Dear **Mr. Johnson**,

I hope this message finds you well. I am writing to inquire about the rental terms for the property located at 789 Elm Street, Springfield, IL 62701. I am very interested in the property and would like to understand the leasing details before proceeding further with my application.

Specifically, I would appreciate information regarding:

- The monthly rent and utilities such as water, electricity, or internet are included.
- The lease duration (e.g., 12 months, 24 months, or month-to-month options).
- The amount of the security deposit, along with any other fees (e.g., application fee, cleaning deposit, or parking fees).
- The pet policy, as I have a small dog (under 20 pounds) and would like to confirm if pets are allowed and if there are any additional costs or restrictions.
- The terms related to lease renewal or termination, including required notice periods.

*Marking Time* Paul Rabinow, 2009-02-09 In *Marking Time* Paul Rabinow presents his most recent reflections on the anthropology of the contemporary. Drawing richly on the work of Michel Foucault, John Dewey, Niklas Luhmann and most interestingly German painter Gerhard Richter, Rabinow offers a set of conceptual tools for scholars examining cutting edge practices in the life sciences, security, new media and art practices and other emergent phenomena. Taking up topics that include bioethics, anger and competition among molecular biologists, the lessons of the *Drosophila* genome, the nature of ethnographic observation in radically new settings and the moral landscape shared by scientists and anthropologists, Rabinow shows how anthropology remains relevant to contemporary debates. By turning abstract philosophical problems into real world explorations and offering original insights, *Marking Time* is a landmark contribution to the continuing reinvention of anthropology and the human sciences.

*Teacher as Designer* David Scott, Jennifer Lock, 2021-02-20 This book offers insights into how design based processes, principles and mindsets can be productively employed in diverse P-16 educational spaces by a myriad of educational actors including teachers, instructional leaders and students. It addresses concerns about the theoretical and practical implications of the still emergent emphasis of design in education. The book begins by examining a number of prominent design processes being used by educators including human centred design, designing for authentic inquiries and Universal Design for Learning. It then delves into how teachers, system leaders and students can engage in educational design within the complex spaces of K-12 contexts. Finally, the book takes up design in education within a maker and making context. Each chapter includes a vignette, a series of guiding questions along with specific design principles that can help address common challenges and issues educators encounter in their practice. This book provides both theoretical and practical elements involved in educational design and is beneficial to scholars, graduate students, educators and pre-service teachers.

**The Language of Mathematics Education** Shannon W. Dingman, Laura B. Kent, Kim K. McComas, Cynthia C. Orton, 2019-08-26 *The Language of Mathematics Education: An Expanded Glossary of Key Terms and Concepts in Mathematics Teaching and Learning* offers mathematics teachers, mathematics education professionals and students a valuable resource in which common terms are defined and expounded upon in short essay format. The shared vocabulary and terminology relating to mathematics teaching and learning and used by mathematics educators is an essential component of work conducted in the field. The authors provide an overview of more than 100 terms commonly used in mathematics teaching and learning. Each term is defined and is followed by a short overview of the concept under discussion that includes several bibliographic references the reader can use for further investigation. In addition to terms specific to the domain of mathematics education, select key terms common across all fields of education, e.g. curriculum, epistemology, metacognition are included. The goal for this book is to serve as a resource for those entering the field as they navigate the language and
