progress culturally and politically only when it has relinquished its residual fantasies of global mastery *Music and Musical Composition at the American Academy in Rome* Martin Brody, 2014 Combining cultural analysis with historical and personal accounts of a century of musical life at the American Academy in Rome this volume provides a history of the AAR's Rome Prize in Composition Martha Hill and the Making of American Dance Janet Mansfield Soares, 2009-07-21 A lively and intimate portrait of an unsung heroine in American dance Martha Hill 1900-1995 was one of the most influential figures of twentieth century American dance Her vision and leadership helped to establish dance as a serious area of study at the university level and solidify its position as a legitimate art form Setting Hill's story in the context of American postwar culture and women's changing status this riveting biography shows us how Hill led her colleagues in the development of American contemporary dance from the Kellogg School of Physical Education to Bennington College and the American Dance Festival to the Juilliard School at Lincoln Center She created pivotal opportunities for Martha Graham Doris Humphrey Charles Weidman Hanya Holm Jos Limón Merce Cunningham and many others The book provides an intimate look at the struggles and achievements of a woman dedicated to taking dance out of the college gymnasium and into the theatre drawing on primary sources that were previously unavailable It is lavishly illustrated with period photographs **The Literary Year-book**, 1903 *The Bookseller*, 1918 **Jerome Robbins** Deborah Jowitt, Jerome Robbins, 2004 Chronicles the life of American ballet choreographer Jerome Robbins discussing his career and private life his Russian Jewish heritage and his impact on dance and theater *British Books*, 1911 Willa Cather and the Dance Wendy K. **Adaptations, Versions and Perversions in Modern British Drama** Ignacio Ramos Gay, 2014-10-02 This book aims to explore which plays were deemed suitable to be reworked for foreign or local stages what transformations linguistic semiotic theatrical were undertaken so as to accommodate international audiences how national literary traditions are forged altered and diluted by means of transnational adapting techniques and finally to what extent the categorical boundaries between original plays and adaptations may be blurred on the account of such adjusting textual strategies It brings together ten articles that scrutinise the linguistic social political and theatrical complexities inherent in the intercultural transference of plays The approaches presented by the different contributors investigate modern British theatre as an instance of diachronic and synchronic transnational adaptations based upon a myriad of influences originating in and projected upon other national

dramatic traditions These traditions rooted in relatively distant geographies and epochs are traced so as to illustrate the split between the state imposed identity and personal subjective identity caused by cultural negotiations of the self in an age of globalism International frontiers are thus pointed at in order to claim the need to be transcended in the process of cultural re appropriation associated with theatre performance for international audiences *The Servile Mind* Kenneth

Minogue, 2012-11-20 One of the grim comedies of the twentieth century was that miserable victims of communist regimes would climb walls swim rivers dodge bullets and find other desperate ways to achieve liberty in the West at the same time that progressive intellectuals would sentimentally proclaim that these very regimes were the wave of the future A similar tragicomedy is playing out in our century as the victims of despotism and backwardness from Third World nations pour into Western states academics and intellectuals present Western life as a nightmare of inequality and oppression In *The Servile Mind* How Democracy Erodes the Moral Life Kenneth Minogue explores the intelligentsia's love affair with social perfection and reveals how that idealistic dream is destroying exactly what has made the inventive Western world irresistible to the peoples of foreign lands *The Servile Mind* looks at how Western morality has evolved into mere politico moral posturing about admired ethical causes from solving world poverty and creating peace to curing climate change Today merely making the correct noises and parading one's essential decency by having the correct opinions has become a substitute for individual moral responsibility Instead Minogue argues we ask that our governments carry the burden of solving our social and especially moral problems for us The irony is that the more we allow the state to determine our moral order the more we need to be told how to behave and what to think Such is the servile mind **Répertitres** François Verschaeve, 2007
