## **The Iranian National Epic Or The Shahnamah:**

Poetics and Politics of Iran's National Epic, the Shāhnāmeh M. Omidshahar, 2011-11-16 This book considers some of the Western interpretations of The Shahnameh Iran's national epic and argues that these interpretations are not only methodologically flawed but are also more revealing of Western concerns and anxieties about Iran than they are about the Shahnameh

**Shahnameh** Abolqasem Ferdowsi, 2006-03-02 Among the great works of world literature perhaps one of the least familiar to English readers is the Shahnameh The Persian Book of Kings the national epic of Persia This prodigious narrative composed by the poet Ferdowsi between the years 980 and 1010 tells the story of pre Islamic Iran beginning in the mythic time of Creation and continuing forward to the Arab invasion in the seventh century As a window on the world Shahnameh belongs in the company of such literary masterpieces as Dante's Divine Comedy the plays of Shakespeare the epics of Homer classics whose reach and range bring whole cultures into view In its pages are unforgettable moments of national triumph and failure human courage and cruelty blissful love and bitter grief In tracing the roots of Iran Shahnameh initially draws on the depths of legend and then carries its story into historical times when ancient Persia was swept into an expanding Islamic empire Now Dick Davis the greatest modern translator of Persian poetry has revisited that poem turning the finest stories of Ferdowsi's original into an elegant combination of prose and verse For the first time in English in the most complete form possible readers can experience Shahnameh in the same way that Iranian storytellers have lovingly conveyed it in Persian for the past thousand years

*The Parthian and Early Sasanian Empires* Vesta Sarkhosh Curtis, Michael Alram, Touraj Daryaee, Elizabeth Pendleton, 2016-08-30 Although much of the primary information about the Parthian period comes from coins there has been much new research undertaken over the past few decades into wider aspects of both the Parthian and Sassanian Empires including the Arsacid Parthians and their material culture Despite a change of ruling dynasty the two empires were closely connected and cannot be regarded as totally separate entities The continuation of Parthian influence particularly into the early Sasanian period cannot be disputed An historic lack of detailed information arose partly through

the relative lack of excavated archaeological sites dating to the Parthian period in Iran and western scholars lack of knowledge of recent excavations and their results that are usually published in Persian coupled with the inevitable difficulties for academic research engendered by the recent political situation in the region Although an attempt has been made by several scholars in the west to place this important Iranian dynasty in its proper cultural context the traditional GrecoRoman influenced approach is still prevalent The present volume presents 15 papers covering various aspects of Parthian and early Sasanian history material culture linguistics and religion which demonstrate a rich surviving heritage and provide many new insights into ideology royal genealogy social organization military tactics linguistic developments and trading contacts

*The World of Persian Literary Humanism* Hamid Dabashi, 2012-11-20 Humanism has mostly considered the question What does it mean to be human from a Western perspective Dabashi asks it anew from a non European perspective in a groundbreaking study of 1400 years of Persian literary humanism He presents the unfolding of this vast tradition as the creative and subversive subconscious of Islamic civilization

*Land Between the Rivers* Bartle Bull, 2024-09-10 The epic five millennia history of the region between the Tigris and Euphrates Rivers that was the birthplace of civilization and remains today the essential crossroads between East and West At the start of the fourth millennium BC at the edge of historical time civilization first

arrived with the advent of cities and the invention of writing that began to replace legend with history. This occurred on the floodplains of southern Iraq where the great rivers Tigris and Euphrates meet the Persian Gulf. By 3000 BC a city called Uruk from which Iraq is derived had 80 000 residents. Indeed as Bartle Bull reveals in his magisterial history if one divides the 5 000 years of human civilization into ten periods of five centuries each during the first nine of these the world's leading city was in one of the three regions of current day Iraq or to use its Greek name Mesopotamia. Inspired by extensive reporting from the region to spend a decade delving deep into its history Bull chronicles the story of Iraq from the exploits of Gilgamesh almost certainly an historical figure to the fall of the Iraqi monarchy in 1958 that ushered in its familiar modern era. The land between the rivers has been the melting pot and battleground of countless outsiders from the Akkadians of Hammurabi and the Greeks of Alexander to the Ottomans of Suleiman the Magnificent. Here by the waters of Babylon Judaism was born and the Sunni Shia schism took its bloody shape. Central themes play out over the millennia: humanity's need for freedom versus the eternal urge of tyranny; the ever present conflict and cross fertilization of East and West with Iraq so often the hinge. We tend to view today's tensions in the Middle East through the prism of the last hundred years since the Treaty of Versailles imposed a controversial realignment of its borders. Bartle Bull's remarkable sweeping achievement reminds us that the region defined by the land between the rivers has for five millennia played a uniquely central role on the global stage.

**The Persian Empire** Mehrdad Kia, 2016-06-27. This well balanced reference on ancient Persia demonstrates the region's contributions to the growth and development of human civilization from the 7th century BCE through the fall of the Persian Sasanian Empire in 651 CE. This one of a kind reference provides unbiased coverage of the cultural history of the Persian Empire examining the Median Achaemenid Parthian Kushan and Sasanian dynasties and tracing the development and maturation of Iranian societies during a period of nearly 1 500 years. As one of the most comprehensive studies on the topic this historical overview explores the region's rich past while providing insight into the cultures and civilizations the Persians came to rule and influence. Using primary sources written and inscribed by the ancient Persians themselves the encyclopedia studies the pre Islamic civilizations of Iran in the Middle East the Caucasus Central Asia and the Indian subcontinent. Incorporating contributions from scholars who discuss the rise and fall of various Persian dynasties the work offers some 180 entries that cover such topics as religion royal nobility the caste system and political assassinations. The content offers perspectives from a variety of disciplines from anthropology to archaeology geography and art history among other areas.
