The Iranian Revolution Its Global Impact:

The Iranian Revolution John L. Esposito, Middle East Institute (Washington, D.C.), Royal Institute of International Affairs, 1990 A wonderfully concise yet complete survey of the background and status of Islamic revivalism in all of its various forms in each region SAIS Review A rich and thoughtful study of one of the most significant events of recent times School of Oriental and African Studies Bulletin Marking the tenth anniversary of the Ayatollah Khomeini's triumphant return to the Islamic Republic of Iran 1989 proved a benchmark year in Iran's history with the condemnation of author Salman Rushdie to execution the denunciation of Iranian liberals and the West the removal of Khomeini's chosen successor and the death of Khomeini himself John L. Esposito introduces The Iranian Revolution with an explanation of why the present is a turning point for Iran He isolates the export of Islamic revolution as central to the Republic's character A concise description of the complexities of that issue is followed by a discussion of its effects within and outside Iran with the majority of the collection then devoted to insightful analyses of the Republic's impact throughout the Islamic world International experts from Iran Europe Africa and the United States assess worldwide impact of the Iranian Revolution on other Muslim societies and give us a remarkable analysis of the status of Islamic revivalism in a far flung array of Islamic states and societies Lebanon Bahrain Egypt Tunisia Nigeria Turkey the USSR the Philippines Malaysia Indonesia and Iraq The book owes its quality not only to the currency of its subject matter but also to its distinguished contributors who address such issues as the failure of the Iranian revolution to replicate itself in other countries and the extent to which Iran's experience has shaped the politics economics and cultures of other countries Sponsors of the book and of the 1989 conference that inspired it are the Middle East Institute the Johns Hopkins School of Advanced International Studies and Royal Institute of International Affairs This objective and thought provoking assessment of the Islamic Republic of Iran's success to date in implementing its objectives as well as its prospects for the future makes timely reading for anyone seeking an understanding of the revolution's impact Contents Part I Iran 1 Introduction by John L. Esposito, Royal Institute of International Affairs, James P. Piscatori, Middle East Institute (Washington, D.C.), Johns Hopkins University. School of Advanced International Studies, Royal Institute of International Affairs, 1989 **Identity and Foreign Policy in the Middle East** Shibley Telhami, Michael N. Barnett, 2002 Shibley Telhami and Michael Barnett together with experts on Egypt Iran Iraq Israel Jordan and Syria explore how the formation and transformation of national and state identities affect the foreign policy behavior of Middle Eastern states America and Political Islam Fawaz A. Gerges, 1999 This book chronicles the policy debates on Islamism in the United States over the course of time providing a comprehensive account of the origins of policy followed by a balanced critique and recommendations for change It then delves deeper into the US political scene to analyze the historical political cultural and security issues that might help explain America's preoccupation with Islam and Muslims Furthermore the author sheds much light on the multiplicity of regional and international factors such as the political decay of the Middle Eastern state and the end of the Cold War that shape the thinking of US officials about the contemporary Islamist phenomenon In addition to examining the domestic regional and international context of US Islam policy the book applies and tests the pronouncements of US officials in four representative case studies Iran Algeria Egypt and Turkey Finally Gerges addresses the clash of civilizations debate and assesses the relative weight of culture and values in US officials' words and deeds on Islamism Contesting the Iranian Revolution Pouya Alimagham, 2020-03-19 Examines the last forty years of Iranian and Middle Eastern history through the prism of the Green Uprisings of 2009 Critical Turning Points in the Middle East N. Al-Rodhan, G. Herd, L. Watanabe, 2011-04-28 This book takes a novel look at the modern Middle East through the prisms of six cascading negative critical turning points It identifies the seeds of a potential seventh in the collective dignity deficits generated by poor governance paradigms and exacerbated by geopolitical competition for the region's natural resources *Diplomatic Strategies of Rising Nations in the Global South* Jacqueline Anne Braveboy-Wagner, 2024-07-12 At a time of change in the international system this book examines how non traditional leading nations from the Global South have fared to date and what the chances are of their rise to continue In the second decade of the twenty first century the enthusiasm of observers of the international scene about the rise of the rest is waning as many countries that were expected to lead the

evolving multipolar order are experiencing economic contraction and governance problems In order to predict further developments the contributors to this volume focus on the types and sources of the diplomatic strategies that must be executed by rising states if they are to preserve domestic advances as well as gain influence regionally and internationally Through a comprehensive examination of case studies from Latin America Africa Asia and the Middle East they show that while there are commonalities among these rising states unique domestic conditions values and traditions impact and predict diplomatic strategizing and the ability for sustained projection on the international scene

