The Journalism of Outrage David Protess, 1991-05-17 Combining empirical methods and media sociology the authors probe the impact of investigative reporting on public policy and challenge conventional assumption that investigative journalism is generated within newsrooms without external influences. The authors follow the life span of six investigative stories written or broadcast from 1981 to 1988 from the story's inception through its preparation and eventual public impact They find that public officials and other expert policymakers are normally involved at the time of a newsroom decision to begin an investigation They empirically measure the effect of each story on public opinion governmental officials and policymakers. The impact of investigative stories to change public and expert opinion is found to be inconsistent which results in public policy alternatives ranging from reassessing public employee job efficiency to extensive changes in regulatory law ISBN 0 89862 314 6 30 00 The Decline of Representative Democracy Alan Rosenthal, 1998 Based on a leading scholar s firsthand observations of legislatures as well as extensive interviews with legislators legislative staff and lobbyists this important work describes and analyzes the contemporary state of legislatures and the legislative process in the fifty states It explores the principal elements of legislatures including the processes by which legislation is enacted the impact of the media political competition and partisanship lobbyists and lobbying the challenge of ethics the role of leadership and the linkage between legislators and their constituencies Thematically Alan Rosenthal argues that despite the popular perception that legislatures are autocratic arbitrary isolated unresponsive and up for sale legislatures are in fact extraordinarily democratic and becoming more so He concludes furthermore that the dangers to representative democracy today are substantial The Decline of Representative Democracy builds on the growing literature in state politics and state legislatures It also relies on the author's participant observer research interviews conducted especially for this book and his years in the field Many illustrative examples help to clarify the theoretical points made throughout the book which in turn provide provocative sources of debate for students of the legislative process Good News Clifford G. Christians, John P. Ferré, Mark Fackler, 1993 Clearly and accessibly written with numerous real life examples and a solid basis in ethical theory Good News will be of interest to journalist editors and professionals in media management as well as to professors and students of media ethics political science reporting and media law Political Communication Richard M. Perloff, 2013-10-18 In this political communication text Richard M Perloff examines the various ways in which messages are constructed and communicated from public officials and politicians through the mass media to the ultimate receivers the people With a focus on the history of political communication he provides an overview of the most significant issues in the study of politics and the media In addition to synthesizing facts and theories and highlighting the scholarly contributions made to the understanding of political communication effects Political Communication addresses such factors as the rhetorical accomplishments of American presidents the ongoing tangles between the press and the presidency and the historical roots of politics as it is practiced and

studied today It also addresses major issues about the press and politics that continually resurface such as question of press bias and the use and manipulation of media by politicians to accomplish national goals As a comprehensive and engaging introduction to contemporary political communication this volume provides all readers with a historical perspective on American politics and press and offers a unique appreciation of the strengths and virtues of political communication in Media, Mobilization, and Human Rights Tristan Anne Borer, 2012-11-08 What impact do mass media portrayals of atrocities have on activism Why do these news stories sometimes mobilize people while at other times they are met with indifference Do different forms of media have greater or lesser impacts on mobilization. These are just some of the questions addressed in Media Mobilization and Human Rights which investigates the assumption that exposure to human rights violations in countries far away causes people to respond with activism Turning a critical eye on existing scholarship which argues either that viewing and reading about violence can serve as a force for good through increased activism or as a source of evil by objectifying and exploiting the victims of violence the authors argue that reality is far more complex and that there is nothing inherently positive or negative about exposure to the suffering of others In exploring this the book offers an array of case studies from human rights reporting in Mexican newspapers to the impact of media imagery on humanitarian intervention in Somalia from the influence of celebrity activism to the growing role of social media By examining a variety of media forms from television and radio to social networking the interdisciplinary set of authors present radical new ways of thinking about the intersection of media portrayals of human suffering and activist responses to them

