The Jericho Plan Breaking Down The Walls Which Prevent Postabortion Healing:

The Jericho Plan David C. Reardon, 1996 Over the last thirty years abortion has touched literally every extended family The resulting trauma has resulted in broken relationships substance abuse self destructive behavior eating disorders parenting problems alienation from God and more Most of the 50 million American women and men who have had abortions are haunted by their experience But there is no socially acceptable outlet for expressing this forbidden grief So they bottle up their feelings or explode Forbidden Grief lifts the veil of secrecy shrouding abortion's devastating impact on the emotional and spiritual health of women men and their families Through first hand accounts and insightful analysis it reveals the many ways in which memories of a past abortion intrude into women's daily lives Readers will also learn the inside story of the post abortion syndrome cover up and the related political controversy This gripping unforgettable book reveals the secrets that post abortive women only tell their therapists but want everyone to understand Forbidden Grief addresses the need of tens of millions of women family members and friends who want to know how abortion has affected them or their loved ones And most importantly it describes in a Christian context the path to healing and peace Healing Hidden Bruises Arlene Lehmann, 2022-03-26 There is a connection between domestic abuse and coerced abortion Women who go through these experiences often struggle with tremendous feelings of guilt shame grief anger depression and trauma In this book you will find stories of women who endured domestic violence and underwent abortion often under pressure coercion or intimidation You will read about the pain they endured as well as how they found freedom healing and peace Healing Hidden Bruises also takes readers through their own restorative process Full of encouragement for personal reflection exercises prayers and group discussion questions this book is designed to take women through a complete process of recovery freedom forgiveness healing and wholeness Specific topics readers will walk through include Examining the Dynamics of Domestic Violence Getting Free and Staying Safe Finding Your Voice Again Understanding Traumatic Bonding Breaking Soul Ties Starting Healthy Relationships Working through the Different Phases of the Grief Process Finding Forgiveness Understanding How God Sees You Acceptance and Making Peace with the Past Are you ready to start your healing process *The Ethics of Abortion* Christopher Kaczor, 2022-09-30 The overturning of Roe v Wade makes the ethical consideration of abortion more important than ever Appealing to reason rather than religious belief this book is the most comprehensive case against the choice of abortion yet published This third edition of The Ethics of Abortion critically evaluates all the major grounds for denying basic rights to fetal human beings including the views of those who defend not only abortion but also post birth abortion It also provides several non theological justifications for the conclusion that all human beings including those in utero should be respected as persons This book also critiques the view that abortion is not wrong even if the human fetus is a person The Ethics of Abortion examines hard cases for those who are prolife such as abortion in cases of rape or in order to save the woman's life as well as hard cases for defenders of abortion such as sex selection abortion and the rationale for

being personally opposed but publicly supportive of abortion It concludes with a discussion of whether artificial wombs might end the abortion debate Answering the arguments of defenders of abortion this book provides reasoned justification for the view that all intentional abortions are ethically wrong and that doctors and nurses who object to abortion should not be forced to act against their consciences Updates and Revisions to the Third Edition Include Discusses Ahas Burin s 2014 essay Beyond Pragmatism Defending the Bright Line of Birth in chapter 3 Incorporates into chapter 8 David Boonin s cogently argued 2019 book Beyond Roe Why Abortion Should be Legal Even if the Fetus is a Person Expands chapter 9 to examine tragic cases in which prenatal diagnosis determines with certainty that a fetus will die shortly after birth Includes an updated and expanded section in chapter 11 on recent debates about conscience protections Considers in chapter 12 recent arguments that parents have a right to kill if the product of conception is in an artificial womb Updates statistics on numbers of abortions in the United States including corrections to statistics that were once thought true but are now known as erroneous Updated bibliography

Abortion Counseling Rachel Needle, Lenore E. A. Walker, 2007-08-10 The majority of women who have had abortions report feeling happy satisfied and relieved following their abortion Some few women who have had an abortion may experience some feelings of guilt and sadness however this rarely lasts longer than a few days Those very few women who present with prolonged feelings of sadness and mental health problems are women who have either had these problems prior to their abortion had other risk factors or were influenced by frightening demonstrations and inaccurate biased information provided prior to the abortion Through this book the authors hope to train general therapists and counselors in pre and post abortion counseling techniques to avoid women experiencing unnecessary psychological problems created by those who insist that the non existent post abortion syndrome exists Abortion counseling has a critical role to play in ensuring women s mental health is the priority and not the goals of a political agenda Thus Needle and Walker have taken on a complex profound and essential task equipping therapists and abortion counselors with the knowledge and skills needed to help their clients and they have done it well Readers of this book should gain an increased understanding of how women s diverse life circumstances affect their ability to cope with the difficult decisions and circumstances surrounding abortion They will also be better able to build women s resilience and coping skills by having considered them both in the context of women s lives e g coping resources social support partner violence incidence of depression and in the context of socio political agendas that seek to manipulate women s mental health in order to undermine women s reproductive rights In the final analysis it is important to remember that abortion counseling is not about abortion it is about women confronting the decision to bear a child with all of the profound and life changing commitments and responsibilities that entails From the Foreword by Nancy Felipe Russo PhD Regents Professor of Psychology Arizona State University

