Intellectual Property and Free Trade Agreements in the Asia-Pacific Region Christoph Antons, Reto M. Hilty, 2014-12-05 This book is highly topical The shift from the multilateral WTO negotiations to bilateral and regional Free Trade Agreements has been going on for some time but it is bound to accelerate after the WTO Doha round of negotiations is now widely regarded as a failure However there is a particular regional angle to this topic as well After concluding that further progress in the Doha round was unlikely Pacific Rim nations recently have progressed with the negotiations of a greatly expanded Trans Pacific Partnership Agreement that includes industrialised economies and developed countries such as the United States Japan Australia and New Zealand recently emerged economies such as Singapore but also several developing countries in Asia and Latin America such as Malaysia and Vietnam US and EU led efforts to conclude FTAs with Asia Pacific nations are also bound to accelerate again after a temporary slowdown in the negotiations following the change of government in the United States and the expiry of the US President's fast track negotiation authority The book will provide an assessment of these dynamics in the world's fastest growing region It will look at the IP chapters from a legal perspective but also put the developments into a socio economic and political context Many agreements in fact are concluded because of this context rather than for purely economic reasons or to achieve progress in fields like IP law The structure of the book follows an outline that groups countries into interest alliances according to their respective IP priorities This ranges from the driving forces of the EU US and Japan via Asia Pacific resource rich but IP poor economies such as Australia and New Zealand recently emerged economies with strong IP systems such as Singapore and Korea to leading developing countries such as China and India and second tier industrializing economies such as Thailand Malaysia and Indonesia

Japan's Economic Dilemma Bai Gao, 2001-08-27 The Japanese economy after decades of seemingly unsurpassable competitiveness experienced a major crisis in the 1990s Observers of

Japan are faced with a challenging question How can one explain Japan s reversal from stunning prosperity to dismal stagnation Bai Gao in this illuminating comprehensive analysis of Japan s economic story goes beyond other analyses to demonstrate how the same economic institutions could produce both stunning economic success and the slump of the 1990s By comparing the factors that sustained miracle growth in Japan in the 1960s and 1970s with the factors that led to the bubble economy of the late 1980s Gao sheds new light on internal tensions in the Japanese economic system and how finally they burst the bubble in the 1990s Those who have been following the lively debate over What Became of the Japanese Miracle will be rewarded by Gao s richly detailed historically informed and multilayered contribution The Japanese Power Elite Albrecht Rothacher,2016-07-27 This book attempts a coherent portrait of the heart of Japan s economic and political decision making It presents the men occupying the core positions in Japan s ruling party the central ministries and in big business and its organizations Elite career patterns social origins upbringing university education cognitive orientations and ways of life are reviewed as are the interactions in the exclusive world of Japan s increasingly hereditary and bureaucratic class of power holders in conservative politics and big business Industrial Policy United States. Frankel,Miles Kahler,2007-12-01 As Japan s newfound economic power leads to increased political power there is concern that Japan may be turning East Asia into a regional economic bloc to rival the U S and Europe In *Regionalism and Rivalry* leading economists and political scientists address this concern by looking at three central questions Is Japan forming a trading bloc in Pacific Asia Does Japan use foreign direct investment in Southeast Asia to achieve national goals Does Japan possess the leadership qualities necessary for a nation assuming greater political responsibility in international affairs The authors contend that although intraregional trade in East Asia is growing rapidly a trade bloc is not necessarily forming They show that the trade increase can be explained entirely by factors independent of discriminatory trading arrangements such as the rapid growth of East Asian economies Other chapters look in detail at cases of Japanese direct investment in Southeast Asia and find little evidence of attempts by Japan to use the power of its multinational corporations for political purposes A third group of papers attempt to gauge Japan s leadership characteristics They focus on Japan s technology ideology its contributions to international public goods international monetary cooperation and economic liberalization in East Asia **Informality and Monetary Policy in Japan** Adrian van Rixtel,2002-10-31 The success and misfortunes of the post war Japanese economy has
