Horror Films of 2000-2009 John Kenneth Muir, 2023-03-22 Horror films have always reflected their audiences' fears and anxieties. In the United States, the 2000s were a decade full of change in response to the 9/11 terrorist attacks, the contested presidential election of 2000, and the wars in Iraq and Afghanistan. These social and political changes, as well as the influences of Japanese horror and New French extremism, had a profound effect on American horror filmmaking during the 2000s. This filmography covers more than 300 horror films released in America from 2000 through 2009, including such popular forms as found footage, torture porn, and remakes. Each entry covers a single film and includes credits, a synopsis, and a lengthy critical commentary. The appendices include common horror conventions, a performer hall of fame, and memorable ad lines.

Cine-Ethics Jinhee Choi, Mattias Frey, 2013-10-15 This volume looks at the significance and range of ethical questions that pertain to various film practices. Diverse philosophical traditions provide useful frameworks to discuss spectators' affective and emotional engagement with film, which can function as a moral ground for one's connection to others and to the world outside the self. These traditions encompass theories of emotion, phenomenology, the philosophy of compassion, and analytic and continental ethical thinking and environmental ethics. This anthology is one of the first volumes to open up a dialogue among these diverse methodologies. Contributors bring to the fore some of the assumptions implicitly shared between these theories and forge a new relationship between them in order to explore the moral engagement of the spectator and the ethical consequences of both producing and consuming films.
