TEACHING POINTS

HOW TO WRITE

WHEN TO USE

Strategies
you teach students
to master skills

THINK: "Teach the writer, not the writing."

These strategies should help students as writers (not just for use on one piece of writing).

DELIVER TEACHING POINTS

→ WHOLE CLASS

- * minilessons
- * midworkshop interruptions
- * share sessions

MORE INDIVIDUALIZED

- * 1:1 conferences
- * partner conferences
- * strategy lessons

ASK & THINK: What kinds of things can I demonstrate to students to help them become stronger writers?

- Tip:
- Repeat a teaching point ~4 times during a mini-lesson. Keep language consistent.

▲ A TEACHING POINT SHOULD...

- 1 Name the strategy.
- 2 Explain how to do it.
 - ↳ Do not keep it a secret!
 - ↳ About 2-3 sentences long.

SHOW how you or ANOTHER WRITER uses a strategy.

When you deliver a teaching point, start with:

- ☉ Today I want to teach you...
- ☉ One strategy I use when I write...
- ☉ Many writers find it helps to...

Leave teaching points as tangible artifacts after a conference.

The Cambridge Introduction to Creative Writing David Morley, 2007-05-10 Publisher description *The Cambridge Companion to Creative Writing* David Morley, Philip Neilsen, 2012-02-02 A lively practical guide to creative writing as discipline and craft ideal for students and teachers **Resources in Education**, 1998 Research on Teaching and the Content of Teacher Education Programs Christopher M. Clark, 1984 Preparing To Teach Writing James D. Williams, 2003-03 Preparing to Teach Writing Research Theory and Practice Third Edition is a comprehensive survey of theories research and methods associated with teaching composition successfully The primary goal is to provide practicing and prospective teachers with the knowledge they need to be effective teachers of writing and to prepare them for the many challenges they will face in the classroom Overall the third edition of Preparing to Teach Writing is clearer and more comprehensive than the previous editions It combines the best of the old with new information and features The discussions and references to foundational studies that helped define the field of rhetoric and composition are preserved in this edition Also preserved is most of the pedagogical apparatus that characterized the first two editions research and theory are examined with the aim of informing teaching New in the Third Edition a more thorough discussion of the history of rhetoric from its earliest days in ancient Greece to the first American composition courses offered at Harvard University in 1874 a major revision of the examination of major approaches to teaching writing current traditional rhetoric new rhetoric romantic rhetoric writing across the curriculum social theoretic rhetoric postmodern rhetoric and post postmodern rhetoric considering their strengths and weaknesses an extension of the discussion of strengths and weaknesses of major approaches to its logical conclusion Williams advocates an epistemic approach to writing instruction that demonstrably leads to improved writing instruction when implemented effectively a more detailed account of the phonics whole language debate that continues to puzzle many teachers and parents a new focus on why grammar instruction alone does not lead to better writing the difference between grammar and usage and how to teach grammar and usage effectively an expanded section on Chicano English that now includes a discussion of Spanglish more information on outcome objectives the Council of Writing Program Administrators statement of learning outcomes for first year composition courses has been included to help high school teachers better understand how to prepare high school students for college writing and to help those in graduate programs prepare for teaching assistantships in first year composition courses and a more comprehensive analysis of assessment that considers such important factors as the validity reliability predictability cost fairness and politics of assessment and the effects on teaching of state mandated testing and also provides an expanded section on portfolios Writing History in the Soviet Union Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed Writing History in the Soviet Union Making

the Past Work is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka
