path as she navigates all things intuitive by recommending books and movies offering the reader an opportunity to delve deeper into these topics and suggesting exercises to practice their own extra sensory skills     *A Spiritual Approach to Parenting* Marilyn Barrick,2004 As we face the complexities of the dawning age spiritually advanced souls are being born to usher in a prophesied time of peace and enlightenment In this perceptive guidebook Dr Marilyn Barrick discusses the Indigo Crystal and Spirited children their mission to help Earth fulfill her divine destiny and the special challenges to the parents raising these extraordinary children Dr Barrick also reveals the cycles of life we all pass through and shows how we can deal with their corresponding life lessons She gives valuable insights into how karma and past life records influence our marriages and families and teaches us ways to master these important relationships     **Self-Help Books** Sandra K. Dolby,2010-10-01 Understanding instead of lamenting the popularity of self help books Based on a reading of more than three hundred self help books Sandra K Dolby examines this remarkably popular genre to define self help in a way that s compelling to academics and lay readers alike Self Help Books also offers an interpretation of why these books are so popular arguing that they continue the well established American penchant for self education they articulate problems of daily life and their supposed solutions and that they present their content in a form and style that is accessible rather than arcane Using tools associated with folklore studies Dolby then examines how the genre makes use of stories aphorisms and a worldview that is at once traditional and contemporary The overarching premise of the study is that self help books much like fairy tales take traditional materials especially stories and ideas and recast them into extended essays that people happily read think about try to apply and then set aside when a new embodiment of the genre comes along     *Encyclopedia of American Popular Fiction* Geoff Hamilton,Brian Jones,2015-04-22 Provides information on American authors and their works who have been ignored by most literary guides     **Riding with the Phoenix** George E. Monroe, Ph.D.,2014-08-22 This book contains several different levels of meaning each with its own episodes of adventure intrigue and message The levels of discourse also can be seen as various stages in the sojourn of the main character Gregg from simple consciousness to cosmic awareness Several vehicles help Gregg reach his epiphanies including dreams meditation coincidences and two near death experiences A visit to Greece that included stops at the Delphic Oracles historic site and Agamemnon s tomb greatly expanded his perceptive abilities While standing inside the beehive shaped tomb he felt he had been slammed through a time warp to a new level of awareness which he would later describe as holographic awareness The group dynamics revelation that he divined or rediscovered through intuition dreams

and meditation is certainly important enough in itself as it sheds light on many of the social ills of our day But the real power and value of this book is that it demonstrates how one person can and does reach higher levels of awareness and being Riding with the Phoenix provides fresh insights on and linkages to new research and understanding about human awareness It serves as a metaphor for the increasing consciousness of the entire human species so necessary in these times of the augmenting and unresolved transboundary and transcultural dilemmas that we face     Ultimate Truth D. Rogers, 2009-05 ULTIMATE TRUTH is the first volume of the TRUTH series It is a riveting thought provoking masterpiece of theories philosophy and great spiritual insight about our Divine nature and Celestial origins It delves heavily into the esoteric and occult teachings that many are often unaware of or too afraid to accept In this book author Peter C Rogers D D Ph D takes on many of the topics that are taboo or often hard to understand and simplifies them for the common lay person This book will prompt you to ponder and even question a lot of the things you hold to be true It will shake your foundation to the core causing you to wonder why you ve never been taught these things in school in church or in society By the same token this book will be met with public ridicule controversy and resistance by those who are still unwilling to accept the Ultimate Truth about our Being As this book will point out we are living in an age where truth is our only salvation and the deception of the elite will no longer be tolerated by the masses Our planetary consciousness is stirring and we as a race of Cosmic Spiritual Beings are heeding the call of the Divine in our spirits and in our genetic memory code This book is yet another piece of the awakening process for all those who look therein It is a synthesis of various truths fundamental spiritual beliefs powerful incite and thought provoking stimuli The only thing that now stands between you and a new way of life is You for a closed mind is a barrier against change May your life be forever altered by the renewing of your mind and the liberation of your Spirit     *The Cumulative Book Index* ,1997 A world list of books in the English language
