The Jewish Contribution To Modern Architecture 1830 193:

Building a Public Judaism Saskia Coenen Snyder, 2013-01-08 Coenen Snyder considers what the architecture and construction of nineteenth century European synagogues reveal about the social progress of modern European Jews The process of claiming a Jewish space was a marker of acculturation but not full acceptance she argues The new edifices even if spectacular revealed the limits of Jewish integration [Index to Jewish Periodicals](#), 2005 An author and subject index to selected and American Anglo Jewish journals of general and scholarly interests **American Book Publishing Record**, 2006 **History of the Jewish Community of Schneidemühl** Peter Simonstein Cullman, 2006 Peter Cullman spent fifteen years compiling a history of Schneidemühl today Piła Poland The result is a portrayal not only of the Jewish minority but also the community in which it resided The book begins by describing the slow growth of this tiny Polish town and the arrival of Jews in the 16th century The reader is provided a detailed account of the synagogues the arrival of rabbis and the changing nature of this community against a background of major European historical events As a result of his painstaking research the author was able to trace the fate of most members of the Jewish community as it existed in the 1930s many of whom could emigrate in time and others who ultimately perished in the Holocaust What is unusual in the book are the detailed person by person chronologies of many as they were deported sent to various towns labor camps and hospices and their ultimate fate An annotated Jewish burial register 1854 1940 lists the names of more than nine hundred persons Today nothing remains of Jewish Schneidemühl but the book brings to life what once was a small but vibrant and notable Jewish community Publisher description [Art Index Retrospective](#), 2006 **The Jewish Contribution to Modern Architecture, 1830-1930** Fredric Bedoire, 2004 A book about architecture and society a wide ranging cultural and historical depiction of successful Jewish entrepreneurs in an increasingly industrialized Europe from the dissolution of the ghetto and the 1848 liberation movement to Hitler's assumption of power in Germany Inspired by Jewish messianism they pursued a modern culture free from the old feudal society The principal characters are bankers merchants and industrialists together with their architects from Schinkel and Semper to Mies van der Rohe and Le Corbusier They build in Paris Berlin and Vienna Budapest and New York and in more remote centers of Jewish entrepreneurial activity such as Oradea Nagyvarad in present day Romania and Łódź in Poland Stockholm and Gothenburg in Sweden The buildings shed new light on the Europe of today but also on a Europe that is lost beyond recall [Jugendstil Women and the Making of Modern Design](#) Sabine Wieber, 2021-10-21 Jugendstil that is Germany's distinct engagement with the international Art Nouveau movement is now firmly engrained in histories of modern art architecture and design Recent exhibitions and publications across the world explored Jugendstil's key protagonists and artistic centres to firmly anchor their activities within the trajectories of German modernism Women however continue to be largely absent from these revisionist accounts [Jugendstil Women and the Making of Modern Design](#) argues that women in fact actively participated in the cultural and socio economic exchanges that

generated German design responses to European modernity By drawing on previously unpublished archival material and a series of original case studies including Elsa Bruckmann's Munich salon the Photo Studio Elvira and the Debschitz School the book explores women's important contributions to modern German culture as collectors consumers critics designers educators and patrons This book offers a new interpretation of this vibrant period by considering diverse manifestations of historical female agency that pushed against historically entrenched conventions and gender roles The book's rigorous approach reshapes Jugendstil historiography by positing women's lived experiences against dominant ideologies that emerged at this precise moment In short the book advocates women as an integral part of the emergence dissemination and reception of Jugendstil and questions the deeply gendered histories of this key period in modern art architecture and design
