The Handbook of Adult Psychopathology in Asians represents a historically remarkable global collaboration among leading experts of psychopathology in Asian adults. Chapters provide critical appraisals of existing research and theory as they relate to issues surrounding the diagnosis, etiology, and treatment of major mental disorders among Asians. This volume covers major Axis I disorders as identified by the Diagnostic Statistical Manual of Mental Disorders, including mood disorders, anxiety disorders, substance use disorders, somatoform disorders, dissociative disorders, eating disorders, sleep disorders, adjustment disorders, and schizophrenia and other psychotic disorders.

In addition the book provides coverage of Axis II personality disorders including antisocial personality disorder. Complementing these topics are chapters that take a unique look at psychiatric syndromes that have been identified in Asia and at interventions that have been indigenously developed in Asia for treating mental disorders. Additional foundational chapters focus on topics such as the psychology of Asians, assessment and research issues in studying Asians and future directions for research and policy in studying and treating Asians with mental disorders. With this volume in hand, mental health professionals and researchers around the world now have a single and critical resource that they can use to enhance their efforts in studying and treating Asian adults with mental disorders.

The Civic Mission of Museums Anthony Pennay, 2020-12-15. Museums have long sought to maintain relevance in the daily lives of their communities. Over the past several decades, museums have shifted as a field from a focus on collections to a focus on connecting with audiences. More recently, museums must confront political polarization and a decreasing sense of trust in nearly every public institution. As a result, few institutions are better positioned to serve the country than museums. In fact, polls show that museums rank among the most trusted institutions in the country regardless of political belief. During tumultuous times, this trust means that museums have a unique and important responsibility to fulfill their civic mission. A century ago, John Cotton Dana argued that the most important thing a museum can do is produce a public benefit. *The Civic Mission of Museums* argues that museums play an essential role in the cultivation of engaged and informed citizens. The book outlines a spectrum of civic learning that includes civic knowledge, civic mindset, civic skillset, and civic action. It offers concrete examples of impactful civic programming, exhibits, and public engagement from a diverse set of museums. It ends with a practical toolkit gleaned from across the country for museum professionals to utilize.