The Dynamics of Political Communication Richard M. Perloff,2017-10-19 What impact do news and political advertising have on us How do candidates use media to persuade us as voters Are we informed adequately about political issues Do twenty first century political communications measure up to democratic ideals The Dynamics of Political Communication Media and Politics in a Digital Age Second Edition explores these issues and guides us through current political communication theories and beliefs by detailing the fluid landscape of political communication and offering us an engaging introduction to the field and a thorough tour of the discipline Author Richard Perloff examines essential concepts in this arena such as agenda setting agenda building framing political socialization and issues of bias that are part of campaign news Designed to provide an understanding and appreciation of the principles involved in political communication along with methods of research and hypothesis testing each chapter includes materials that challenge us by encouraging reflection on controversial matters Inside this Second Edition you II find Expanded discussion of conceptual problems communication complexities and key issues in the field New examples concepts and studies reflecting current political communication scholarship The integration of technology throughout the text reflecting its pervasive role in the political spectrum Accompanied by an updated companion website with resources for students and instructors The Dynamics of Political Communication prepares you to survey the political landscape with a more critical eye and encourages a greater

understanding of the challenges and occurrences presented in this constantly evolving field Mass Mediated **Representations of Crime and Criminality** Julie B. Wiest, 2021-05-28 Sponsored by the Communication Information Technologies and Media Sociology section of the American Sociological Association CITAMS this volume features social science research that examines the practices patterns and messages related to representations of crime in mass media Investigated Reporting Chad Raphael, 2010-10-01 Triple Award Winner 2006 History Division Book around the world Award of the Association for Education in Journalism and Mass Communication 2006 Frank Luther Mott Kappa Tau Alpha Communications Award and 2005 Donald McGannon Award for Social and Ethical Relevance in Communications Policy Research The public often views television investigative reporting as a watchdog on the government In fact some of the centerpiece moments of TV muckraking relied heavily on official sources for inspiration information and regulatory protection from critics At the same time criticism by government officials and overt threats to regulate the television industry influenced the decision making and content that went into some of broadcast news s iconic moments Chad Raphael s looks at the relationship between journalism and regulation during the celebrated period of muckraking that took place on American television between 1960 and 1975 Raphael offers new insights into the economic political and industrial forces that shaped documentaries like Harvest of Shame Hunger in America and Banks and the Poor while placing the investigative television documentary into its institutional regulatory and cultural context Throughout Raphael exposes the complex strands of influence used by government officials to shape and attack investigative reporting and highlights how these tactics created a troubling legacy for the regulation of television news today **The Mediation of Power** Aeron Davis, 2007-08-07 Providing textbook range and accessibility whilst delivering advanced thinking and new critical directions ten chapters cover a broad range of common media and communications topics Sex Trafficking and the Media Meghan Sobel, 2018-02-15 This book explores how sex trafficking has been reported in the media. The book is set in the context of reportage of this human rights abuse in two varying political landscapes the United States being a developed democracy and Thailand experiencing continued political turmoil including a May 2014 coup d tat and an accompanying crackdown on free expression by the ruling military junta In doing so the book shows how there are great similarities between the two countries in the way the issue is misrepresented Drawing on content analysis of news coverage in the United States and Thailand as well as interviews with journalists anti trafficking advocates survivors of sex trafficking and consensual sex workers this book illuminates reasons why coverage is framed in the way s that it is how anti trafficking advocates can act as media advocates to push coverage in new directions and how journalistic functions are similar and different in the two countries Us Against Them Donald R. Kinder, Cindy D. Kam, 2010-04-15 Ethnocentrism our tendency to partition the human world into in groups and out groups pervades societies around the world Surprisingly though few scholars have explored its role in political life Donald Kinder and Cindy Kam fill this gap with Us Against Them their definitive explanation of how ethnocentrism shapes American public

