**The Platonic Account of the Fall of Atlantis** Lewis Spence, 2005-12-01      *Toward a Unified Platonic Human Psychology* John Mark Reynolds, 2004  
Toward a Unified Platonic Human Psychology defends a coherent view of Platonic Psychology or looking at human psychology as circular motion in the brain Author John Mark Reynolds using the psychology of Plato's Timaeus advances the discussion of Plato's psychology by proposing a new reading of his view of the human soul The implications of Plato's psychology on his ethics view of the animal world and theology are also examined      Occam's Nightmare S Peter Davis, 2013  
What really happened to ATLANTIS Did ANCIENT ALIENS really build the PYRAMIDS Is there a SECRET GOVERNMENT that plans to POISON most of the population Is BIG PHARMA harming us to turn a profit Are McDONALD'S HAMBURGERS really made from INSIDIOUS CHEMICALS Are we really close to the END OF THE WORLD OCCAM'S NIGHTMARE is an exploration of the world of conspiracy theories alternative science pop culture and how they all tie together Mapping the history of speculative and dubious ideas CRACKED contributor S Peter Davis traces a genealogy of wacky hypotheses right back to where they all began How horror author H P LOVECRAFT is responsible for both SCIENTOLOGY and ANCIENT ALIENS How ONE WOMAN created the MYTH OF ATLANTIS the DAVID ICKE PHENOMENON and NAZISM How a theory of disease from the time of the BLACK DEATH is responsible for both ALTERNATIVE MEDICINE and VACCINE HYSTERIA How CHARLES MANSON is really behind the controversy about OBAMA'S BIRTH CERTIFICATE      *Plato's Timaeus and the Biblical Creation Accounts* Russell E. Gmirkin, 2022-05-02  
Plato's Timaeus and the Biblical Creation Accounts argues that the creation of the world in Genesis 1 and the story of the first humans in Genesis 2-3 both draw directly on Plato's famous account of the origins of the universe mortal life and evil containing equal parts science theology and myth This book is the first to systematically compare biblical Ancient Near Eastern and Greek creation accounts and to show that Genesis 1-3 is heavily indebted to Plato's Timaeus and other cosmogonies by Greek natural philosophers It argues that the idea of a monotheistic cosmic god was first introduced in Genesis 1 under the influence of Plato's philosophy and that this cosmic Creator was originally distinct from the lesser terrestrial gods including Yahweh who appear elsewhere in Genesis It shows the use of Plato's Critias the sequel to Timaeus in the stories about the Garden of Eden the intermarriage of the sons of God and the daughters of men and the biblical flood This book confirms the late date and Hellenistic background of Genesis 1-11 drawing on Plato's writings and other Greek sources found at the Great Library of Alexandria This study provides a fascinating approach to Genesis that will interest students and scholars in both biblical and classical studies philosophy and creation narratives      **J.R.R. Tolkien's Utopianism and the Classics** Hamish Williams, 2023-02-09  
This book opens up new perspectives on the English fantasy writer J R R Tolkien arguing that he was an influential thinker of utopianism in 20th century fiction and that his scrutiny of utopias can be assessed through his dialogue with antiquity Tolkien's engagement with the ancient world often reflects an

interest in retrotopianism his fictional places cities forests homes draw on a rich post classical narrative imagination of similar spaces Importantly for Tolkien such narratives entail eutopian thought experiments the decline and fall of distinctly classical communities provide an utopian blueprint for future political restorations the home as oikos becomes a space where an ideal ethical reciprocity between host and guest can be sought the ancient forest is an ambiguous unsettling site where characters can experience necessary forms of awakening From these perspectives tokens of Platonic moderation Augustan restoration Homeric xenophilia and the Ovidian material sublime are evident in Tolkien s writing Likewise his retrotopianism also always entails a rewriting of ancient narratives in post classical and modern terms This study then explores how Tolkien s use of the classical past can help us to align classical and utopian studies and thus to reflect on the ranges and limits of utopianism in classical literature and thought

