The Kaliningrad Challenge Options And Recommendations:

The Kaliningrad Challenge Hanne-Margret Birckenbach, 2003 The Kaliningradskaya Oblast Russia's Baltic enclave which soon will turn into an island amid the enlarged EU and NATO constitutes a twofold challenge to European politics Due to its economic social historical geographical strategic and cultural peculiarities the detached region may become a source of instability However due to the same peculiarities the region also bears the potential to serve as a pilot region for an EU Russian partnership To meet the latter perspective all actors concerned need to engage in a dialogue based coordinated and problem solving approach This study provides recommendations to a wide range of actors on how to approach the Kaliningrad challenge in a proactive manner It presents a policy paper drafted by a group of Kaliningrad experts from eight countries and is complemented by fourteen issue oriented chapters which provide in depth reasoning on the suggestions made by the group Hanne Margret Birckenbach is professor of political sciences at the University of Giessen Germany Christian Wellmann is deputy director of SHIP The Schleswig Holstein Institute for Peace Research Germany

The European Union and Conflict Prevention Emma J. Stewart, 2006 The book examines the evolution of EU conflict prevention as an internal EU process and as an area of external cooperation with the UN OSCE and NATO Conflict prevention has emerged as a prominent EU policy in the post Cold War era Yet how suited is the organisation to practice conflict prevention and what does the record of cooperation with other key European organisations tell us about the EU's external priorities The book critically analyses the EU's policy and outcomes to date concluding that conflict prevention is underdeveloped by the EU and is in danger of being marginalised in favour of shorter term crisis management Moreover EU external cooperation reinforces this the priority is cooperation in crisis management with the UN and NATO rather than longer term cooperation with the OSCE

EU-Russian Border Security S. V. Golunov, 2013 The land border between Russia and the European Union is one of the longest land borders in the world with very considerable trade flowing across the border in both directions This book examines the nature of the EU Russia border and the issues connected with its management It describes the territories and the societies on each side of the border discusses the challenges which confront border management including migration and criminal activities and explores how people on both sides perceive each other and perceive threats and security issues It concludes by assessing achievements to date in managing the border and by assessing continuing unresolved challenges

From Soviet Republics to EU Member States (2 vols) Peter van Elsuwege, 2008-08-31 From Soviet Republics to EU Member States addresses the legal and political challenges surrounding the EU accession of Estonia Latvia and Lithuania Based upon a profound analysis of the Baltic States historic development and international legal status this book examines the gradual development of bilateral relations between the EU and each of the Baltic countries It discusses the strategic policy choices made in the EU's fifth enlargement wave and the consequences of its pre accession strategies Specific attention is devoted to the impact of enlargement on the triangular relationship

between the EU the Baltic States and Russia Finally the constitutional changes within the Baltic States and within the European Union itself are taken into account *The Geopolitics of Europe's Identity* N. Parker, 2008-02-04 This book pursues an original perspective on Europe's shifting extent and geopolitical standing how countries and spaces marginal to it impact on Europe as a center A theoretical discussion of borders and margins is developed and set against nine studies of countries regions and identities seen as marginal to Europe *Russia and the European Union* Oksana Antonenko, Kathryn Pinnick, 2005-10-09 The focus of this book is the implications of EU enlargement in May 2004 for EU Russian relations How should the EU and Russia develop their priorities as neighbours What role could Russia's border regions play in shaping this policy The book looks at the array of political security economic and social concerns raised by the enlargement process It incorporates different perspectives from existing and new EU member states Russian scholars and politicians from Moscow and the northwestern regions of Russia **Crisis Management Challenges in Kaliningrad** Eugene Krasnov, Anna Karpenko, 2016-04-22 Crisis Management Challenges in Kaliningrad captures the evolving nature of the types of crises faced by a society as it transforms and evolves Once the westernmost bastion of the Soviet Union and now the westernmost part of the Russian Federation the Kaliningrad Oblast remains cut off from direct land communication with mainland Russia and provides a condensed real life laboratory in which to observe changing political technological and economic priorities in Post Soviet society Expert contributors from the region chart the tensions problems and opportunities created by the collapse of the Soviet Union in December 1991 and examine the change in status and situation of the Kaliningrad Oblast By looking at a selection of economic environmental and social crises a historical link between the Soviet and Post Soviet eras is formed and rigorously examined **Popularizing National Pasts** Stefan Berger, Chris Lorenz, Billie Melman, 2012 Popularizing National Pasts is the first truly cross national and comparative study of popular national histories their representations the meanings given to them and their uses which expands outside the confines of Western Europe and the US It draws a picture of popular histories which is European in the full sense of this term One of its fortes is the inclusion of Eastern Europe The cross national angle of Popularizing National Pasts is apparent in the scope of its comparative project as well as that of the *longue durée* it covers Apart from essays on Britain France and Germany the collection includes studies of popular histories in Scandinavia Eastern and Southern Europe notably Romania Bulgaria Croatia Armenia Russia and the Ukraine as well as considering the US and Argentina Cross national comparison is also a central concern of the thirteen case studies in the volume which are each devoted to comparing between two or more national historical cultures Thus temporality both continuities and breaks in popular notions of the past its interpretations and consumption is examined in the long continuum The volume makes available to English readers probably for the first time the cutting edge of Eastern European scholarship on popular histories nationalism and culture **Borderlands** Hastings Donnan, Thomas M. Wilson, 2012-07-10 Borderlands are often seen as zones of instability uncertainty marginality and danger Yet they increasingly attract the attention of