opinion Arguing that humans are broadly predisposed to ethnocentrism Kinder and Kam explore its impact on our attitudes toward an array of issues including the war on terror humanitarian assistance immigration the sanctity of marriage and the reform of social programs. The authors ground their study in previous theories from a wide range of disciplines establishing a new framework for understanding what ethnocentrism is and how it becomes politically consequential They also marshal a vast trove of survey evidence to identify the conditions under which ethnocentrism shapes public opinion While ethnocentrism is widespread in the United States the authors demonstrate that its political relevance depends on circumstance Exploring the implications of these findings for political knowledge cosmopolitanism and societies outside the United States Kinder and Kam add a new dimension to our understanding of how democracy functions **American Politics** Doris A. Graber, Johanna Dunaway, 2017-07-20 This comprehensive trusted core text on media s impact on attitudes behavior elections politics and policymaking is known for its readable introduction to the literature and theory of the field Mass Media and American Politics Tenth Edition is thoroughly updated to reflect major structural changes that have shaken the world of political news including the impact of the changing media landscape It includes timely examples of the significance of these changes pulled from the 2016 election cycle Written by Doris A Graber a scholar who has played an enormous role in establishing and shaping the field of mass media and American politics and Johanna Dunaway this book sets American Government Scott F. Abernathy, 2017-11-27 American government is not just one story it s many stories Our stories And they are still being told In American Government Stories of a Nation author Scott Abernathy tunes in to the voices of America's people showing how diverse ideas throughout our nation's history have shaped our political institutions our identities the way we participate and behave the laws we live by and the challenges we face His storytelling approach brings the core concepts of government to life making them meaningful and memorable and allowing all students to see themselves reflected in the pages For the new Brief Edition Abernathy has carefully condensed and updated the content from the Full version giving you the information you need and the stories you can relate to in a more concise value Critical Readings: Moral Panics And The Media Critcher, Chas, 2006-03-01 First coined by Stanley oriented package Cohen in 1972 moral panic is a key term in media studies used to refer to sudden eruptions of indignant concern about social issues An occurrence of moral panic is characterised by stylized and stereotypical representation by the mass media and a tendency for those in power to claim the moral high ground and pronounce judgement In this important book Chas Critcher brings together essential readings on moral panics which he contextualises in the light of moral panic scholarship through an editor's introduction and concise section introductions. The first section discusses moral panic models and includes contributions on the history and intellectual background of the concept Differences in thinking between British and American moral panic scholarship are also examined A second section features important case studies including AIDS Satanism drugs paedophilia and asylum seekers This is followed by readings that look at themes such as the importance of language rhetoric

and discourse the dynamics of media reporting and how it affects public opinion and the idea of the risk society Finally readings critique and debate the use and relevance of moral panic models Critical Readings Moral Panics And The Mediais a valuable resource for students and researchers in media studies criminology and sociology Essays by David L Altheide Nachman Ben Yehuda Joel Best Theodore Chiricos John Clarke Stan Cohen Chas Critcher Mary de Young Julie Dickinson Erich Goode Johanna Habermeier Stuart Hall Sean P Hier Tony Jefferson Philip Jenkins Hans Mathias Kepplinger Jennifer Kitzinger Daniel Maier Katkin Angela McRobbie Peter Meylakhs Suzanne Ost Bryan Roberts Liza Schuster Stephen Stockwell Kenneth Thompson Sarah L Thornton Sheldon Ungar Simon Watney Jeffrey Weeks Michael Welch Paul Williams Chinese Journalist Hugo Burgh, 2004-03-01 The Chinese Journalist provides an intriguing introduction to Chinese journalists and their roles within society for both students of Media and Asian Studies The book initially offers a background history of journalists and the media in Communist China before examining the origins and development of Chinese journalism in the nineteenth century Framing Public Life Stephen D. Reese, Oscar H. Gandy, Jr., August E. Grant, 2001-06-01 This distinctive volume offers a thorough examination of the ways in which meaning comes to be shaped Editors Stephen Reese Oscar Gandy and August Grant employ an interdisciplinary approach to the study of conceptualizing and examining media They illustrate how texts and those who provide them powerfully shape or frame our social worlds and thus affect our public life Embracing qualitative and quantitative visual and verbal and psychological and sociological perspectives this book helps media consumers develop a multi faceted understanding of media power especially in the realm of news and public affairs

Scandal and Silence Robert M. Entman,2013-08-26 This timely and engaging book challenges the conventional wisdom on media and scandal in the United States The common view holds that media crave and actively pursue scandals whenever they sense corruption Scandal and Silence argues for a different perspective Using case studies from the period 1988 2008 it shows that Media neglect most corruption providing too little not too much scandal coverage Scandals arise from rational controlled processes not emotional frenzies and when scandals happen it s not the media but governments and political parties that drive the process and any excesses that might occur Significant scandals are indeed difficult for news organizations to initiate and harder for them to maintain and bring to appropriate closure For these reasons cover ups and lying often work and truth remains essentially unrecorded unremembered Sometimes bad behavior stimulates an avalanche of media attention with demonstrable political consequences yet other times equally shoddy activity receives little notice This book advances a theoretical model to explain these differences revealing an underlying logic to what might seem arbitrary and capricious journalism Through case studies of the draft and military scandals involving Dan Quayle George W Bush Bill Clinton and John Kerry alleged sexual misconduct of politicians including but not limited to Clinton and questionable financial dealings of Clinton and George W Bush the book builds a new understanding of media scandals which will be essential reading for anyone concerned with the relationship between media and democracy today
