**Xueyi Lu**

## **The Japanese Social Structure Its Evolution In The Modern Century:**

The Japanese Social Structure 日本社会, 1982      **Japanese History & Culture from Ancient to Modern Times** John W. Dower, 1986      *The Japanese Social Structure* Tadashi Fukutake, 1986      **Japanese Studies from Pre-History to 1990** Richard Perren, 1992      *Modern Japanese society / edited by Josef Kreiner, Ulrich Hohwald and Hans Dieter Olschleger.* Josef Kreiner, Ulrich Mèohwald, Hans Dieter Ölschleger, 2004 Is Japanese society essentially different from other modern industrialized societies or not This survey work with contributions from the leading scholars in this complicated field presents a full overview of the most important aspects of Japanese society which may lead the reader to find an answer to these two often asked questions Japanese society defined as those institutions shaping the life of individuals and groups as well as being responsible for the dynamics of social development is shown to be as modern as any other industrialized society definitely distinct though are the ways in which institutions are defined and organised as a result of different social and historical roots of the process of modernization      *Japan since 1945* Dennis Smith, 1995-08-07 Few historians have attempted an account of Japan since 1945 yet the country s emergence as the second largest economy in the world has been one of the most dramatic and significant developments since the Second World War Dennis Smith s work takes a deliberately historical approach in the belief that it is impossible to assess the nature of post war Japan s achievement without first considering the significance of the pre war and wartime legacy It blends politics and economics aware that in Japan the close links between the worlds of politics government and of business deny rigid divisions      **Introduction to Japanese Politics** Louis D. Hayes, 2017-08-07 Introduction to Japanese Politics now in its fully updated sixth edition is a comprehensive and current review of political and public policy developments in Japan Since the previous edition Japan s economic policy has undergone significant change with a prolonged period of deflation having altered the dynamics of the Japanese economy At the same time the Abe administration has expanded Japan s international security participation previously limited by the constitution while China s activities in the South China Sea have impinged upon Japan s territorial claims This classic introduction to the Japanese political system has been revised and fully updated in this sixth edition to take into account these widespread changes in the country s political life Building on the structure and content of the previous edition this new edition covers An overview of Japan s geographical setting and history Japan s political institutions processes and actors Recent organizational ideological and policy changes in the LDP since its return to power The country s distinctive social order and its educational healthcare and public safety systems The increasingly contentious realm of foreign relations and security issues including China s expanding role and the effect of North Korea s development of nuclear weapons This broad ranging textbook continues to be essential reading for students of Japanese politics international politics and Japanese studies      **Traversing Legal Traditions** George Mousourakis, 2025-07-01 This textbook provides clear reliable and comprehensive insights into key topics in comparative law and legal history As fundamental pillars of modern legal education

comparative law and legal history play a crucial role in shaping a new generation of legal scholars and practicing lawyers who appreciate the significance of legal diversity while recognizing the shared foundations of legal systems worldwide By integrating these two disciplines scholars and professionals can better understand the dominant features and developmental trajectories of various legal systems fostering a broader more culturally informed perspective on the law This approach enables readers to develop the analytical skills and critical standards necessary to address the complexities of an increasingly interconnected and rapidly evolving legal landscape The book is divided into two main parts Part I explores the foundational principles of comparative law tracing its historical evolution and examining its relationship with other areas of legal study It provides an extensive overview of legal comparatism from classical antiquity to the modern period with particular attention paid to the contributions of eighteenth and nineteenth century thinkers who helped shape the field Additionally it assesses the role of comparative law in contemporary legal scholarship lawmaking and judicial decision making highlighting its methodological approaches and practical applications in both domestic and international contexts In turn Part II examines the historical development and defining characteristics of major legal traditions It begins with the Roman and civil law tradition followed by an exploration of the English common law tradition the Islamic legal tradition and various indigenous legal traditions Special attention is given to legal transplantation including a case study on the Japanese legal tradition and its interactions with Chinese and Western legal influences By integrating comparative law and legal history this book provides readers with the knowledge and analytical tools needed to navigate diverse legal traditions and systems promoting a deeper understanding of historical legacies and contemporary legal challenges **Japanese**