ethnographers as a unique lens through which to view the intersections of the national transnational and global forces that shape the securities and insecurities of our globalizing age The contributors to this volume examine how different kinds of insecurity manifest and interconnect at state borders encompassing the personal and the political the social and the economic in ways that reinforce or undermine the identities of those whose lives these borders frame Drawing upon case studies from the Southern Cone the U S Mexico border and borders in Greece Ireland and southeast Asia the authors show that borders raise questions of security not just for those who live and cross them including ethnographers but also for the sustainability of the physical environments and wildlife disturbed by the passage movement and containment borders generate

Globalization from Below Gordon Mathews, Gustavo Lins Ribeiro, Carlos Alba Vega, 2012 This book explores globalization as actually experienced by most of the world's people buying goods from street vendors brought by traders moving past borders and across continents under the radar of the law The dimensions and practices of globalization from below are depicted and analyzed in detail by a team of international scholars Topics covered include the New Silk Road African traders in China street hawking in Calcutta and pirate CDs in Mexico The chapters provide intimate portrayals of routes markets and people in locations across the globe and explore theories that can help make sense of these complex and fascinating case studies Students of globalization economic anthropology and developing world economics will find the book invaluable

The New European Frontiers Milan Bufon, Julian Minghi, Anssi Paasi, 2014-04-11 This book offers a substantial and up dated discussion and presentation of the new European frontiers related to complex and controversial social and spatial re integration issues in multicultural and border regions It represents an inter disciplinary endeavour from human geographers social and political scientists and linguists to understand and interpret the current developments of the European unity in diversity paradigm based on simultaneous and continuous processes of social and spatial convergence and divergence changing territorialities and identities particularly in the wider EU's inner and outer border regions These studies convincingly display the prominence of context in understanding the regional and local geo histories and in making sense of the meanings of borders for social communities and wider societies They also show how re integration potentials of border and multicultural regions are strongly dependent on the creation of a viable multi level social and spatial planning and cooperation system within which both conflict to harmony processes and common cause behaviours and practices may become effective and thus give a new role to local communities in the numerous borderlands across Europe The book offers both a synthesis of current theoretical methodological approaches and an analysis of selected case studies provided by internationally acknowledged scholars It represents a valuable instrument for researchers and students of social and spatial integration human and political geographers social anthropologists and social and political scientists as well as language planners

The European Union and Border Conflicts Thomas Diez, Mathias Albert, Stephan Stetter, 2008-03-27 It is generally assumed that regional integration leads to stability and peace This book is a systematic study of the impact of

European integration on the transformation of border conflicts It provides a theoretical framework centred on four pathways of impact and applies them to five cases of border conflicts Cyprus Ireland Greece Turkey Israel Palestine and various conflicts on Russia's border with the EU The contributors suggest that integration and association provide the EU with potentially powerful means to influence border conflicts but that the EU must constantly re-adjust its policies depending on the dynamics of each conflict Their findings reveal the conditions upon which the impact of integration rests and challenge the widespread notion that integration is necessarily good for peace This book will appeal to scholars and students of international relations European politics and security studies studying European integration and conflict analysis

