MARSHALL,2018 *The Karen People of Burma* Harry I. Marshall,1997 The Karen People of Burma Rev Harry Ignatius Marshall,2017-06-05 Excerpt from *The Karen People of Burma A Study in Anthropology and Ethnology* To many a visitor to Burma who views the country from the deck of an Irrawaddy River steamer or from the window of a railway carriage there appears to be little difference between the Karen and the Burman This is not strange for many individuals of the non Burman tribes wear the Burmese costume and speak the Burmese language and they present no markedly different characteristics in feature or color of skin I have often heard the remark that there is no difference between the Burman and the Karen It is doubtless because the Government of Burma recognizes that there is a difference in the tribal characteristics customs and religion that it has adopted the wise policy of publishing a series of complete studies of which this purports to be one of these various peoples If the reader will have the patience to read these pages it is hoped that he will realize that though the Karen have lived for generations in the closest proximity to the Burmese they preserve their own racial traits which are quite distinct from those of their more volatile neighbors with whom they have had little in common This work deals more particularly with the Sgaw branch of the Karen people My own acquaintance has been more intimate with this tribe though I have known many of the other groups This circumstance together with the fact that the Bwe and Taungthu peoples have already been described in the Upper Burma Gazetteer as well as the limitations of space has led me to limit my discussion to brief references to the other tribes But I am convinced that in the main the Sgaw exhibit the general characteristics that are truly Karen in the broadest sense of the term I have also omitted any detailed study of the large mass of Karen folklore which may possibly be incorporated in some future study About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works The Karen People of Burma: A Study in Anthropology and Ethnology Harry Ignatius Marshall,2017-08-19 The Karen People of Burma: A Study in Anthropology and Ethnology Harry Ignatius Marshall,2021-11-09 In *The Karen People of Burma A Study in Anthropology and Ethnology* Harry Ignatius Marshall delves deeply into the complex social structures cultural practices and historical contexts of the Karen people an indigenous group in Burma Myanmar Through meticulous ethnographic research and rich descriptive prose Marshall captures the nuances of Karen customs beliefs and their interactions with surrounding
