**Children's Play and Development** Ivy Schousboe, Ditte

Winther-Lindqvist, 2013-06-20. This book provides new theoretical insights to our understanding of play as a cultural activity. All chapters address play and playful activities from a cultural-historical theoretical approach by re-addressing central claims and concepts in the theory and providing new models and understandings of the phenomenon of play within the framework of cultural-historical theory. Empirical studies cover a wide range of institutional settings: preschool, school, home, leisure time, and in various social relations with peers, professionals, and parents in different parts of the world: Europe, Australia, South America, and North America. Common to all chapters is a goal of throwing new light on the phenomenon of playing within a theoretical framework of cultural-historical theory. Play as a cultural, collective, social, personal, pedagogical, and contextual activity is addressed with reference to central concepts in relation to development and learning. Concepts and phenomena related to ZPD, the imaginary situation, rules, language, play, collective imagining, spheres of realities, of play, virtual realities, social identity, and pedagogical environments are presented and discussed in order to bring the cultural-historical theoretical approach into play with contemporary historical issues. Essential as a must-read to any scholar and student engaged with understanding play in relation to human development, cultural-historical theory, and early childhood education.

*The Political Uses of Motherhood in America* Cynthia Stavrianos, 2014-11-13. As various contemporary groups use the language of motherhood to advance their political causes, maternal rhetoric has become very visible in the American political discourse of late. Yet while it has long been recognized that women have invoked their political status as mothers to organize and authorize their political action, in the past scholars have only just begun to examine the recent reemergence of this frame. This book describes the wide variety of political causes that mothers are organizing to address and analyses whether ideologically conservative organizations are disproportionately represented among groups using motherhood to mobilize women. Stavrianos examines the use of maternal discourses in closer detail through a comparative case study of five groups using motherhood as their primary frame for collective political action: Mothers Against Drunk Driving, Million Mom March, Mothers Against Illegal Aliens, Mainstreet Moms Organize or Bust, and Mothers in Charge. Scholars interested in women and

politics interest group politics social movements political behavior women s studies motherhood studies and framing strategies will find this book noteworthy as it adds to a growing body of literature exploring the use of motherhood as an emerging political frame and to the interdisciplinary discussion of contemporary discourses of motherhood
