Hollywood and the CIA Oliver Boyd Barrett, David Herrera, James Baumann, 2011-03 This book investigates representations of the Central Intelligence Agency CIA in Hollywood films and the synergies between Hollywood product U S military defense interests and U S foreign policy As probably the best known of the many different intelligence agencies of the US the CIA is an exceptionally well known national and international icon or even brand one that exercises a powerful influence on the imagination of people throughout the world as well as on the creative minds of filmmakers The book examines films sampled from five decades the 1960s 1970s 1980s 1990s and 2000s and explores four main issues the relative prominence of the CIA the extent to which these films appeared to be overtly political the degree to which they were favorable or unfavorable to the CIA and their relative attitude to the business of intelligence A final chapter considers the question do these Hollywood texts appear to function ideologically to normalize the CIA If so might this suggest the further hypothesis that many CIA movies assist audiences with reconciling two sometimes fundamental opposites often gruesome covert CIA activity for questionable goals and at enormous expense on the one hand and the values and procedures of democratic society on the other This interdisciplinary book will be of much interest to students of the CIA Intelligence Studies media and film studies US politics and IR Security Studies in general *Motion Picture Series and Sequels* Bernard A. 2004 movie *White Chicks* on radio and television in advertising and product marketing and even in the way Americans speak Strausbaugh enlivens themes that are rarely discussed in public let alone with such candor and vision American culture neither conforms to knee jerk racism nor to knee jerk political correctness It is neither Black nor White nor Other but a mix a mongrel No history is best forgotten however uncomfortable it may be to remember The power of blackface to engender mortification and rage in Americans to this day is reason enough to examine what it tells us about our culture and ourselves Blackface is still alive Its impact and descendants including Black performers in whiteface can be seen all around us today

Arab Americans in Film Waleed F. Mahdi, 2020-10-21 Selected for Arab America's Best Arab American Books of 2020 list It comes as little surprise that Hollywood films have traditionally stereotyped Arab Americans but how are Arab Americans portrayed in Arab films and just as importantly how are they portrayed in the works of Arab American filmmakers themselves In this innovative volume Mahdi offers a comparative analysis of three cinemas yielding rich insights on the layers of representation and the ways in which those representations are challenged and disrupted Hollywood films have fostered reductive imagery of Arab Americans since the 1970s as either a national security threat or a foreign policy concern while Egyptian filmmakers have used polarizing images of Arab Americans since the 1990s to convey their nationalist critiques of the United States Both portrayals are rooted in anxieties around globalization migration and US Arab geopolitics In contrast Arab American cinema provides a more complex realistic and fluid representation of Arab American citizenship and the nuances of a transnational identity Exploring a wide variety of films from each cinematic site Mahdi traces the competing narratives of Arab American belonging how and why they vary and what's at stake in their circulation