*Platonic Studies of Greek Philosophy* Robert S. Brumbaugh, 1989-01-08

**Outsider Theory** Jonathan Eburne, 2018-09-18 A vital and timely reminder that modern life owes as much to outlandish thinking as to dominant ideologies What do the Nag Hammadi library Dan Brown s The Da Vinci Code speculative feminist historiography Marcus Garvey s finances and maps drawn by asylum patients have in common Jonathan P Eburne explores this question as never before in *Outsider Theory* a timely book about outlandish ideas Eburne brings readers on an adventure in intellectual history that stresses the urgency of taking seriously especially in an era of fake news ideas that might otherwise be discarded or regarded as errant unfashionable or even unreasonable Examining the role of such thinking in contemporary intellectual history Eburne challenges the categorical demarcation of good ideas from flawed wild or bad ones addressing the surprising extent to which speculative inquiry extends beyond the work of professional intellectuals to include that of nonprofessionals as well whether amateurs unfashionable observers or the clinically insane Considering the work of a variety of such figures from popular occult writers

and gnostics to so called outsider artists and pseudoscientists Eburne argues that an understanding of its circulation and recirculation is indispensable to the history of ideas He devotes close attention to ideas and texts usually omitted from or marginalized within orthodox histories of literary modernism critical theory and continental philosophy yet which have long garnered the critical attention of specialists in religion science studies critical race theory and the history of the occult In doing so he not only sheds new light on a fascinating body of creative thought but also proposes new approaches for situating contemporary humanities scholarship within the history of ideas However important it might be to protect ourselves from bad ideas Outsider Theory shows how crucial it is for us to know how and why such ideas have left their impression on modern day thinking and continue to shape its evolution

**Tenue est mendacium** Klaus Lennartz,Javier Martínez,2022-04-07 Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes forgeries and questions of authenticity The result is

this volume in which our aim is to display some of the many possibilities available to scholarship The exposure of fraud and the pursuit of truth may still be valid scholarly goals but they implicitly demand that we confront the status of any text as a focal point for matters of belief and conviction Recent approaches to forgery have begun to ask new questions some intended purely for the sake of debate Ought we to consider any author to have some inherent authenticity that precludes the possibility of a forger's successful parody If every fake text has a real context what can be learned about the cultural circumstances which give rise to forgeries If every real text can potentially engender a parallel history of fakes what can this alternative narrative teach us What epistemological prejudices can lead us to swear a fake is genuine or dismiss the real thing as inauthentic Following *Splendide Mendax* and *Animo Decipiendi* this is the latest installment of an ongoing inquiry conducted by scholars in numerous countries into how the ancient world its literature and culture its history and art appears when viewed through the lens of fakes and forgeries sincerities and authenticities genuine signatures and pseudepigrapha How does scholarship tell the truth if evidence doesn't But *fabula docet* The *falsum* does not simply make the great annoying stone before the door of the truth otherwise this here would really be a council of antiquarians and paleographers The *falsum* makes a delicate fine tissue It allows the *verum* to shine through in nuances and reliefs that were less noticeable without its counterpart really tied at the head And treated differentiated it becomes even itself *perlucidum* shines out with hidden values

The Religious Foundations of Francis Bacon's Thought Stephen A. McKnight, 2006 Presents close analysis of eight of Francis Bacon's texts in order to investigate the relation of his religious views to his instauration Attempts to correct the persistent misconception of Bacon as a secular modern who dismissed religion in order to promote the human advancement of knowledge Provided by publisher Plato's Proto-Narratology Vasileios Liotsakis, 2023-09-18 Plato's contribution to narratology has traditionally been traced in his tripartite categorisation of narrative modes we read of in the *Republic* Although other aspects of storytelling are also addressed throughout the Platonic oeuvre such passages are treated as instantaneous flares of metanarrative speculation on Plato's part and do not seem to contribute to the reconstruction of his theory of narrative Vasileios Liotsakis challenges this view and argues that the *Statesman* the *Timaeus* *Critias* and the *Laws* reveal that Plato had consolidated in his mind and compositionally put into effect one systematic mode in which to express his thoughts on narratives In these dialogues Liotsakis recognizes the birth of a proto narratology which differs in many respects from what we today expect from a narratological handbook but still demonstrates two key features of narratology a a conscious focus on certain aspects of narrativity which are vastly discussed by narratologists and pertain to the structuring and reception of narratives and b a schematised mode of interaction between metanarrative reflections and textual bodies which serve as the paradigms through which to explore the interpretive potential of these reflections Novalis, Signs of Revolution William Arctander O'Brien, 1995 Novalis traces the meteoric career of one of the most striking and most strikingly misunderstood figures of German Romanticism Although Friedrich von Hardenberg better known by his pseudonym Novalis