Abortion, Motherhood, and Mental Health Ellie Lee, Whatever reproductive choices women make whether they opt to end a pregnancy through abortion or continue to term and give birth they are considered to be at risk of suffering serious mental health problems According to opponents of abortion in the United States potential injury to women is a major reason why people should consider abortion a problem On the other hand becoming a mother can also be considered a big risk This fine well balanced book is about how people represent the results of reproductive choices It examines how and why pregnancy and its various outcomes have come to be discussed this way The author s interest in the medicalization of reproduction its representation as a mental health problem first arose in relation to abortion There is a very clear contrast between the construction of women who have abortions implied by moralized argument against abortion and the construction that results when the case against abortion focuses on its effects on women s mental health Lee argues that claims that connect abortion with mental illness have been limited in their influence but this is not to suggest that they have not become a focus for discussion and have had no impact The limits to such claims about abortion do not by any means suggest limits to the process of the medicalization of pregnancy more broadly that is a process of demedicalization The final theme of Ellie Lee s book is the selective medicalization of reproduction Centering on the claim that abortion can create a post abortion syndrome the author examines the medicalization of the abortion problem on both sides of the Atlantic Lee points to contrasts in legal and medical dimensions of the abortion issue that make for some important differences but argues that in both the United States and Great Britain the post abortion syndrome claim constitutes an example of the limits to medicalization and the return to the theme of motherhood as a psychological ordeal Lee makes the case for looking to the social dimensions of mental health problems to account for and understand debates about what makes women ill Ellie Lee is research fellow in the Department of Sociology and Social Policy University of Southampton Highfield United Kingdom

Secret Sin Mary Comm,2006-08-01 Secret Sin When God s People Choose Abortion was written because abortion is one of the last great secret sins that remains in the closet And because the Church hasn t been aware of the magnitude of this secret sin or how it affects those it touches the Church has done little or nothing to help these people suffering silently in their midst to find healing in Christ This book was written to pull back the curtain giving those within the Church an inside look into the world of the post abortive Christian with the intent of spurring them on to begin reaching out to these hurting people with the compassion of Christ **Tough Love** Cynthia Burack,2013-10-31 A staple of the culture wars the struggle between Christian conservatives and progressives over sexuality and reproductive rights continues Focusing on ex gay ministries geared to helping same sex attracted people resist their sexuality and postabortion ministries dedicated to leading

women who have had an abortion to repent that decision Cynthia Burack argues that both are motivated and characterized by a strain of compassion that is particular to Christian conservatism rather than a bias and hatred toward sexual minorities and sexually active women This compassion reproduces the sexual ideology of the Christian right and absolves Christian conservatives from responsibility for stigma and other forms of harm to postabortive and same sex attracted people Using the democratic theory of Hannah Arendt the popular fiction of Ayn Rand and the psychoanalytic thought of Melanie Klein Burack studies the social and political effects of Christian conservative compassion A Solitary Sorrow Teri Reisser, Dr. Paul Reisser, 2011-09-14 This impressive book is written by a family therapist and a physician who have counseled hundreds of post abortive women Honest accurate and practical it offers hope and encouragement to women seeking healing after abortion A must for post abortive women their friends and family pregnancy center counselors and other who seek to help

Catholic Bioethics for a New Millennium Anthony Fisher, 2011-11-17 Can the Hippocratic and Judeo Christian traditions be synthesized with contemporary thought about practical reason virtue and community to provide real life answers to the dilemmas of healthcare today Bishop Anthony Fisher discusses conscience relationships and law in relation to the modern day controversies surrounding stem cell research abortion transplants artificial feeding and euthanasia using case studies to offer insight and illumination What emerges is a reason based bioethics for the twenty first century a bioethics that treats faith and reason with equal seriousness that shows the relevance of ancient wisdom to the complexities of modern healthcare scenarios and that offers new suggestions for social policy and regulation Philosophical argument is complemented by Catholic theology and analysis of social and biomedical trends to make this an auspicious example of a new generation of Catholic bioethical writing which has relevance for people of all faiths and none **Lilies That Fester** John Bossert

Brown, 2022-12-20 The twentieth century promised much in terms of progress Europe was at peace and America was poised to become a world superpower Certain religious leaders envisioned new programs to help the poor while others pondered plans to evangelize the world Protestants in America were divided over issues such as biblical authority and social programs but there was a surface unity and a widespread agreement shared with Catholic and Orthodox Christians about the sanctity of human life an ethic rooted in the Bible and church history Seventy nations responding to medical advances in obstetrics fetology and a growing concern for women s health had moved to prohibit abortion Today 120 years later there is a deep division among Christians and in American society about abortion and much else The causes are no doubt complex but several things are clear Worldwide there have been over one billion unborn children destroyed by abortion There have been seventy three million unborn children destroyed by abortion in the United States over half of them to women who identify as Christians In a century of massive violence due to war planned famines mass executions and terror abortion reigns supreme That the Judeo Christian ethic of the sanctity of life has been shredded owes much to the scandal of Christian discipleship

libro davvero necessario quello che mancava una piccola chiave preziosa per cercare di aprire il cuore di sfondare quella barriera che sembra inesorabilmente dividere quando si parla di aborto di comunicare nel modo giusto con le donne che sono tentate dal dire no alla vita ma soprattutto con quelle che hanno già fatto quel passo un libro che parla ai cuori spezzati con un cuore spezzato dal loro dolore capace di una compassione profonda che credo oggi sia l'unica via da provare a percorrere per trovare ascolto anche tra le orecchie più chiuse dai preconcetti incredibile come Jorge Mar a Randle riesca a giudicare con chiarezza le azioni mantenendo nello stesso momento uno sguardo dolcissimo e misericordioso sulle persone Dalla Prefazione di Costanza Miriano Sono milioni ogni anno i bambini non nati a causa dell'aborto Le vittime non sono per soltanto coloro a cui viene tolta la vita nel grembo materno ma anche le loro madri e i loro padri Queste pagine sono state scritte per loro E di conseguenza mostrano che cosa dire che cosa fare a chiunque si trovi accanto una persona che soffre a causa di un aborto