**Education since 1945** Edward R. Beauchamp, James M. Vardaman Jr, 2015-05-11 A study of postwar education in Japan which is intended to shed light on the development of Japanese educational policy Major educational documents are included some taken from records of the American occupation forces and others being original translations from Japanese sources

**Introduction to Japanese Politics** Hayes, 2009-05-15 This widely used text is an even handed forthright attempt to explain the political life of Japan as well as the forces that shape it It demystifies this complex society by explaining the historical background for modern Japan the political process its formal structure the party system and citizen participation the social order and the domestic economy and Japan's role in international politics with emphasis on U S Japanese relations and the international economy The revised and updated Third Edition covers the new ground of 1995-1999 a period during which Japan experienced extraordinary political and economic change *Urban Spaces in Japan* Christoph Brumann, Evelyn Schulz, 2012 *Urban Spaces in Japan* explores the workings of power money and the public interest in the planning and design of Japanese space Through a set of vivid case studies of well known Japanese cities including Tokyo Kobe and Kyoto this book examines the potential of civil society in contemporary planning debates Further it addresses the implications of Japan's biggest social problem the demographic decline for Japanese cities and demonstrates the serious challenges and exciting

possibilities that result from the impending end of Japan's urban growth. Presenting a synthetic approach that reflects both the physical aspects and the social significance of urban spaces, this book scrutinizes the precise patterns of urban expansion and shrinkage. In doing so, it also summarizes current theories of public space, urban space, and the body in space, which are relevant to both Japan and the wider international debate. With detailed case studies and more general reflections from a broad range of disciplines, this collection of essays demonstrates the value of cross-disciplinary cooperation. As such, it is of interest to students and scholars of geography and urban planning as well as history, anthropology, and cultural studies.

**The Long Wave in the World Economy** Andrew Tylecote, 2013-09-13 Long waves are cycles of some fifty years' duration in which a period of rapid expansion is followed by one of slow growth or stagnation. This book provides a critical examination of long wave theory and an original explanation of long fluctuations, which is highly relevant to the current crisis in the world economy.

**Miki Kiyoshi 1897-1945** Susan Townsend, 2009-06-15 This book takes us on a fascinating journey through the world of thought of Miki Kiyoshi, one of Japan's pre-eminent philosophers before the Pacific War, and thus makes us discover the man behind the philosopher. His collaboration with government think tanks in the late 1930s has made him highly controversial in historiographical debates. His death in prison six weeks after Japan's defeat hastened the lifting of pre-war restrictions on civil rights in Japan. He was a prolific, diverse, and original thinker, revered by the Japanese as a plain-speaking, deeply humanistic philosopher who connected with the real lives of the people. As a translator, editor, and journalist, he introduced many works of western European literature and philosophy into Japan.

**Myth and Masculinity in the Japanese Cinema** Isolde Standish, 2013-11-05 This study argues that in Japanese popular cinema the tragic hero narrative is an archetypal plot structure upon which male genres such as the war, retro, and yakuza films are based. Two central questions in relation to these post-war Japanese film genres and historical consciousness are addressed: What is the relationship between history, myth, and memory? And how are individual subjectivities defined in relation to the past? The book examines the role of the tragic hero narrative as a figurative structure through which the Japanese people could interpret the events of World War II and defeat, offering spectators an avenue of exculpation from a foreign-imposed sense of guilt. Also considered is the fantasy world of the *nagare mono* drifter or yakuza film. It is suggested that one of the reasons for the great popularity of these films in the 1960s and 1970s lay in their ability to offer men meanings that could help them understand the contradictions between the reality of their everyday experiences and the ideological construction of masculinity.

