Books Out Loud , 2004 **The A to Z of the Reagan-Bush Era** Richard S. Conley, 2009-09-28 The 1980s and early 1990s were remarkable for the triumph of conservatism in the United States and its closest allies The victories of Presidents Ronald Reagan and George H W Bush in the United States were complemented by

the electoral successes of Margaret Thatcher in the United Kingdom and Brian Mulroney in Canada The relationship between Reagan and Bush and their conservative counterparts was particularly important in providing a united front on foreign policy whether the target was the Soviet Union Communist insurgencies in Africa or Latin America or Iraqi dictator Saddam Hussein The Reagan Bush era witnessed some of the most dramatic events of the latter half of the 20th century the collapse of the Soviet Union a presidential assassination attempt political scandal a stock market crash military invasions and the explosion of the space shuttle Challenger The A to Z of the Reagan Bush Era relates these events and provides extensive political economic and social background on this era through a detailed chronology an introduction appendixes a bibliography and several hundred cross referenced dictionary entries on important persons events institutions policies and issues

John the Baptizer Brooks Hansen, 2025-04-25 A vivid moving and unprecedented biographical saga of John the Baptist Traditionally John the Baptist is seen as little more than an opening act the voice crying in the wilderness in the great Christian drama In presenting the epic of John's life novelist Brooks Hansen draws on an extraordinary array of inspirations from the works of Caravaggio Bach and Oscar Wilde to the histories of Josephus the canonical gospels the Gnostic gospels and the sacred texts of those followers of John who never accepted Jesus as Messiah the Mandeans Gripping as literary historical fiction and fascinating as a diligent exploration of ancient and modern sources this book brings to eye opening life the richly textured world populated by the magnificently sordid calculating and reckless Herods their families and their courts into which both John and Jesus were born John the Baptizer is a captivating tapestry of power and dissent ambition and self sacrifice worldly and otherworldly desire faith and doubt

Historical Dictionary of the Reagan-Bush Era Richard S. Conley, 2017-03-09 From the vantage point of the 2016 presidential election and the deepening polarization of American politics in recent decades it is striking how much more distant the Reagan Bush era of the 1980s and early 1990s seems compared to the years that have actually passed Whither the Republican Party of yesteryear Like reincarnated characters from Samuel Beckett's classic play Waiting for Godot many disillusioned conservatives in the new millennium continue to search obdurately and in vain for a leader who embodies the acclaimed leadership traits of Ronald Reagan This second edition of Historical Dictionary of the Reagan Bush Era contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations events institutions policies and issues This book is an excellent resource for students researchers and anyone wanting to know more about this era
