Lim,John J. Collins,2012-10-11 In 1946 the first of the Dead Sea Scroll discoveries was made near the site of Qumran at the northern end of the Dead Sea Despite the much publicized delays in the publication and editing of the Scrolls practically all of them had been made public by the time of the fiftieth anniversary of the first discovery That occasion was marked by a spate of major publications that attempted to sum up

the state of scholarship at the end of the twentieth century including *The Encyclopedia of the Dead Sea Scrolls* OUP 2000. These publications produced an authoritative synthesis to which the majority of scholars in the field subscribed. granted disagreements in detail. A decade or so later *The Oxford Handbook of the Dead Sea Scrolls* has a different objective and character. It seeks to probe the main disputed issues in the study of the Scrolls. Lively debate continues over the archaeology and history of the site, the nature and identity of the sect and its relation to the broader world of Second Temple Judaism and to later Jewish and Christian tradition. It is the Handbook's intention here to reflect on diverse opinions and viewpoints, highlight the points of disagreement and point to promising directions for future research.

A Handbook on the New Law of the Sea, Volume 2 Daniel Vignes, R.J. Dupuy, 2023-09-20. The fact that the Montego Bay Convention has been only ratified by 37 States at present and that it will be some time before the 60 ratifications required by Article 308 are achieved has not prevented states from acting in accordance with the rules drawn up by the Conference. Close on one hundred states have established either exclusive economic zones broadly modelled on Part V or 200 nautical mile fishery zones and drawn on the principles laid down for exploiting living resources. Although these laws have been formulated unilaterally by states, international custom since the judgement by the International Court of Justice in the Fisheries Case of 18 December 1951 is derived from concordant national rules. This shift began even before the Conference ended and has been consolidated since then. Moreover, the regime governing the sea bed beyond the limits of national jurisdiction defined by Part XI, which was the stumbling block of the Conference, is subject to transitional arrangements on the basis of two resolutions adopted in the Conference's Final Act, one providing for the establishment of a Preparatory Commission and the other on the preliminary activities of pioneer investors. This two volume work, an earlier edition of which appeared in French, has been written by a team of experts of international renown. It presents an analysis of the Convention with an additional Chapter on the legal regime governing underwater archaeological and historical objects.