From Revolution to War Patrick J. Conge, 2010-05-25 In the history of international relations few events command as much attention as revolution and war Over the centuries revolutionary transformations have produced some of the most ruinous and bloody wars Nevertheless the breakdown of peace in time of revolution is poorly understood Patrick Conge offers a groundbreaking study of the relationship between war and revolution How can we best understand the effect of revolutionary transformations on the politics of war and peace Conge argues that it is only by bringing in first the organizational capacity of revolutionary regimes to extract resources and convert them into military strength and second the power of transformative ideas to transcend national boundaries and undermine the ability of opposing regimes to compromise that we are best able to understand the effect of revolution on the origins and persistence of war By incorporating such key elements this book provides a new more comprehensive explanation of the relationship between revolution war and peace Conditions that lead to and sustain wars in general are identified and placed in the light of revolutionary transformations Once the argument is presented historical case studies are used to test its plausibility Conge demonstrates the importance of the effect of revolutionary organization and ideas on the outcome of conflicts Political scientists historians sociologists and the general reader interested in the politics of war and peace in revolutionary times are given new perspectives on the relationship between revolution and war as well as on the implications of political organization for military power and the process of consolidation of new regimes Patrick J Conge is Assistant Professor of Political Science University of Arkansas

Iran's Persian Gulf Policy Dr Christin Marschall, 2003-12-08 This book examines the foreign policy of the Islamic Republic of Iran towards the states of the Persian Gulf from 1979 to 1998 It covers perceptions Iranians and Arabs have of each other Islamic revolutionary ideology the Iran Iraq war the Gulf crisis the election of President Khatami and finally the role of external powers such as the United States The author argues that over the twenty year period the policy has moved from being ideological to pragmatic and that by tracing its history we can better anticipate its future relationship

The Politics and Security of the Gulf Jeffrey R. Macris, 2010-01-21 Since the 19th century the Gulf region has been an area of intense interest having been influenced first by the British and more recently by the Americans This book charts the changing security and political priorities of these two powers and how they have shaped the region Adopting a narrative approach the author provides background history on British involvement from the 19th century and a detailed analysis of the years after the Second World War when oil supply became more critical He covers the growth of US influence

and the British withdrawal and follows more recent changes as the US built up its military presence following Desert Storm and the invasion of Iraq Looking at the three enduring missions fulfilled by the British maintaining interstate order protecting the free flow of commerce which later included petroleum and keeping out other Great Powers the book demonstrates how these had by 1991 been assumed almost entirely by the American leaders A comprehensive and thorough look at the history of the Gulf and the contemporary issues affecting the region this will be essential reading for students of Middle East history military history and diplomatic history Visit the author s website at www.thepoliticsandsecurityofthegulf.com

The Islamic Republic and the World Maryam Panah, 2007-09-20 Iran is now in the eye of the storm As events in Iraq deteriorate a US invasion of Iran looms as a real threat This book provides a detailed analysis of Iran s recent history and in particular how the country has been shaped by the 1979 revolution It is often forgotten that modern Iran is a revolutionary republic that arose out of the overthrow of the old secular and very pro western regime Since the revolution this has been replaced by an Islamic State Maryam Panah explores the Iranian revolution in its international context and examines the different forces at play within the country and how these conflicting political interests continue to mould the country today and shape its external relations

Revolutionary Contagion and International Politics Chad E. Nelson, 2022 A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In *Revolutionary Contagion* Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion
