**The Interruption of Eternity** Carl A. Raschke,1980      *The God Pumpers* Marshall William Fishwick,Ray Broadus Browne,1987 The rituals of religion these days as practiced in the United States on television have become big theatre a big show Televangelism is big business amounting to billions of dollars each year Televangelists discussed are Billy Graham Jimmy Swaggert Jerry Falwell Jim and Tammy Bakker Terry Cole Whittaker Marilyn Hickey Danuto Rylko Soderman and Beverly LaHaye      **American Feminism and the Birth of New Age Spirituality** Catherine Tumber,2002 Based largely on research in popular journals self help manuals newspaper accounts and archival collections American Feminism and the Birth of New Age Spirituality demonstrates that the New Age movement first flourished more than a century ago during the Gilded Age under the mantle of New Thought Tumber pays close attention to the ways in which feminism became grafted with varying degrees of success to emergent forms of liberal culture in the late nineteenth century and questions the value of the new age movement then and now to the pursuit of women s rights and democratic renewal Visit our website for sample chapters      **Mental Illness in Popular Culture** Sharon Packer MD,2017-05-24 Being crazy is generally a negative characterization today yet many celebrated artists leaders and successful individuals have achieved greatness despite suffering from mental illness This book explores the many different representations of mental illness that exist and sometimes persist in both traditional and new media across eras Mental health professionals and advocates typically point a finger at pop culture for sensationalizing and stigmatizing mental illness perpetuating stereotypes and capitalizing on the increased anxiety that invariably follows mass shootings at schools military bases or workplaces on public transportation or at large public gatherings While drugs or street gangs were once most often blamed for public violence the upswing of psychotic perpetrators casts a harsher light on mental illness and commands media s attention What aspects of popular culture could play a role in mental health across the nation How accurate and influential are the various media representations of mental illness Or are there unsung positive portrayals of mental illness This standout work on the intersections of pop culture and mental illness brings informed perspectives and necessary context to the myriad topics within these important timely and controversial issues Divided into five sections the book covers movies television popular literature encompassing novels poetry and memoirs the visual arts such as fine art video games comics and graphic novels and popular music addressing lyrics and musicians lives Some of the essays reference multiple media such as a filmic adaptation of a memoir or a video game adaptation of a story or characters that were originally in comics With roughly 20 percent of U S citizens taking psychotropic prescriptions or carrying a psychiatric diagnosis this timely topic is relevant to far more individuals than many people would admit      **The Da Vinci Hoax** Carl E. Olson,Sandra Miesel,2004-01-01 Discusses the misconceptions and historical errors of The Da Vinci Code while examining early Christian origins Gnosticism the role of Constantine in Christian history and the novel s accusations against the Catholic Church      *The Universe Next Door* James

W. Sire,1976      **The Emerging Network** Michael York,1995 The 1980s saw the emergence of New Age and neo paganism as major new religious movements In the first book length study of these movements Michael York describes their rituals and beliefs and examines the similarities differences and relationships between them He profiles particular groups including the Church Universal Triumphant Nordic pagans and the Covenant of Unitarian Pagans and questions the adequacy of existing sociological categories for describing these largely amorphous phenomena      *A John Haught Reader* John F. Haught,2018-11-06 Classical Christian theologies came to expression at a time when the universe seemed relatively fixed and unchanging The otherworldly spiritual instincts of many religions reflected a static vertical and hierarchical understanding of the natural world Today however especially because of developments in the sciences it appears that the universe is still coming into being The writings offered in this book reflect their author s belief that if the universe is unfinished new thoughts about God and all the traditional theological topics are essential to make sense of it all John Haught argues that the universe is best understood according to the metaphor of drama rather than design This means that the most important question in science and theology today is not whether the intricate complexity of life points to a deity or even how God acts in nature but whether the cosmic drama as a whole carries a meaning Unfortunately the devotional life of most religious people on our planet still presupposes an essentially immobile universe Christian instruction for example continues to nurture an otherworldly piety that estranges nature unnecessarily from God The readings in this book however suggest that the ancient Abrahamic hope for the coming of God from out of the future may now become the foundation of a scientifically up to date theology of nature that affirms divine transcendence without robbing nature of its significance      **Requiem For Modern Politics** William Ophuls,2019-05-20 This long promised sequel to Ophuls s influential and controversial classic *Ecology and the Politics of Scarcity* is an equally provocative critique of the liberal philosophy of government Ophuls contends that the modern political paradigm that is the body of political concepts and beliefs bequeathed to us by the Enlightenment is no longer intellectually tenable or practically viable Our attempt to live individualistically hedonistically and rationally has failed utterly causing a comprehensive crisis that is at once political military economic ecological ethical psychological and spiritual Liberal politics has abandoned virtue rejected community and flouted nature thereby becoming the author of its own demise By exposing the intrinsically contradictory and self destructive character of Hobbesian political systems Ophuls subverts our conventional wisdom at every turn Indeed his impassioned text reads more like a Greek tragedy than a conventional political argument He critiques feminism multiculturalism the welfare state and a host of other liberal shibboleths but Ophuls is not yet another neoconservative The aim of his thesis is far more radical and progressive offering a political vision that entirely transcends the categories of liberal thought His is a Thoreauvian vision of a politics of consciousness rooted in ecology as the moral and intellectual basis for governance in the twenty first century Ophuls holds that a polity based on a renewed erotic connection with nature offers a genuine solution to this crisis of contemporary civilization and that only within such a polity

