The Person Inside:

The Person Inside Myra H. Doyle, 2024-05-16 It's human nature to want and expect to be loved and accepted. God made us that way. Because God loves us and accepts us, we expect family and friends to feel the same way. That doesn't always happen, not even in Christian homes. We are spirit and we have a soul and we live in a body. There is a uniqueness that God places in each one of us. It is what makes us different from one another. Our innateness is created by God. That is what is inside the person. Abuse can cloud and even destroy the person inside. Nothing is more personal than abuse. It is an intentional direct attack on the personhood of an individual. It is the canceling, the erasing of the naturalness of a person. The abuser is committing a sin over on the child or spouse or whomever, whether it be physical, sexual, or psychological abuse. I am a delivered and healed survivor of child abuse. I received deliverance and inner healing from Jesus Christ. He has set the person inside free to be who he created me to be. And he can do the same for you. My hope is that everyone be delivered from their past and healed of their wounds.

The Man Inside Graham Apthorpe, 2019-07-05 Graham Apthorpe's account of the Cowra outbreak is superb. Narrated in a fresh way in elegant and original prose and with a wonderful gift for taking the unexpected angle, it does great service to this astonishing Australian Japanese event and will have a honoured place in the canon of fascinating works on the incident. Thomas Keneally. The War in the Pacific has turned thousands of the previously invincible Japanese soldiers now being captured in New Guinea and interned at the Cowra Prisoner of War Camp. Unlike other POWs, the traditional Japanese Bushido Code and their fanaticism leaves them ill equipped for surrender and imprisonment. Ashamed, subdued, and sullen, one man, Second Lieutenant Maseo Naka, is an exception. Obstructing the Australian authorities at every turn, he was the first Japanese soldier to escape from Cowra. This action becomes the precursor for the more than 1000 Japanese prisoners who escape in the bloodiest Breakout of World War II that ultimately saw 234 Japanese and four Australian guards killed. His escape and the defiance, guilt, and shame that motivated it led to his court martial. Naka nevertheless stands out as very human, another tragic victim of the global inferno that was World War II. Adhering to the Samurai Code of Bushido, he doggedly undertakes actions that he views as necessary for the maintenance of his honour. Through the insights of those around Naka, together with new research including the personal accounts of Australian interrogators, the author shows how this handsome loner provided the impetus for the dramatic events in the early hours of August 5, 1944, where hundreds of Japanese soldiers stormed the camp defences for honour or death.

Animacy in Cognition: Effects, Mechanisms, and Theories Michael J. Serra, Josefa N. S. Pandeirada, Joshua VanArsdall, 2024-11-19 People and animals broadly animate are important dynamic forces in the natural world. They represent social targets such as friends and enemies, economic and romantic partners, predators and prey, and companions. Most importantly, unlike inanimate objects, animate agents have internal goals and drives that cause them to act on the world rather than simply be acted on. In short, animates fill our world with novel causes and have been a consistent selection pressure over the course of evolution.

human and nonhuman Cognitive scientists have long acknowledged the importance of animacy investigating it as a perceptual phenomenon as a component of language a natural category a demand on attention a dimension of neurological organization and more recently as an important factor in memory Although animacy has been a dimension of interest in cognitive science for quite some time cognitive scientists from different subdisciplines interested in animacy e g perception attention language and memory rarely talk with one another to synthesize findings across subfields A major goal of this research topic is to solicit articles from across cognitive science in a broad sense that investigate the role that animacy plays in cognition in the hopes that authors and readers may begin to see the bigger picture regarding how animacy influences the mind We hope that by bringing together researchers from across cognitive science we will hear from a diverse set of perspectives regarding animacy representing a variety of research questions and methodologies within this larger topic Likewise we hope that the finished research topic will lead to an increased and more varied exploration of the role of animacy in our thoughts and actions and will appeal to readers across fields

