Slavery And The Numbers Game A Critique Of Time On The Cross:

Slavery and the Numbers Game Herbert George Gutman, 2003 This detailed analysis of slavery in the antebellum South was written in 1975 in response to the prior year's publication of Robert Fogel and Stanley Engerman's controversial *Time on the Cross* which argued that slavery was an efficient and dynamic engine for the southern economy and that its success was due largely to the willing cooperation of the slaves themselves. Noted labor historian Herbert G. Gutman was unconvinced even outraged by Fogel and Engerman's arguments. In this book he offers a systematic dissection of *Time on the Cross* drawing on a wealth of data to contest that book's most fundamental assertions. A benchmark work of historical inquiry, Gutman's critique sheds light on a range of crucial aspects of slavery and its economic effectiveness. Gutman emphasizes the slaves' responses to their treatment at the hands of slaveowners. He shows that slaves labored not because they shared values and goals with their masters but because of the omnipresent threat of negative incentives, primarily physical violence. In his introduction to this new edition, Bruce Levine provides a historical analysis of the debate over *Time on the Cross*. Levine reminds us of the continuing influence of the latter book demonstrated by Robert W. Fogel's 1993 Nobel Prize in Economic Sciences and hence the importance and timeliness of Gutman's critique. *Perspectives and Irony in American Slavery* Harry P. Owens, 1977 *Slavery and Forced Migration in the Antebellum South* Damian Alan Pargas, 2015 This book sheds new light on domestic forced migration by examining the experiences of American born slave migrants from a comparative perspective. It analyzes how different migrant groups anticipated, reacted to, and experienced forced removal as well as how they adapted to their new homes. **Society and Culture in the Slave South** J. William Harris, 2013-02-01 Combining established work with that of recent provocative scholarship on the antebellum South, this collection of essays puts students in touch with some of the central debates in this dynamic field. It includes substantial excerpts from the work of Eugene Genovese and Elizabeth Fox-Genovese who lay out the influential interpretation of the South as a paternalistic society and culture, and contributions from more recent scholars who provide dissenting or alternative interpretations of the relations between masters and slaves and men and women. The essays draw on a wide range of disciplines including economics, psychology, and anthropology to investigate the nature of plantation and family life in the South. Explanatory notes guide the reader through each essay, and the Editor's introduction places the work in its historiographical context. *Invisible Criticism* Alan Nadel, 1988 Paper reissue of the 1972 edition. Crane argues that the social institution responsible for the growth of scientific knowledge is the small group of highly productive scientists who, sharing the same field of study, set priorities for research, recruit and train students, communicate with one another, and thus monitor the rapidly changing structure of knowledge in their field. First published in hardcover in 1988, Nadel exposes some of the ways Ellison situates *Invisible Man* in regard to the American literary tradition, comments on that tradition, and in doing so, alters it. Known for My Work Lynda J. view of African America What emerges from the literature is a clear critique of racism an embrace of self defense and the belief that they deserved reparations for lost labor Enslaved laborers thought for themselves imagined themselves and made themselves Moreover their descendants share this moral legacy as a foundation for citizenship and participation in democracy *An Abolitionist in the Appalachian South* Ezekiel Birdseye, Durwood Dunn, 1997 This volume a collection of letters written by an abolitionist businessman who lived in East Tennessee prior to the Civil War provides one of the clearest firsthand views yet published of a region whose political social and economic distinctions have intrigued historians for more than a century Between 1841 and 1846 Birdseye expressed his views and observations in letters to Gerrit Smith a prominent New York reformer who arranged to have many of them published in antislavery newspapers such as the *Emancipator* and *Friend of Man* Those letters reproduced in this book drew on Birdseye's extensive conversations with slaveholders nonslaveholders and the slaves themselves He found that East Tennesseans on the whole were antislavery in sentiment susceptible to rational abolitionist appeal and generally far more lenient toward individual slaves than were other southerners Opposed to slavery on economic as well as moral grounds Birdseye sought to establish a free labor colony in East Tennessee in the early 1840s and actively supported the region's abortive effort in 1842 to separate itself from the rest of the state book jacket

Racial Classification and History E. Nathaniel Gates, 1997 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Authoritative commentary The series editor has put together a balanced selection of the most significant works accompanied by expert commentary A general introduction gives important background information and outlines fundamental issues current scholarship and

scholarly controversies Introductions to individual volumes put the articles in context and draw attention to germinal ideas and major shifts in the field After reading the material even a beginning student will have an excellent grasp of the basics of the subject Also available individually by volume 1 The Concept of Race in Natural and Social Science 0 8153 2600 9 288 pages 2 Cultural and Literary Critiques of the Concepts of Race 0 8153 2601 7 3 Racial Classification and History 0 8153 2602 5 4 The Judicial Isolation of the Racially Oppressed 0 8153 2599 1 A Companion to the American South John B. Boles, 2008-04-15 A Companion to the American South surveys and evaluates the most important and innovative writing on the entire sweep of the history of the southern United States Contains 29 original essays by leading experts in American Southern history Covers the entire sweep of Southern history including slavery politics the Civil War race relations religion and women s history Surveys and evaluates the best scholarship on every important era and topic Summarizes current debates and anticipates future concerns *Southern Manhood* Craig Thompson Friend, Lorri Glover, 2004 Spanning the era from the American Revolution to the Civil War these nine pathbreaking original essays explore the unexpected competing or contradictory ways in which southerners made sense of manhood Employing a rich variety of methodologies the contributors look at southern masculinity within African American white and Native American communities on the frontier and in towns and across boundaries of class and age Until now the emerging subdiscipline of southern masculinity studies has been informed mainly by conclusions drawn from research on how the planter class engaged issues of honor mastery and patriarchy But what about men who didn t own slaves or were themselves enslaved These essays illuminate the mechanisms through which such men negotiated with overarching conceptions of masculine power Here the reader encounters Choctaw elites struggling to maintain manly status in the market economy black and white artisans forging rival communities and competing against the gentry for social recognition slave men on the southern frontier balancing community expectations against owner domination and men in a variety of military settings acting out community expectations to secure manly status As *Southern Manhood* brings definition to an emerging subdiscipline of southern history it also pushes the broader field in new directions All of the essayists take up large themes in antebellum history including southern womanhood the advent of consumer culture and market relations and the emergence of sectional conflict Slave Law in the American South Mark V. Tushnet, 2003 Tying together legal historical social political and literary strands to show how the law itself was implicated in the persistence of slavery this work sheds new light on slavery and Southern history as it probes the conscience of a troubled jurist incapable of fully transcending his times