will it be possible to fulfill the worthy liberal goal of individual self development Ophuls's work will interest and challenge a wide spectrum of readers though it will not necessarily be well liked or easily accepted No one will put down this book with his or her settled convictions about American culture intact nor will readers ever again take modern civilization and its survival for granted

**Great Awakenings** Frank Hoffmann, Marshall Fishwick, Beulah B Ramirez, 2013-11-12 As religious fervor grows Dr Fishwick a recipient of the Ray and Pat Browne Award for Lifetime Achievement from The American Culture Association takes a sweeping look at religion in the United States the country with the highest church attendance in the Western world Popular religion can take many shapes and forms It can wax and wane but it cannot be eliminated or ignored That is what prompted him to write *Great Awakenings Popular Religion and Popular Culture* He ponders how religion affects American life and popular culture and why religion has become a major force in contemporary politics How has the Electronic Revolution furthered the religious right What does popular religion tell us about popular culture And about our faith He identifies and explores five great religious revivals or Great Awakenings the Atlantic Seaboard Awakening the Urban Awakening the Modernist Awakening the Celebrity Preacher Awakening the Electronic Awakening Fishwick explores the current events preceding and during each awakening its leaders followers and critics *Great Awakenings* gives a new understanding of the American religious past and leaves us with an anticipation for the next great awakening

*Western Esotericism and the Science of Religion* International Association for the History of Religions. Congress, International Association for the History of Religions, 1998 This volume is based upon papers read during the innovative section Western Esotericism and the Science of Religion organized at the 17th International Congress of the International Association for the History of Religions IAHR in Mexico City August 5-12 1995 The section was created in order to fill a long standing hiatus in the academic study of religions whereas phenomena such as gnosticism and hermetism in antiquity and even the occult sciences of that period have long been recognized as subjects worthy of serious investigation the history of similar and related phenomena in more recent periods has hardly received the same measure of scholarly attention and recognition The present volume is devoted to the academic emancipation of these areas as constituting a legitimate domain of research which may be referred to by the generic label western esotericism Preceded by an introductory essay on the birth of this new discipline in the study of religion the volume provides a sample of current research in the field and devotes special attention to some central methodological questions

**Revisioning Environmental Ethics** Daniel A. Kealey, 1990-01-01 Using the psychohistorical schema of Jean Gebser Kealey analyzes the positions of environmental ethicists and concludes that the first four of Gebser's structures of consciousness are inadequate to meet the present crisis Drawing on Plotinus Aurobindo and Max Scheler Kealey outlines an adequate fully integral ecological ethic