Handbook of Megacities and Megacity-Regions Danielle Labbé, André Sørensen, 2020-09-25 Exploring the importance of megacities and megacity regions as one of the defining features of the 21st century, this Handbook provides a clear and comprehensive overview of current thinking and debates from leading scholars in the field. Highlighting major current challenges and dimensions of mega-urbanization, chapters form a thematic focus on governance, planning, history, and environmental and social issues, supported by case studies from every continent.

**Social Construction and Social**

**Development in Contemporary China** Xueyi Lu, 2020-01-22 What is the social structure of Chinese society in the 21st century How should China address the problem of migrant workers How can China form a modern society These key sociological issues are some of the topics this book covers This book is a collection of the research articles and lectures that Dr Lu Xueyi the former Head of the Institute of Sociology at the Chinese Academy of Social Sciences has published since the 1980s The author discusses the social structure social stratification social construction and development of contemporary Chinese society Arguing that the gap between economic and social development has become the major social issue facing modern China the author advocates paying close attention to the country's social structure and the growth of the middle class The book will be of interest to all scholars and students of Sociology and Chinese Studies

**Sport: The development of sport** Eric Dunning, Dominic Malcolm, 2003 A collection of texts providing a useful resource for students in the field of sports studies Subject headings include approaches to the study of sport the development and structure of modern sport sport and power relations and major issues in contemporary sport

**Becoming a Farmer in Contemporary Japan** Niccolò Lollini, 2023-10-27 Based on ethnographic fieldwork conducted in an agricultural cooperative running a training programme for aspiring farmers this book explores the possibilities of agrarian and land based modes of livelihood in contemporary Japan The book is organised around the four key hurdles faced by new agricultural entrants the acquisition of land and housing farming know how capital and market outlets New farmers look with fresh eyes at agricultural issues and their experiences provide a vantage point over the institutions shaping rural and agricultural life The book documents the mounting problem of land and house abandonment in regional Japan the role of agriculture in the revitalisation of rural communities and the transformation of Japan's agrifood system To avoid reinforcing Japan's exceptionalism agricultural policy farming practices and fresh food distribution are analysed from a comparative perspective shedding new light on processes of agrarian change in developed market economies Providing an in depth insight into pro rural migration in the face of Japan's shrinking regions and its declining agricultural sector this book will be a valuable resource for students and scholars of Japanese society agrarian policy and rural sociology

**Area Bibliography of Japan** Ria Koopmans-de Bruijn, 1998 Provides a general overview of literature relating to Japan and covers a broad range of subject matter from art feminism and linguistics to corporate culture history and medicine Includes books published since 1980 that are related to the geographical area of Japan and to Japanese culture within that area

**The Japan-US Trade Friction Dilemma** Karen M Holgerson, 2019-05-23 First published in 1998 this study of Japan U S trade friction and the role perceptual differences have played in its evolution differs from its predecessors in key ways First it is interdisciplinary drawing on the research of anthropologists area specialists intercultural communication specialists linguists sociologists and social psychologists as well as that of political scientists and economists Second it both identifies and quantifies perceptual differences between Japanese and American opinion leaders regarding the large bilateral trade imbalances the bilateral relationship and national negotiating styles Third

original data were collected from completed questionnaires sent to 230 American and 230 Japanese opinion leaders from business government academia and the media who had been involved in some way with the rice automotive or semiconductor sectors Fourth the three case studies of trade friction are representative of three differing mixes of trade friction are representative of three differing mixes of trade friction causal factors and perceptual dynamics Finally based on the findings of this study modest suggestions are offered on how the bilateral perceptual gap might be narrowed and trade friction diminished so that the structural and sectoral problems might more effectively be addressed This book should be of interest to scholars government officials and business leaders in Japan the United States and other countries in the global community who are interested in bilateral relations international economic and political affairs and trade friction It should also be of special interest to social psychologists and cross cultural scholars and researchers
