Radiology of Peripheral Vascular Diseases E. Zeitler, 2012-12-06 Over the last decade important advances have been made in the radiological management of peripheral vascular diseases In the diagnostic field the role of conventional angiography has diminished considerably in favor of new non invasive diagnostic modalities such as color Doppler imaging and magnetic resonance angiography Percutaneous radiological treatment of arterial diseases of the limbs has revolutionized therapeutic concepts in this area Professor E Zeitler is a renowned international expert in the field of peripheral He was one of the pioneers in investigating and developing per vascular diseases cutaneous catheter treatment of arterial stenosis of peripheral arteries This volume is based upon his unique lifetime s experience of treating patients presenting with peripheral vascular diseases Moreover Professor Zeitler was very successful in engaging a group of excellent authors all specialists in their field to contribute individual chapters Together they have succeeded in producing one of the most comprehensive books on the modern radiological approach to patients with peripheral vascular diseases It is my firm belief that this volume will be of great interest to radiologists angiologists and vascular surgeons alike by providing them with the latest knowledge and information in the field of radiology I wish this volume the same success as the many other volumes already published in the book series Medical Radiology Any constructive criticism that the reader may wish to offer is welcomed
