Countdown! Patrick Moore,2009-09-29 Patrick Moore is Britain's most respected and best loved astronomer In Countdown he examines the multifarious theories of how and when the world will end from St Augustine to the Millennium Bug via Nostradamus With a healthy dose of irreverent humour he investigates and dismisses the weird and wonderful predictions of sometimes imminent cataclysm before turning to the science of what might really happen a long long time in the future thankfully Written with his trademark combination of wit and accessible science and updated to include the latest theories on asteroids and climate change this is a must read book for anyone with an interest in popular science in general and how the world might end in particular
