Children's Spirituality, Second Edition Kevin E. Lawson, Scottie May, 2019-06-13 The Society of

Children's Spirituality Christian Perspectives launched in 2003 with its first conference held at Concordia University Chicago in River Forest Illinois. An earlier edition of this book composed of chapters based on presentations from that conference was published in 2004. In 2018 a decision was made to revise this book from the inaugural conference updating some chapters and providing a new perspective on the ongoing work of the organization now called the Children's Spirituality Summit. For example, given the advances in what we are learning from brain research, a chapter on this topic has been extensively updated. What this revised volume provides is a collection of chapters offering theological perspectives, social science research, and insights on ministry practice about the spiritual lives of children, how they relate to God, how this relationship grows, and what helps in promoting the spiritual formation and vitality of children in the home, church, and school. This book offers twenty-three chapters by professors, graduate students, social science researchers, and ministry leaders from different denominational traditions addressing a wide range of issues in theory, research, and ministry practice with children. This second edition offers much to learn from, stimulate your thinking, and improve your practice.

Finding What You Didn't Lose John Fox, 1995-09-01 Poetry discovers and speaks a truth ordinary language cannot express. And the passionate message in *Finding What You Didn't Lose* is that we're all poets capable of giving voice to such truth. Poet teacher John Fox reveals how imagery, sound, metaphor, rhythm, and other poetic elements can help us tell our inner story, heal psychological wounds, discover spiritual connection, and develop the rich creative imagination that lies within us all. Transcending the traditional academic approach to poetry writing, *Finding What You Didn't Lose* deals with craft but more importantly guides readers to explore their deepest feelings and express their own unique insights through the incomparable language of poetry. Through an intermingling of inventive exercises and illustrative poems ranging from Nobel Prize winners to first-time poets, readers are inspired to add their own distinct voice to a world fellowship of poets. For those who already write poetry and the many more who want to, this book is the key to finding what you never lose: your natural inclination to express who you are through the making of poems.
