The Herald and Genealogist John Gough Nichols, 1867 *Rhetorical Action in Ancient Athens* James Fredal, 2006 Twenty eight illustrations are included Jacket **Sub-Saharan Political Cultures of Deceit in Language, Literature, and the Media, Volume I** Esther Mavengano, Isaac Mhute, 2023-11-18 This two volume set charts a cross disciplinary discursive terrain that proffers rich insights about deceit in contemporary postcolonial Sub Saharan African politics In an attempt to produce a nuanced and multi faceted academic dialoguing platform the two volumes have a particular focus on the aspects of treachery fear of difference oppositional politics and discourses semiotics of mis self representation The major aim of the proposed volumes is to contribute toward the often problematised conversations about the unfolding post colonial Sub Saharan world which is topical in decolonial and Pan African studies The volumes seek to place political thinking and postcolonial political systems under the scholarly gaze with the view to highlight and enhance the participation of African cross disciplinary scholarship in the postcolonial political processes of the continent Most significantly it is through such probing of the limitations of our own disciplinary perspectives which can help us appreciate the complexity of the postcolonial Sub Saharan African politics The first volume uses Zimbabwe as a case study while the second volume broadens to examine postcolonial politics in Sub Saharan Africa more broadly *Federal Communications Commission Reports. V. 1-45, 1934/35-1962/64; 2d Ser., V. 1- July 17/Dec. 27, 1965-.* United States. Federal Communications Commission, 1967

Beyond Death in the Oresteia Amit Shilo, 2022-09-08 The Oresteia is permeated with depictions of the afterlife which have never been examined together In this book Amit Shilo analyses their intertwined and conflicting implications He argues for a poetics of multiplicity and poetics of the beyond that inform the ongoing debates over justice fate ethics and politics in the trilogy The book presents novel textually grounded readings of Cassandra s fate Clytemnestra s ghost scene mourning ritual hero cult and punishment by Hades It offers a fresh perspective on the political thought of the trilogy by contrasting the ethical focus of the Erinyes and Hades with Athena s insistence on divine unity and warfare Shedding new light on the trilogy as a whole this book is crucial reading for students and scholars of classical literature and religion This title is available as open access on Cambridge Core *Tiger on the Brink* Bruce Gilley, 1998-10-01 This pathbreaking book is the first full length study of the rise to power of Jiang Zemin now the central figure in China s third generation of leaders Tracing

Jiang's beginnings as a student in the underground Communist movement in Shanghai through his appointment by Deng Xiaoping as party general secretary and his sudden elevation to central authority in the wake of the 1989 Tiananmen Massacre in Beijing. Bruce Gilley offers a fascinating and highly readable look at how Jiang Zemin has secured his position as one of the world's most powerful figures. Gilley follows Jiang's life and career from his early years as the adopted son of a revolutionary martyr through his training in Western science and engineering to his emergence as what many believed would be an interim figurehead in the wake of Tiananmen. Gilley shows how Jiang instead persisted as China's key leader following the death of Deng Xiaoping. While he shared the concerns of the last of the Party elders including their idealistic views of Chinese socialism, he also accommodated the younger generation of economic reformers who have helped China to achieve staggering growth in its domestic economy and foreign trade. Gilley's analysis of the careful and methodical transition of power from Deng to Jiang during the 1990s is a remarkable study in complexity and contrast, clearly illustrating Jiang's ability to either placate his allies and adversaries or ruthlessly exploit their weaknesses. Based on first-hand interviews and primary documents as well as a variety of mainland Chinese and international media sources, *Tiger on the Brink* is an unprecedented and immensely revealing look into the highest echelons of Chinese politics on the eve of the twenty-first century and will be of interest to anyone concerned with the world's most populous nation and its newest emerging superpower.

Hell on the Range Daniel Justin Herman, 2010-11-18. In this lively account of Arizona's Rim Country War of the 1880s, what others have called The Pleasant Valley War, Historian Daniel Justin Herman explores a web of conflict involving Mormons, Texas cowboys, New Mexican shepherders, Jewish merchants, and mixed blood ranchers. At the heart of Arizona's range war, argues Herman, was a conflict between cowboys' code of honor and Mormons' code of conscience.

