The Justices Of The Peace In Wales And Monmouthshire 1541 To 1689:

The Justices of the Peace in Wales and Monmouthshire, 1541 to 1689 J. R. S. Phillips, University of Wales. Board of Celtic Studies, 1975 The Dialogue of the Government of Wales (1594) John Gwynfor Jones, 2010-02-18 This volume is broadly divided into two main sections The first part comprises a detailed introduction to the background of The Dialogue written in 1594 by George Owen of Henllys north Pembrokeshire followed by an updated version of the text with explanatory notes George Owen was the most observant Welsh historians of the late sixteenth century and in the Dialogue he discusses the main functions of legal institutions of government in Tudor Wales following the Acts of Union 1536 43 The discourse is not merely a description of those institutions but rather in the form of a dialogue it provides an analysis of the good and bad aspects of the Tudor legal structure Emphasis is placed on the administration of the Acts of Union and comparisons are drawn with the harsh penal legislation which had previously been imposed by Henry IV Owen reveals the strengths and weaknesses of the Henrician settlement but heartily praises the Tudor regime regarding Henry VII and Henry VIII as liberators of the Welsh nation which the author in the prophetic tradition associated with the nation s historic destiny In this Dialogue Demetius is described as a native Welsh gentleman and Barthol as the German lawyer from Frankfurt travelling through Europe and observing legal practices The Socratic method applied reveals the Renaissance style of conducting debates a framework which gives the work much of its appeal The Dialogue is an invaluable Tudor source which places Welsh Tudor government and administration in a broader historical perspective **Tracing Your Ancestors in County Records** Stuart A. Anatomy of a Duel in Jacobean England Lloyd Bowen, 2021 This book offers an analysis of Jacobean duelling and gentry honour culture through the close examination and contextualisation of the most fully documented duel of the early modern era This was the fatal encounter between a Flintshire gentleman Edward Morgan and his Cheshire antagonist John Egerton which took place at Highgate on 21 April 1610 John Egerton was killed but controversy quickly erupted over whether he had died in a fair fight of honour or had been murdered in a shameful conspiracy The legal investigation into the killing produced a rich body of evidence which reveals in unparalleled detail not only the dynamics of the fight itself but also the inner workings of a seventeenth century metropolitan manhunt the Middlesex coroner's court a murder trial at King's Bench and also the murky webs of aristocratic patronage at the Jacobean Court which ultimately allowed Morgan to secure a pardon Uniquely a series of dramatic Star Chamber suits have survived that also allow us to investigate the duel's origins Their close examination as Lloyd Bowen shows calls into question the historiographical paradigm which sees early modern duels as matters of the moment and distinct from as opposed to connected to the gentry feud The book throws much new light on questions of gentry honour the nature and prevalence of early modern elite violence and the process of judicial investigation in Shakespeare's England LLOYD BOWEN is Reader in Early Modern History at Cardiff University

Tudor Placemen and Statesmen Narasingha Prosad Sil, 2001 This investigation thus seeks to examine the theory of the Tudor revolution in government advanced by the late Sir Geoffrey Elton and in so doing helps to highlight the human and personal dimensions of institutional history An outcome of this changed perspective is that the privy chamber acquires a higher profile following David Starkey's path breaking revisionist research than the privy council as postulated by Elton in the remarkable revolutionary decades of the sixteenth century

Major-General Thomas Harrison David Farr, 2016-05-13 Thomas Harrison is today perhaps best remembered for the manner of his death As a leading member of the republican regime and signatory to Charles I's death warrant he was hanged drawn and quartered by the Restoration government in 1660 a spectacle witnessed by Samuel Pepys who recorded him looking as cheerful as any man could do in that condition Beginning with this grisly event this book employs a thematic rather than chronological approach to illustrate the role of millenarianism and providence in the English Revolution religion within the new model army literature image and reputation and Harrison's relationship with key individuals like Ireton and Cromwell as well as groups most notably the Fifth Monarchists Divided in three parts the study starts with an analysis of Harrison's last year of life the nature of his response to the political collapse of the Interregnum regimes and his apparent acceptance of the Restoration without overt resistance Part two considers Harrison's years of power analysing his political activities and influence in the New Model especially with regard to the regicide The final part ties Harrison's political retreat to his initial emergence from obscurity arguing that Harrison's relative political quietism during the later 1650s was a reflection of the development of his millenarianism Unlike the only two previous full length studies of Harrison the present work makes use of a full range of manuscript primary and secondary sources including the huge range of new material that has fundamentally changed how the early modern period is now understood Fully footnoted and referenced this study provides the first modern academic study of Harrison and through him
