Rice, Martha B. Katz-Hyman, 2010-12-13 This two volume encyclopedia is the first to focus on the material life of slaves Although many encyclopedias discuss slavery enslaved blacks and African American life and culture none focus on the material world of slaves such as what they saw touched heard ate drank and smoked wore worked with and in used cultivated crafted played and played with and slept on The two volume *World of a Slave Encyclopedia of the Material Life of Slaves in the United States* is a landmark work in this important new field of study Recognizing that a full understanding of the complexity of American slavery and its legacy requires an understanding of the material culture of slavery the encyclopedia includes entries on almost every aspect of that material culture beginning in the 17th century and extending through the Civil War Readers will find information on animals documents economy education and literacy food and drink home music personal items places religion rites of passage slavery structures and work There are also introductory essays on literacy and oral culture and on music and dance Love Cemetery China Galland, 2007-06-12 By the eve of the Civil War there were four million slaves in North America and Harrison County was the largest slave owning county in Texas So when China Galland returned to research her family history there it should not have surprised her to learn of unmarked cemeteries for slaves My daddy never let anybody plow this end of the field a local matron told a startled Galland during a visit to her antebellum mansion The slaves are buried there Galland s subsequent effort to help restore just one of these cemeteries *Love Cemetery* unearths a quintessential American story of prejudice land theft and environmental destruction uncovering racial wounds that are slow to heal Galland gathers an interracial group of local religious leaders and laypeople to work on restoring *Love Cemetery* securing community access to it and rededicating it to the memories of those buried there In her attempt to help reconsecrate *Love Cemetery* Galland unearths the ghosts of slavery that still haunt us today Research into county historical records and interviews with local residents uncover two versions of history one black one white Galland unpacks these tangled narratives to reveal a history of shame of slavery and

lynching Jim Crow laws and land takings the theft of land from African Americans and ongoing exploitation of the land surrounding the cemetery by oil and gas drilling With dread she even discovers how her own ancestors benefited from the racial imbalance She also encounters some remarkable inspiring characters in local history Surprisingly the original deed for the cemetery s land was granted not by a white plantation owner but by Della Love Walker the niece of the famous African American cowboy Deadwood Dick Through another member of the Love Cemetery committee Galland discovers a connection to Marshall s native son James L Farmer a founder of Congress of Racial Equality CORE and organizer of the 1961 Freedom Riders In researching local history Galland also learns of the Colored Farmers Alliance a statewide group formed in the 19th century that took up issues ranging from low wages paid to cotton pickers to emigration to Liberia By telling this one story of ultimate interracial and intergenerational cooperation Galland provides a model of the kind of communal remembering and reconciliation that can begin to heal the deep racial scars of an entire nation

*The Archaeology of Slavery in Early Medieval Northern Europe* Felix Biermann, Marek Jankowiak, 2021-11-18 This volume is the first comprehensive study of the material imprint of slavery in early medieval Europe While written sources attest to the ubiquity of slavery and slave trade in early medieval British Isles Scandinavia and Slavic lands it is still difficult to find material traces of this reality other than the hundreds of thousands of Islamic coins paid in exchange for the northern European slaves This volume offers the first structured reflection on how to bridge this gap It reviews the types of material evidence that can be associated with the institution of slavery and the slave trade in early medieval northern Europe from individual objects such as e g shackles to more comprehensive landscape approaches The book is divided into four sections The first presents the analytical tools developed in Africa and prehistoric Europe to identify and describe social phenomena associated with slavery and the slave trade The following three section review the three main cultural zones of early medieval northern Europe the British Isles Scandinavia and Slavic central Europe The contributions offer methodological reflections on the concept of the archaeology of slavery They emphasize that the material record by its nature admits multiple interpretations More broadly this book comes at a time when the history of slavery is being integrated into academic syllabi in most western countries The collection of studies contributes to a more nuanced perspective on this important and controversial topic This volume appeals to multiple audiences interested in comparative and global studies of slavery and will constitute the point of reference for future debates

[This Is Our Home](#) Whitney Nell Stewart, 2023-11-06 The cultural memory of plantations in the Old South has long been clouded by myth A recent reckoning with the centrality of slavery to the US national story however has shifted the meaning of these sites Plantations are no longer simply seen as places of beauty and grandiose hospitality their reality as spaces of enslavement exploitation and violence is increasingly at the forefront of our scholarly and public narratives Yet even this reckoning obscures what these sites meant to so many forced to live and labor on them plantations were Black homes as much as white Insightfully reading the built environment of plantations considering artifact fragments found in excavations of slave dwellings and drawing on legal records and plantation owners papers Whitney Nell Stewart illuminates how enslaved people struggled to make home amid innumerable constraints and obstacles imposed by white southerners By exploring the material remnants of the past Stewart demonstrates how homemaking was a crucial part of the battle over slavery and freedom a fight that continues today in consequential confrontations over who has the right to call this nation home

**Slavery in the Age of Memory** Ana Lucia Araujo, 2020-10-15 Exploring notions of history collective memory cultural memory public memory official memory and public history Slavery in the Age of Memory Engaging the Past explains how ordinary citizens social groups governments and institutions engage with the past of slavery and the Atlantic slave trade It illuminates how and why over the last five decades the debates about slavery have become so relevant in the societies where slavery existed and which participated in the Atlantic slave trade The book draws on a variety of case studies to investigate its central questions How have social actors and groups in Europe Africa and the Americas engaged with the slave past of their societies Are there any relations between the demands to rename streets of Liverpool in England and the protests to take down Confederate monuments in the United States How have black and white social actors and scholars influenced the ways slavery is represented in George Washington's Mount Vernon and Thomas Jefferson's Monticello in the United States How do slave cemeteries in Brazil and the United States and the walls of names of Whitney Plantation speak to other initiatives honoring enslaved people in England and South Africa What shared problems and goals have led to the creation of the International Slavery Museum in Liverpool and the National Museum of African American History and Culture in Washington DC Why have artists used their works to confront the debates about slavery and its legacies The important debates addressed in this book resonate in the present day Arguing that memory of slavery is racialized and gendered the book shows that more than just attempts to come to terms with the past debates about slavery are associated with the persistent racial inequalities racism and white supremacy which still shape societies where slavery existed Slavery in the Age of Memory Engaging the Past is thus a vital resource for students and scholars of the Atlantic world the history of slavery and public history