Sacrifice and Moral Philosophy Marcel van Ackeren, Alfred Archer, 2020-09-10 The aim of this book is to foster a more explicit and direct discussion of the concept of sacrifice and its importance in moral philosophy Acts of self sacrifice have a special place in our moral lives We admire and celebrate those who give up their lives so that others may live Despite this important role that sacrifice plays in our moral thinking moral philosophers have had surprisingly little to say about the nature of sacrifice This lack of attention to the nature of sacrifice is particularly important given that sacrifice also has an important role to play in several key debates in moral philosophy The chapters in this volume make an important contribution to our understanding of sacrifice in three areas The first part of the book investigates the nature of sacrifice The next group of chapters investigates the role of sacrifice in moral philosophy Three of these pieces investigate the role of sacrifice in our moral lives generally while two investigate the role of sacrifice in relation to particular moral theories The final two chapters investigate the value of sacrifice in relation to political and theological issues The chapters in this book were originally published as a special issue of the International Journal of Philosophical Studies

The Value of Empathy Maria Baghramian, Meline Papazian, Rowland Stout, 2020-12-18 The Value of Empathy explores various approaches to understanding empathy and investigates its moral and practical role The central role of empathy in understanding others and the need for it in our social and inter personal encounters is widely acknowledged by philosophers social scientists and psychologists alike Discussions of empathy abound not only in more specialised academic publications but also in traditional and social media Yet neither a clear understanding nor a uniform definition of this relatively new term is available Indeed one difficulty in discussing empathy in philosophy and beyond is the profusion of definitions the difficulty is compounded by a lack of clarity in the distinction between empathy and cognate

concepts such as sympathy and compassion This book has two aims Chapters 1 5 seek to address the dual concerns of the lack of clarity and profusion of interpretations by suggesting new ways of approaching the topic The second aim of the book is to connect the more abstract discussions of empathy with its normative functions Chapters 6 8 engage with the theoretical concerns relevant to the ethics of empathy and raise interesting points about its significance in ethical thought and action The final four chapters focus on the practical normative significance of empathy by examining the connections between empathy vulnerability and care in circumstances of ill health The chapters in this book were originally published in the International Journal of Philosophical Studies

President's Heart-Lost Deal Ye Nu,2020-01-02 Shiyin s parents passed away due to an accident but the only senior uncle actually sold her to Xia Zheng who was the CEO of a large corporation Everything was just a rehearsal Shiyin became Xia Zheng s legal wife but he was just a pawn All the entanglement goes out like this Will a man s heart fall on a woman or will he marry someone else

Yuendumu Everyday Yasmine Musharbash,2008 This book explores intimacy immediacy and mobility as the core principles underpinning contemporary everyday life in a central Australian Aboriginal settlement It analyses an everyday shaped through the interplay between a not so distant hunter gatherer past and the realities of living in a first world nation state by considering such apparently mundane matters as What is a camp How does that relate to houses Who sleeps where and next to whom Why does this constantly change What and where are the public private boundaries And most importantly How do Indigenous people relate to each other Employing a refreshingly readable writing style Musharbash includes rich vignettes including narrative portraits of five Warlpiri women Musharbash s descriptions and analyses of their actions and the situations they find themselves in transcend the general and illuminate the personal She invites readers to ponder the questions raised by the book not just at an abstract level but as they relate to people s actual lives In doing so it expands our understandings of Indigenous Australia

Cairo, Victoria Cabal, 2021-11-03 This volume explores the tensions between the student affairs foundation of holistic student development and the changing culture of corporatization While there is ample evidence of neoliberalism in the academic affairs of higher education there is very little to no research to understand how neoliberalism is driving the corporatization of student affairs This book argues that understanding neoliberalism in student affairs is crucial to student success and the student experience The authors provide contextualized examples for understanding our positionality within the neoliberal system as well as practical recommendations on resisting market values as common sense thereby helping to preserve the profession and to imagine a new one centered on people equity and justice
