Queux of the Edwardian age to John le Carr of the Cold War era David Stafford reveals the connections between fact and fiction as seen in the lives of writers with experience in intelligence including John Buchan Compton Mackenzie Somerset Maugham Ian Fleming and Graham Greene Le Queux used his spy fiction as xenophobic propaganda before and after World War I and le Carr's novels have provided reflections on the Cold War and the decline of Britain's influence Anxieties about the decline of the American empire have helped stimulate a more vigorous American literature of espionage providing an index of contemporary American concerns about power relations As Stafford suggests the genre of espionage fiction rarely intends to document the real world of intelligence Rather it provides a popular vehicle for exploring themes of imperial decline international crisis and impending war *The Interpreter's House* David Daniell, 1975 **English Fiction of the Early Modern Period** Douglas Hewitt, 2014-05-22 This is an ambitious and fascinating analysis of early twentieth century English literature from Kipling Conrad Lawrence and Forster through figures like Joyce and Woolf to writers such as Evelyn Waugh There are chapters on the younger writers of the age as well as the more popular minor writers like Buchan and Dornford Yates *Twentieth Century Fiction* George Woodcock, 1983-04-01 [The Oxford English Literary History: Volume 10: 1910-1940: The Modern Movement](#) Chris Baldick, 2005-11-10 This exciting new volume provides a freshly inclusive account of literature in England in the period before during and after the First World War Chris Baldick places the modernist achievements of Virginia Woolf T S Eliot and James Joyce within the rich context of non modernist writings across all major genres allowing high literary art to be read against the background of low entertainment Looking well beyond the modernist vanguard Baldick highlights the survival and renewal of realist traditions in these decades of post Victorian disillusionment Ranging widely across psychological novels war poems detective stories satires and children's books *The Modern Movement* provides a unique survey of the literature of this turbulent time **English Literature in Transition, 1880-1920**, 1983 [The Modern Movement](#) Chris Baldick, 2004 A major new survey of literature in England during the first half of the twentieth century Chris Baldick places modernist with non modernist writings high art with low entertainment The Modern Movement ranges broadly covering psychological novels war poems detective stories satires children's books and other literary forms evolving in response to the new anxieties and exhilarations of twentieth century life *Constructions of 'the Jew' in English Literature and Society* Bryan Cheyette, 1995-10-26 Combining cultural theory discourse analysis and new historicism with readings of the works of major contemporary authors this study concludes that the Jew is characterized unstereotypically as the embodiment of uncertainty within English literature and society **Spies and Holy Wars** Reeva S. Simon, 2010-11-15 Illuminating a powerful intersection between popular culture and global politics *Spies and Holy Wars* draws on a sampling of more than eight hundred British and American thrillers that are propelled by the theme of jihad an Islamic holy war or crusade against the West Published over the past century the books in this expansive study encompass spy novels and crime fiction illustrating new connections between these genres and Western imperialism Demonstrating the

social implications of the popularity of such books Reeva Spector Simon covers how the Middle Eastern villain evolved from being the malleable victim before World War II to the international techno savvy figure in today s crime novels She explores the impact of James Bond pulp fiction and comic books and also analyzes the ways in which world events shaped the genre particularly in recent years Worldwide terrorism and economic domination prevail as the most common sources of narrative tension in these works while military tech novels restored the prestige of the American hero in the wake of post Vietnam skepticism Moving beyond stereotypes Simon examines the relationships between publishing trends political trends and popular culture at large giving voice to the previously unexamined truths that emerge from these provocative page turners
