The Journey with Death Rohit Mehta,1987-07-31 The Journey with Death deals with the problem of death as well as the problem of life Avoiding the traditional approach to death with consists of a description of the after death condition the author has tried to find a solution for the problems of survival and reincarnation of communication with the dead and of the interval between two lives He has also dealt with the problem of separation which death poses to ordinary men and women The author would prefer to call the so called dead as only the departed with whom one can establish links of communication through a journey into realms of consciousness Out of the depths of his own experience in watching the shadow of death fall on one who has loved and cherished Rohit Mehta has sought answers to the perennial questions that have haunted the human heart and mind for untold ages What is death Why does it come Whither does it take one Is death the end of existence Can we recognize each other Mehta deals with these queries not merely from a philosophical basis of understanding the events and conditions peculiar to the after death states but he takes the reader step by step on a journey of discovery that satisfies the inner longing for assurance and inspires the heart in its quest for peace which is also the profound mystery of life itself

The Journey of Life & Death ABHIK BHANU, The journey of life and death is a compilation of stories

that encapsulate the essence of our existence Throughout this journey we often find ourselves assuming roles without fully comprehending their significance which can lead to moments of profound suffering However when our consciousness awakens to the realization that we are active participants in a grand narrative our awareness expands exponentially We transcend the confines of our limited sense of self recognizing our interconnectedness with the vast cosmos composed of particles and atoms As this understanding dawns upon us the notion of I dissolves revealing a deeper truth about our place in the universe Among the many stories inspired by true incidents are Dementia A Dog s Life in a Human Body Beyond Boundaries A Star s Life Mushtaq Kasai and The Leader Additionally there are concepts and narratives that I have been developing over the years such as Fix Free Gypsy Khanabodosh Ringmaster Angry Iron Lady and English Country Boon Ringmaster has been a labour of love spanning over twelve years of dedication and creativity The Trust was written back in 2005 Each story holds its own intrinsic meaning delving into the depths of our origins and probing the fundamental questions of who we are and the purpose of our existence

**The Journey to Life or Death** Ingrid Fredriksson,2015-08-03 One day I saw large grey tufts in front of my eyes At work I decided something definitely happened to my handwriting The letters became so very small it was impossible for me to write them any larger The following day I stayed home and suffered a migraine That evening my speech became slurred My husband wanted to take me to a doctor I said no When our doctor s surgery opened in the morning we were waiting They asked Was I born on the 28th or the 29th I simply did not know He then drove me to the hospital where I waited an eternity I took out my lipstick but could only apply it to the left side of my mouth the right side being impossible to reach They performed a CT scan and later in the evening I was informed I had a stroke and that parts of the right side of my brain close to the speech centre were destroyed Darkness closed in on me but then came the light A large blood vessel was completely blocked The blood platelets piled up on top of each other more and more and more This was my brain close to the speech centre Would my brain be totally destroyed How much can a person take Would I be able to speak again Was this actually death that I was experiencing It felt like I was free Consciousness left my body