The Valley of Cross Purposes Carol J. Frost PhD, 2017-03-31.

In the late 1800s, Charles Nordhoff forged the shape of modern journalism and profoundly influenced both politicians and politics. Principled activist, investigative, and a champion of the disenfranchised and poor, he was more interested in character and results than in personality and credit. And like the blacksmith wielding his hammer, he left us the

tangible products of his labors but few details of himself With superb research illuminating insights and eloquent prose Carol Frost brings Nordhoff vividly to life both the man and his extraordinary impacts on politics journalism government and public discourse impacts that are still defining public life today Journalists historians and activists will find context and inspiration in this captivating and previously untold story a story that in many important ways feels like it was written about the events and debates of our own time rather than those of more than 100 years ago

Aeschylus, Character, and the Yoke of Necessity Mark Ringer, 2025-09-04 *Aeschylus Character and the Yoke of Necessity* considers the works of Aeschylus in the context of the playwright's handling of dramatic character and the conflict between freedom and compulsion Aeschylus was an Athenian citizen during the first generation of that polis's democratic system As such he and his contemporaries were encountering a kind of free agency unknown before in history Aeschylus presents the archetype of the tragedy of character

that will resonate throughout world literature It is a fascinating and essential component to the conception of his drama that his protagonists each of the six plays find ways of escaping freedom in exchange for a self imposed spiritual bondage They slip their necks into the yoke of necessity to borrow a pivotal line from the Agamemnon Caught between their individual motives and the unavoidable necessity of their situation each protagonist handles this conflict in a way that defines the specificity of their character and results in the development of the plot This book also explores the frequently dominant position of the Aeschylean chorus **Henry J. Maverick,2020-04-06 Reprint of the original first published in 1870 **The State of the University** Stanley Hauerwas,2008-04-15 In this book controversial and world renowned theologian Stanley Hauerwas tackles the issue of theology being sidelined as a necessary discipline in the modern university It is an attempt to reclaim the knowledge of God as just that knowledge Questions why theology is no longer considered a necessary subject in the modern university and explores the role it should play in the development of our knowledge Considers how theology is often excluded from the knowledges of the modern university because these are constituted by an understanding of time necessary to make economic and state realities seem inevitable Argues that it is precisely this difference that makes Christian theology an essential resource for the university to achieve its task that is to form people who are able to imagine a different world through critical and disciplined reflection Challenges the domesticated character of much recent theology by suggesting how prayer and the love of the poor are essential practices that should shape the theological task Converses with figures as diverse as Luigi Giussani David Burrell Stanley Fish Wendell Berry Jeff Stout Rowan Williams and Sheldon Wolin Published in the new and prestigious Illuminations series **Silence in the Land of Logos** Silvia Montiglio,2010-05-17 In ancient Greece the spoken word connoted power whether in the free speech accorded to citizens or in the voice of the poet whose song was thought to know no earthly bounds But how did silence fit into the mental framework of a society that valued speech so highly Here Silvia Montiglio provides the first comprehensive investigation into silence as a distinctive and meaningful phenomenon in archaic and classical Greece Arguing that the notion of silence is not a universal given but is rather situated in a complex network of associations and values Montiglio seeks to establish general principles for understanding silence through analyses of cultural practices including religion literature and law Unlike the silence of a Christian before an ineffable God which signifies the uselessness of words silence in Greek religion paradoxically expresses the power of logos for example during prayer and sacrifice it serves as a shield against words that could offend the gods Montiglio goes on to explore silence in the world of the epic hero where words are equated with action and their absence signals paralysis or tension in power relationships Her other examples include oratory a practice in which citizens must balance their words with silence in very complex ways in order to show that they do not abuse their right to speak Inquiries into lyric poetry drama medical writings and historiography round out this unprecedented study revealing silence as a force in its own right
