arrived in Italy in May 1944 twenty years old and part of a shipment of P 51 Mustang fighter pilots so desperately needed that they were rushed into combat with less than thirty hours of flight time in their new high performance aircraft Six of the twelve pilots assigned to the 52nd Fighter Group were shot down in the first two weeks By his ninth mission Curtis was the only one still flying A maverick he barely escaped court martial with his high flying antics Escorting bombers sent to pound heavily defended oil fields was risky enough but strafing the enemy supply lines ports and airfields was even more dangerous Curtis may chalk up his success to dumb luck but these missions took exceptional skill and courage This hair raising account captures the air war in all its split second terror and adrenaline pumping action
