**Six Great Ideas** Mortimer J. Adler, 1997-12-01 This enlightening study is the result of group discussions at Dr Adler's annual seminar in Aspen Colorado and conversations between Dr Adler and Bill Moyers filmed for public television. Each summer Mortimer J. Adler conducts a seminar at the Aspen Institute in Colorado. At the 1981 seminar leaders from the worlds of business, literature, education and the arts joined him in an in-depth consideration of the six great ideas that are the subject of this book: Truth, Goodness and Beauty (the ideas we judge by) and Liberty, Equality and Justice (the ideas we act on). The group discussions and conversations between Dr Adler and journalist Bill Moyers were filmed for broadcast on public television and thousands of people followed their exploration of these important ideas. Discarding the outworn and off-putting jargon of academia, Dr Adler dispels the myth that philosophy is the exclusive province of the specialist. He argues that philosophy is everybody's business and that a better understanding of these fundamental concepts is essential if we are to cope with the political, moral and social issues that confront us daily.

**Eternalism Politics** Dale Armon Eaton, 2025-07-17 Eternalism is the philosophical appeal of the restored gospel. It is the rational basis for understanding Christ. Elder John A. Widtsoe said: "The Gospel may be said to be the philosophy of Eternalism. It is the philosophy that explains the whole of man's relationship to the universe. It invites the deepest study and the severest scrutiny. The previous *Eternalism* book discussed only the first three branches of philosophy: metaphysics, epistemology and ethics. In this book we pick up where the previous volume left off and deal specifically with primacy issues related to the higher philosophical branch of politics." Mortimer Adler explained: "In discussing the philosophical branch of politics we focus on the ideas we act on in governing our social, political and economic affairs. So when we say *Eternalism Politics* we simply mean the principles of interaction between two or more people."

Mortimer J. Adler, 2009-08-01 In this classic work Adler explores how man differs from all other things in the universe bringing to bear both philosophical insight and informed scientific hypotheses concerning the biological and behavioral characteristics of mankind Rapid advances in science and technology and the abstract concepts of that influence on man and human value systems are lucidly outlined by Adler as he touches on the effect of industrialization and the clash of cultures and value systems brought about by increased communication between previously isolated groups of people Among the other problems this study addresses are the scientific achievements in biology and physics which have raised fundamental questions about humanity's essential nature especially the discoveries in the biological relatedness of all living things Thrown into high relief is humanity's struggle to determine its unique status in the natural world and its value in the world it has created Ultimately Adler's work develops an approach to the separation between scientific and philosophical questions which stands as a model of thought on philosophical considerations of new scientific discoveries and its consequences for the human person

*The Eight Biggest Mistakes Personal Trainers Make*, **Old Ideas, New Practices: When Religion Is for Relationships** Bernard Lawrence Potvin, 2021-03-15 This book is an upstream solution to the problems issues and questions young people struggle with downstream alienation

boredom and mistrust of religion It includes over a hundred teaching strategies tactics logistics and relationship builders that teachers in homes schools and churches can use This book is a treasure chest of old ideas cast into new and proven teaching practices each to be mined for the gem in it Potvin s interest in writing this book however is not to focus on what is broken and ineffective in Christian religious education and a lot of education is broken and ineffective but on what he has learned to be proven to be effective He has drawn from his PhD studies parenting with its perturbations and insights and over forty years of teaching in universities public and faith based schools Jesus gave us our program of studies with much to think about and practice what could work to bring us to our true self friendship with the Creator love for others and justice for all And given the unprecedented trend towards home education and online teaching designed for and led by parents new practices based on old ideas may be just what the doctor ordered A Faithful Guide to Philosophy Peter S.

Williams,2019-02-14 A Faithful Guide to Philosophy is the only British Christian introduction to philosophy a book that will be used as a course textbook and by church study groups and individual readers alike It covers a broad range of subjects of central importance to the Christian worldview and will be prized by many A Radical Proposal to Reinvigorate the Teaching of the Liberal Arts Michael Wayne Santos,2020-09-15 This book offers a clarion call in the words of Franklin Roosevelt to try something And not just any something A systematic integrated chronological multi disciplinary approach to reinvigorate the teaching of the liberal arts and put them back where they belong at the center of a student s educational experience It does not pretend to offer a cure all or a one size fits all solution to everything that is ailing American higher education or even secondary education It does however offer a place to begin a discussion to invite experimentation and to initiate reform based on solid pedagogy and 2 500 years of time tested wisdom in the human experience As such it should be of interest to many people Those in higher education serious about the crisis facing their institutions could benefit from taking up the gauntlet this volume throws down For students and parents the book raises alternatives and poses some hard questions that they should be asking not only as they consider colleges and universities but of their secondary schools In fact anyone who keeps a close eye on the state of education would be interested in what this book adds to the discussion
