Lindseth, 2021 In this Handbook distinguished experts in the field of administrative law discuss a wide range of issues from a comparative perspective The book covers the historical beginnings of comparative administrative law scholarship and discusses important methodological issues and basic concepts such as administrative power and accountability

Reimagining Public Managers Usman W. Chohan, 2020-09-03 Public value theory speaks to

the co creation of value between politicians citizens and public managers with a focus on the public manager in terms of her contributions initiatives and limitations in value creation But just who are public managers Public value regularly treats the public manager as synonymous with bureaucrat government official civil servant or public administrator However the categories of public managers represent a more versatile and expansive set of agents in society than they are given credit for and the discourse of public value has typically not delved sufficiently into the variety of possible cadres that might comprise the public manager This book seeks to go beyond the assumed understandings of who the public manager is and what she does It does so by examining the processes of value creation that are driven by non traditional sets of public managers which include the judiciary the armed forces multilateral institutions and central banks It applies public value tools to understand their value creation and uses their unique attributes to inform our understanding of public value theory Tailored to an audience comprising public administration scholars students of government public officials practitioners and social scientists interested in contemporary problems of values in society this book helps to advance public administration thought by re examining the theory s ultimate protagonist the public manager It therefore constitutes an important effort to take public value theory forward by going beyond conceptions of the public manager as she has thus far been understood *Personnel Supervision (books) 1979-1986 Janet H. Edmonds,1988*

Public Value and the Post-Pandemic Society Usman W. Chohan,2023-07-07 The destruction of the Covid 19 pandemic has marked every society with deep seated wounds whose scars have only begun to heal Yet even as societies take their first steps away from the trauma of the pandemic they confront new and perhaps equally daunting challenges in the post Covid era These challenges offer a unique occasion to consider how the mechanisms of public value PV creation and preservation can be rebuilt and improved mindful of what has been left in the pandemic s wake and of the difficult road that lies ahead The aim of this book then is to examine the forward looking possibilities of multi stakeholder value co creation which involves the renewed efforts of civil society public managers politicians and society at large in a new post pandemic era The book examines many different facets that appeal deeply to public value scholarship value stability transitions inequalities within between publics necropolitics disaster preparedness value measurement and sustainability all of which represent important explorations within public value theory and can greatly enrich PV research going forward This book will therefore be of use to both academics and practitioners of public administration and public policy as well as scholars of government health care policy and economics **Handbook of**

Organization Management W. B. Eddy,1983-08-25 First published in 1983 Routledge is an imprint of Taylor Francis an informa company **Innovations in Government** Sandford F. Borins,2009-12-01 The Innovations in American Government Awards Program began in 1985 with a grant from the Ford Foundation to the Kennedy School of Government at Harvard to conduct a program of awards for innovations in state and local government The foundation s objective was ambitious and in an era of government is the problem rhetoric determinedly proactive It sought to counter declining public confidence in

government by highlighting innovative and effective programs Over twenty years later research recognition and replication are the source of the program s continuing influence and its vitality What is the future of government innovation How can innovation enhance the quality of life for citizens and strengthen democratic governance *Innovations in Government Research Recognition and Replication* answers these questions by presenting a comprehensive approach to advancing the practice and study of innovation in government The authors discuss new research on innovation explore the impact of several programs that recognize innovation and consider challenges to the replication of innovations Contributors include Eugene Bardach University of California Berkeley Robert Behn Harvard University John D Donahue Harvard University Marta Ferreira Santos Farah Center for Public Administration and Government Funda o Getulio Vargas Archon Fung Harvard University Jean Hartley University of Warwick Steven Kelman Harvard University Gowher Rizvi Ash Institute for Democratic Governance and Innovation Harvard University Peter Spink Center for Public Administration and Government Funda o Getulio Vargas and Jonathan Walters *Governing The Politics of Foster Care Administration in the United States* Rebecca H. Padot, 2014-10-10 Government by proxy and intergovernmental relations profoundly affect the public administration of foster care Using examples from foster care systems in the states of Delaware Michigan New York and Rhode Island Rebecca Padot eloquently combines a rigorous methodology and theory work to expose the conditions under which foster care outcomes can be improved The cases selected suggest that the federal government has increased its focus on measuring the performance of state programs while simultaneously decreasing its funding of state foster care programs and offering the states very little management or mentorship Padot turns the page and recommends administrators place a greater priority on building community partners integrating the advice of mentors providing leadership from public managers and cultivating relationships with the federal government An original and timely resource for scholars and practitioners this book represents a significant contribution to our understanding of how leadership and management variables may be associated with more positive foster care practices and performance in the United States **Disaster Policy and Politics** Richard T. Sylves, 2019-02-13 Disaster Policy and Politics combines evidence based research with mini case studies of recent events to demonstrate the fundamental principles of emergency management and to explore the impact that disasters have had on U S policy Paying special attention to the role of key actors decision makers at the federal state and local levels scientists engineers civil and military personnel and first responders author Richard Sylves explores how researchers contribute to and engage in disaster policy development and management The highly anticipated Third Edition explores the radical change in policy and politics after the occurrence of recent disasters such as hurricanes Irma Maria and Harvey Hawaii s false nuclear attack warning and responses to U S wildfires The book s comprehensive all hazards approach introduces students to the important public policy organizational management and leadership issues they may need as future practitioners and leaders in the field **Innovation in American Government** Alan Altshuler, Robert D. Behn, 2010-12-01 Innovation does happen

even in government Despite all the news about government scandals and failures public officials are innovative This book analyzes numerous examples of ingenious problem solving in education in California in the Department of Juvenile Justice in New York City in government operations in Minnesota in human service programs across the country All organizations both public and private need innovation but making innovation work in government is a greater challenge than doing so in business This book identifies a number of dilemmas that complicate the process of innovating in American government For example there is the trust dilemma Innovation may be necessary to establish public faith in the ability of government agencies to perform but before the public grants agencies a license to be truly innovative it needs to be convinced that these same agencies have the ability to perform The contributors to this book analyze a number of issues raised by the task of innovation including Who is responsible for innovating How can innovative individuals and teams be held accountable What kinds of organizational arrangements beget the most innovation How can innovation be fostered in agencies devoted to routinization How should innovative ideas be disseminated And what exactly is an innovation anyway The contributors gathered data for this book from winners and finalists in the Ford Foundation s Innovations Awards program as well as from other innovators and innovations In addition to the editors the contributors are Babak J Armajani Michael Barzelay W Lance Bennett Paul Berman Richard F Elmore Robert M Entman Lee S Friedman Thomas N Gilmore Olivia Golden James Krantz Laurence E Lynn Jr Mark H Moore Beryl Nelson Ellen Schall Malcolm Sparrow William Spelman Deborah A Stone and Marc D Zegans
