Terisita Fernandez:

New Work Teresita Fernández, Peter W. Boswell, Miami Art Museum, 2002 Teresita Fernández Denise Markonish, 2017

This visually arresting book provides the first complete overview of artist Teresita Fernández's multi-faceted body of work. Teresita Fernández creates elaborate installations that pull viewers into other worlds and environments playing with scale, material, and how we understand and navigate the landscape. The idea of wayfinding, moving from place to place or even getting lost, is critical to understanding Fernández's approach, which incorporates unconventional materials such as graphite, pyrite, dyed thread, polycarbonate tubes, gold, and malachite to explore how we look at and process our surroundings from land to sky, private to public. This book is a journey designed as a constellation of works rather than a chronological retrospective, inviting readers to explore Fernández's oeuvre through large, full-color illustrations, writings on place, references to literature, film, art history, and poetry alongside Fernández's own writings and critical essays. Organized into six sections: landscape, celestial, terrestrial, subterranean, cinematic, and radiance, which reflect themes recurring in Fernández's practice, this volume spans her full career. The result is a dramatically rich experience of getting to know an artist through her creative process, a rewarding journey that will satisfy general readers and scholars alike.

Teresita Fernández's experiential and luminous works come to life in this monograph that reveals how one of America's most exciting installation artists investigates the intersection of culture and landscape. Teresita Fernández's dazzling large-scale sculptures and installations employ diverse materials: charcoal, ceramics, chrome, steel, onyx, wood, resin, and enamel, with an utterly immersive effect. Accompanying a retrospective of Fernández's career and including images of her most recent installation, this book captures the powerful nature of an artistic practice exploring issues of perception, geography, ecology, history, and society. Featured works include *Fire*, her haunting ongoing series on the conceptual phenomena of landscape; *Autumn Nothing Personal*, created as a participatory space at Harvard University; and *As Above So Below*, a series of immersive interconnected installations referencing alchemy and the cosmos. Published with Phoenix Art Museum.

Teresita Fernández is internationally known for her immersive installations and evocative large-scale sculptures that address space, light, and the perception of change. The exhibition is curated by USF Institute for Research in Art Chief Curator David Louis Norr and will present a spectrum of the artist's most recent and ambitious projects, including a new sculpture and a room-sized installation created specifically for this exhibition. Teresita Fernández, one of the most accomplished artists of her generation, is recognized for her deft ability to transform common materials and processes into dazzling cinematic illusions, blending abstraction, reflection, and transparency into potent configurations of projection and play. Nature and perception are the

schematic sources for Fernandez picturesque materializations Clouds trees water and fire in patterned formations of polished stainless steel glass plastic and thread double as screens mirrors and lenses and vacillate between object and optical phenomena Much like shadows or ghosts Fernandez doubled forms reside in the folds and margins of perception a tangled overlay of absence and presence nature and artifice I am interested in the projection of the body in an imaginary kinesthetic way penetrating history and distance cinematically almost like a daydream she explains It s as if through visual pleasure your gaze positions you in a place without actually being there Indeed for Fernandez how one sees is as relevant as what one sees Featured among the works in the exhibition is *Vertigo sotto en su* from 2007 Made in collaboration with USF Graphicstudio *Vertigo* is comprised of layers of precision cut highly polished metal woven into a reflective and intricate arboreal pattern suspended high above the viewer not unlike an immense cascading tree branch The multiple planes of space through which the viewer looks become visible simultaneously vacillating between object and optical phenomena continuously disassembling and reassembling The idea that one must turn away from nature in order to see it is a loaded concern at the crux of Fernandez new works states David Norr Nature for Fernandez is a fabrication of culture where cinematic illusions industrial design and lasting ephemeral experience intertwine collapsing artifice and nature into prismatic experience