published scarcely eighty pages of writings in his lifetime his considerable fame and influence continued to spread long after his death in 1801 His posthumous reputation however was largely based on the myth manufactured by opportunistic editors as Wm Arctander O'Brien reveals in this book the first to extract Hardenberg from the distortions of history A member of the generation of the 1770s that included Hegel Hölderlin and Schelling Hardenberg was an avid follower of the French Revolution a semiotician avant la lettre and a prescient critic of religion Yet in 1802 only a year after his death the writer who had scandalized the Prussian court was marketed to a nation at war as a reactionary patriot a sweet versifier of Idealism and a morbid mystic Identifying the break between Hardenberg's own early Romanticism and the late Romanticism that falsified it Novalis shows us a writer fully engaged in revolutionary politics and examines his semiotic readings of philosophy and of the political scientific and religious institutions of the day Drawing on the full range of Novalis's writings including his poetry notebooks novels and journals O'Brien situates his semiotics between those of the eighteenth century and those of the twentieth and demonstrates the manner in which a concern for signs and language permeated all aspects of his thought The most extensive study of Hardenberg available in English Novalis makes this revolutionary theoretician visible for the first time Mining a crucial chapter in the history of semiotics and social theory it suggests fruitful sometimes problematic connections between semiotic historical deconstructive and philological practices as it presents a portrait of one of the most complex figures in literary history Indispensable for scholars of German Romanticism Novalis will also be of interest to students of comparative literature and European intellectual history

**Plato and Hesiod** G. R. Boys-Stones, J. H. Haubold, 2009-12-10 It hardly needs repeating that Plato defined philosophy partly by contrast with the work of the poets What is extraordinary is how little systematic exploration there has been of his relationship with specific poets other than Homer This neglect extends even to Hesiod though Hesiod is of central importance for the didactic tradition quite generally and is a major source of imagery at crucial moments of Plato's thought This volume which presents fifteen articles by specialists on the area will be the first ever book length study dedicated to the subject It covers a wide variety of thematic angles brings new and sometimes surprising light to a large range of Platonic dialogues and represents a major contribution to the study of the reception of archaic poetry in Athens

*Cyprus Within the Biblical World* James H. Charlesworth, Jolyon G. R. Pruszinski, 2021-03-25 This volume moves discussion of ancient Israelite culture beyond concepts of isolation and borders factoring in already well known insights from classical studies and ancient history that take greater account of the impressive connections between all the countries bordering the Mediterranean Sea Specifically the contributors focus on Cyprus and the Bible and offer archaeological and biblical insights to consider how and in what ways Cyprus and Cypriot culture was related to biblical life and perceptions Though the Mediterranean separated Palestine from Cyprus it also joined them archaeological finds expose significant trade relations and cultural commonalities not only in the Hellenistic and late Roman eras but for many centuries prior These relations developed and became even more intimate in the later biblical

period as evidenced by early Jewish and Christian writings By exploring various methods of cultural contact the contributors suggest that further examination of cultural links between Cyprus and Palestine in the biblical period can repay dividends in understanding the development of ancient Israelite religion early Judaism and early Christianity **Plato Revived** Filip Karfik,Euree Song,2013-09-03 Die einzelnen Beitr ge dieses Bandes sind unterschiedlichen Formen der Wiederbelebung des Platonismus innerhalb der antiken Philosophie gewidmet Besondere Aufmerksamkeit ist den Themen der Einheit und der Sch nheit des Geistes und der Erkenntnis der Seele und des Leibes der Tugend und des Gl cks sowie der politischen und der religi sen Dimension des platonischen Denkens gewidmet Ausgehend von Platon und Aristoteles werden die Verwandlungsformen von Platonismus insbesondere bei den Neuplatonikern Plotin Porphyrios Jamblich Themistios Proklos und Marinos sowie bei den christlichen Autoren Augustin Boethius und Dionysios Areopagites untersucht Die Autoren des Bandes kn pfen dabei in vielf ltiger Weise an die Arbeiten von Dominic J O Meara an Die Weiterf hrung seiner Ans tze r ckt insbesondere die sp tplatonische Ethik in ein neues Licht Die jeweiligen Studien tragen dar ber hinaus zur Erforschung der vielf ltigen Bez ge der Platoniker aufeinander sowie auf andere Denker bei Das Buch macht in seiner ganzen Breite das Erneuerungs und Verwandlungspotenzial des antiken Platonismus deutlich The Mythopoeic Code of Tolkien Jyrki Korpua,2021-05-24 J R R Tolkien is arguably the most influential fantasy writer of all time his world building and epic mythology have changed Western audiences imaginations and the entire fantasy genre This book is the first wide ranging Christian Platonic reading on Tolkien s fiction This analysis written for scholars and general Tolkien enthusiasts alike discusses how his fiction is constructed on levels of language myth and textuality that have a background in the Greek philosopher Plato s texts and early Christian philosophy influenced by Plato It discusses the concepts of ideal and real creation and existence and fall and struggle as central elements of Tolkien s fiction focusing on The Hobbit The Lord of the Rings The Silmarillion and The History of Middle earth Reading Tolkien s fiction as a depiction of ideal and real from the vision of creation to the process of realization illuminates a part of Tolkien s aesthetics and mythology that previous studies have overlooked
