Government and Public Health in America Ronald Hamowy, 2008-01-01 How involved should the government be in American healthcare Ronald Hamowy argues that to answer this pressing question we must understand the genesis of the five main federal agencies charged with responsibility for our health the Public Health Service the Food and Drug Administration the Veterans Administration the National Institutes of Health and Medicare In examining these he traces the growth of federal influence from its tentative beginnings in 1798 through the ambitious infrastructures of today and offers startling insights on the current debate The author contends that until the twentieth century governmental involvement in health care policy was nominal With the sweeping food and drug reforms of 1906 and the Medicare amendments to Social Security in 1965 a whole new system of health care was brought to

the American public A careful analysis of the various programs generated by this legislation however shows a different picture of pet projects budgetary lobbying competitive bureaucracy and discord between the agencies and their opposition Government and Public Health in America provides an illuminating look at the complicated forces that created these institutions and provokes discussion about their usefulness in the future Hamowy s thoroughly researched analysis fills a substantial gap in the history of health policy Economists political scientists historians sociologists and health professionals concerned with the interface between government and health care will find much to recommend in this highly readable account of a fascinating topic *History at Illinois* University of Illinois at Urbana-Champaign. History Department,1989

American Communism Edward P. Johanningsmeier,2014-07-14 A major figure in the history of twentieth century American radicalism William Z Foster 1881 1961 fought his way out of the slums of turn of the century Philadelphia to become a professional revolutionary as well as a notorious and feared labor agitator Drawing on private family papers FBI files and recently opened Russian archives this first full scale biography traces Foster s early life as a world traveler railroad worker seaman hobo union activist and radical journalist and also probes the origins and implications of his ill fated career as a top echelon Communist official and three time presidential candidate Even though Foster s long and eventful life ended in Moscow where he was given a state funeral in Red Square he was as portrayed here a thoroughly American radical The book not only reveals the circumstances of Foster s poverty stricken childhood in Philadelphia but also vividly describes his work and travels in the American West Also included are fascinating accounts of his early political career as a Socialist Wobbly and

anarcho syndicalist and of his activities as the architect of giant organizing campaigns by the American Federation of Labor involving hundreds of thousands of workers in the meatpacking and steel industries The author views Foster s influence in the American Communist movement from the perspective of the history of American labor and unionism but he also offers a realistic assessment of Foster s career in light of factional intrigues at the highest levels of the Communist International Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

James P. Cannon and the Origins of the American Revolutionary Left, 1890-1928 Bryan D. Palmer,2010-10-01 Bryan D Palmer s award winning study of James P Cannon s early years 1890 1928 details how the life of a Wobbly hobo agitator gave way to leadership in the emerging communist underground of the 1919 era This historical drama unfolds alongside the life experiences of a native son of United States radicalism the narrative moving from Rosedale Kansas to Chicago New York and Moscow Written with panache Palmer s richly detailed book situates American communism s formative decade of the 1920s in the dynamics of a specific political and economic context Our understanding of the indigenous currents of the American revolutionary left is widened just as appreciation of the complex nature of its interaction with international forces is deepened

Seeing with Their Hearts Maureen A. Flanagan,2020-07-21 At the turn of the last century as industrialists and workers made Chicago the hardworking City of Big Shoulders celebrated by Carl Sandburg Chicago women articulated an alternative City of Homes in which the welfare of residents would be the municipal government s principal purpose Seeing With Their Hearts traces the formation of this vision from the relief efforts following the Chicago fire of 1871 through the many political battles of the Gilded Age and Progressive Era In the process it presses a new understanding of the roles of women in public life and writes a new history of urban America Heeding the call of activist Louise de Koven Bowen to become third class passengers on the

train of life thousands of women put their shoulders to the wheel and their whole hearts into the work of fighting for better education worker protections clean air and water building safety health care and women s suffrage Though several well known activists appeared frequently in these initiatives Maureen Flanagan offers compelling evidence that women established a broad and durable solidarity that spanned differences of race class and political experience She also shows that these women emphasizing their common identity as women seeking a city amenable to the needs of women children families and homes pursued a vision and goals distinct from the reform agenda of Progressive male activists They fought hard and sometimes successfully in a variety of public places and sites of power winning victories from increased political clout and prenatal care to municipal garbage collection and pasteurized milk While telling the fascinating and in some cases previously untold stories of women activists during Chicago s formative period this book fundamentally recasts urban social and political history *Illinois Documents List*, 1988 Chicago's Pride Louise Carroll Wade, 2002-12-15 Chicago s Pride chronicles the growth from the 1830s to the 1893 Columbian Exposition of the communities that sprang up around Chicago s leading industry Wade shows that contrary to the image in Upton Sinclair s *The Jungle* the Stockyards and Packingtown were viewed by proud Chicagoans as the eighth wonder of the world Wade traces the rise of the livestock trade and meat packing industry efforts to control the resulting air and water pollution expansion of the work force and status of packinghouse employees changes within the various ethnic neighborhoods the vital role of voluntary organizations especially religious organizations in shaping the new community and the ethnic influences on politics in this instant industrial suburb and powerful magnet for entrepreneurs wage earners and their families *Crucibles of Black Empowerment* Jeffrey Helgeson, 2014-04-24 The term community organizer was deployed repeatedly against Barack Obama during the 2008 presidential campaign as a way to paint him as an inexperienced politician unfit for the presidency The implication was that the job of a community organizer wasn t a serious one and that it certainly wasn t on the list of credentials needed for a presidential r sum In reality community organizers have played key roles in the political lives of American cities for decades perhaps never more so than during the 1970s in Chicago where African Americans laid the groundwork for further empowerment as they organized against segregation discrimination and lack of equal access to schools housing and jobs In *Crucibles of Black Empowerment* Jeffrey Helgeson recounts the rise of African American political power and activism from the 1930s onward revealing how it was achieved through community building His book tells stories of the housewives who organized their neighbors building tradesmen who used connections with federal officials to create opportunities in a deeply discriminatory employment sector and the social workers personnel managers and journalists who carved out positions in the white collar workforce Looking closely at black liberal politics at the neighborhood level in Chicago Helgeson explains how black Chicagoans built the networks that eventually would overthrow the city s seemingly invincible political machine