Borders in Post-Socialist Europe Tassilo Herrschel, 2016-04-08 Borders have attracted considerable attention in public and academic debates in light of the impact of globalisation and in Europe the end of the divisions of the Cold War era Instead being inside or outside of the EU has become a major paradigmatic divide between claimed spheres of influence by Brussels and Moscow respectively In the aftermath of the end of communism established certainties no longer seemed to apply And this included many of the borders within the former eastern Bloc with some losing their relevance while others re-assert themselves As its particular contribution this book adopts a symbiotic approach to the analysis of borders drawing on a political economy perspective while also recognising the importance of the socio-cultural dimension as found in border studies This seeks to do greater justice to the complex composite nature of borders as geo-political state legal and cultural historic constructs in both theory and practice In addition the book's approach stretches across spatial scales to capture the multi-level nature of borders The first part of the book presents the conceptual framework as it sets out to embrace this multi-faceted multi-layered nature of borders In the second part case studies from north-central Europe including the Baltic Sea Region exemplify the complexity of borders in the context of post-socialist transformation and continuing EUisation

Baltic Democracy at the Crossroads Sten Berglund, 2003 Little more than a decade after the fall of communism the Baltic States and Poland alongside several other Central European states have been invited to join the European Union from 2004 The speed of change has been breathtaking surprising even the most optimistic voices This volume gives a comprehensive overview of the state of democracy around the eastern Baltic seaboard highlighting in particular the importance of elites in newly emerging democracies This is the first volume to provide in-depth analysis of the rapidly changing political circumstances of the Baltic countries Poland and Kaliningrad to a wide audience covering the transformation from the Soviet style nomenklatura to competitive elites changing political behavior and the links between citizens and elites In addition the book covers the interconnections between networks of elites including local elites One chapter also analyzes the delicate issue of the detached Russian region of Kaliningrad

Women and the Birth of Russian Capitalism Irina Mukhina, 2014-07-15 Little has been known acknowledged or studied about the shuttle trade one of the major manifestations of new Russian life of the 1990s The term itself seems to suggest something of a rather small scale Indeed the amount of each transaction in this trade was miniscule Individual peddlers traveled to near abroad with their bulging bags and brought back home for resale only as many goods as they could personally carry in their enormous suitcases The phenomenon hidden behind the term shuttle trade was by no means insignificant or small in scale By the mid 1990s it constituted the backbone of Russian consumer trade and was a substantial source of revenue The primary participants in the shuttle trade were women and in this enlightening study Mukhina assesses the reasons why women were attracted to this business the range of the personal experiences of female shuttle traders and the social impact of women's involvement in this sort of economic activity By analyzing the social and gendered dimensions of the shuttle trade the reader can begin to understand more broadly how gender shaped the transition period associated with the end of communist regimes in Eastern Europe Moreover the difficulties that these women faced highlight the gap between the rhetoric of free market economy and the actual market practices These women traders had to create and shape the physical market an open air space for their goods without the basic legislative and other provisions of market economies The shuttle trade became an avenue of female suffering but also of survival and even empowerment during the time that most Russians now call the wild 1990s

Adapting to European Integration? Stefan Gänzle, 2009-03-15 This volume offers up to date comprehensive and theoretically informed analysis of the effects of European integration on various aspects of contemporary political social and economic life in the Russian exclave of Kaliningrad

Friedensbedrohung Terrorismus Ulrike Kronfeld-Goharani, 2005 *The Russian Regions* John Löwenhardt, Stephen White, 2007

Arms, War, and Terrorism in the Global Economy Today Wolfram Elsner, 2007 After the end of the Cold War the world has experienced a more mono polar power structure In contrast to promises of a peaceful one world this seems not to have provided more international justice and security nor reduced international conflict Defense related issues long given minor attention in economics have surfaced rather as a central mechanism in the current stage of globalization Increase in military expenditures the multiplication of wars new generations of sophisticated weapons and increased interest for defense stocks at the financial markets indicate that a new type of relation between defense and economy has set in The papers presented here investigate on what economics has to say on conflict war and terrorism today

a selection of sophisticated economic analyses of the theoretical and applied industrial macroeconomic fiscal policy financial market regional and alternative policies dimensions Here modern economics has a considerable and critical contribution to make