*Alan Watts - In the Academy* Alan Watts, 2017-04-24 Gold Winner 2017 Foreword INDIES Book of the Year Awards in the Philosophy category To commemorate the 2015 centenary of the birth of Alan Watts 1915-1973 Peter J Columbus and Donadrian L Rice have assembled a much

needed collection of Watts's scholarly essays and lectures. Compiled from professional journals, monographs, scholarly books, conferences, and symposia proceedings, the volume sheds valuable light on the developmental arc of Watts's thinking about language and mysticism, Buddhism and Zen, Christianity, comparative religion, psychedelics, and psychology, and psychotherapy. This definitive collection challenges Watts's reputation as a popularizer or philosophical entertainer, revealing his concerns to be much more expansive and transdisciplinary than is suggested by the parochial Zen Buddhist label commonly affixed to his writings. The editors' authoritative introduction elucidates contemporary perspectives on Watts's life and work and supports a bold rethinking of his contributions to psychology, philosophy, and religion. *The Soul in Cyberspace* Doug Groothuis, 1999-03-08 While most Christians are content with a superficial and pragmatic assessment of the new information technologies, Douglas Groothuis probes more deeply. He wisely recognizes the symbolic power of technology: machines don't just do things; they shape us by equipping our imaginations and language with powerful new images, metaphors, and assumptions. Groothuis has done a great service in alerting us to the temptations that will challenge the twenty-first-century church and in providing the tools to discern what is real, what is true, and what is to be treasured. Ken Myers [The Pauline Concept of Supernatural Powers](#) Kabiro wa Gatumu, 2009-02-20 The study of supernatural powers is fraught with vexing hermeneutical challenges which aggravate further in the African context. While on the one hand, Western anthropology tends to discount the idea of supernatural powers by attempting to explain them away, on the other, Western biblical scholarship has mainly worked from the premise of demythologizing them. But none of these approaches make tangible sense to African scholars for whom supernatural powers constitute an integral component of their spiritual psyche. This book, based on an examination of over a thousand documentary sources, both classic and modern, attempts to address the issue of interpreting supernatural powers from an African worldview. The author analyzes, identifies, and critiques major hermeneutical errors and offers a bridging hermeneutic using the method of reader response criticism. [Liber 420](#) Chris Bennett, 2018-04-20 Although little known, cannabis and other psychoactive plants held a prominent and important role in the Occult arts of Alchemy and Magic, as well as being used in ritual initiations of certain secret societies. Find out about the important role cannabis played in helping to develop modern medicines through alchemical works. Cannabis played a pivotal role in spagyric alchemy and appears in the works of alchemists such as Zosimos, Avicenna, Lull, Paracelsus, Cardano, and Rabelais. Cannabis also played a pivotal role in medieval and renaissance magic, and recipes with instructions for its use appear in a number of influential and important grimoires such as the Picatrix, Sepher Raxiel, Liber Salomonis, and The Book of Oberon. Could cannabis be the Holy Grail? With detailed historical references, the author explores the allegations that the Templars were influenced by the hashish ingested by Assassins of medieval Islam and that myths of the Grail are derived from the Persian traditions around the sacred beverage known as haoma, which was a preparation of cannabis, opium, and other drugs. Many of the works discussed have never been translated into English or published in centuries. The unparalleled

research in this volume makes it a potential perennial classic on the subjects of both medieval and renaissance history of cannabis as well as the role of plants in the magical and occult traditions

Contemporary American Theologies Deane W. Fernald, 2004-04-15 An up to date book that surveys almost all of the contemporary schools of Christian thought in America well structured and methodically developed clearly written and easy to read Fernald does an excellent job of pointing out all the differences among the leading thinkers of each camp Fernald's greatest asset is his uncanny ability to synthesize these diverse theologies into a larger conceptual whole without diminishing their distinctiveness A landmark of clarity

Richard Quebedeaux in *The Christian Century* Contemporary American Theologies assesses the most significant writers and books that make up evangelical black Roman Catholic feminist and liberation theologies Equally useful as an introduction or as a review

Marianne Sawicki in *Commonweal* *Female Stereotypes in Religious Traditions* Ria Kloppenborg, Wouter J. Hanegraaff, 1995 This volume contains a collection of studies describing and analyzing stereotypes of women in the religions of Ancient Israel and Mesopotamia and in Zoroastrianism Judaism Medieval Christianity Islam Indian Sufism Hinduism Buddhism Tibetan religions and modern Neopaganism In all these traditions the stereotypes are based on generalizations which are socially culturally or religiously legitimized and which seem to have a lasting influence on society's conceptions of women They represent oversimplified opinions which are however regularly challenged by the women who are affected by them In all traditions the stereotypes are ambiguous either because women have challenged their validity or because historical developments in society have reshaped them They influence public opinion by emphasizing dominant views as a strategy to restrain women and to keep them controlled by the rules and morals of male dominated society
