as oral tradition and ritual This kind of analysis is new in Maya studies and offers fresh insight into the function of these magnificent cities and the powerful role public art and architecture play in establishing cultural norms in education in a semiliterate society and in developing the personal and community identities of individuals Several chapters cover the specifics of art and iconography at Yaxchilan as a basis for examining the creation of the city in the Late Classic period Individual sculptures are attributed to the hands of single artists and workshops thus aiding in dating several of the monuments The significance of headdresses backracks and other costume elements seen on monuments is tied to specific rituals and fashions and influence from other sites is traced These analyses lead to a history of the design of the city under the reigns of Shield Jaguar A D 681 741 and Bird Jaguar IV A D 752 772 In Tate s view Yaxchilan and other Maya cities were designed as both a theater for ritual activities and a nexus of public art and social structures that were crucial in defining the self within Maya society
