The Physics Of The Paranormal:

The Physics of the Paranormal ,1987 The Physics of the Paranormal Kenneth W. Behrendt,2003-01-24 The Physics of the Paranormal is one of the few books in existence that actually explores in depth the physical mechanisms that may be in operation when various paranormal events occur In order to provide these revolutionary insights the author applied several concepts derived from his lifelong research into UFO propulsion and secondary effects The application of these new physical principles to the paranormal reveals a fascinating unity in the mechanism in operation behind such apparently diverse phenomena as mental photography psychokinesis the Geller effects bodily transfigurations and miracle cures Based on some of the authors own experiences with telepathy the book also explores this phenomenon as well as its role in the process of reincarnation This book is not a compendium of case histories It focuses on selected cases and seeks to provide the serious student of the subject with a conceptual framework that will guide future paranormal research well into the twenty first century *The New Paradigm* ,2013-12-01 The Science Of Paranormal Phenomena Minkon Roy,Dr. Parag Deb Roy,Rituparna Debroy, Angshuman Deb Roy, Promothesh Deb Roy,2025-02-13 The Science of Paranormal Phenomena Fact or Fiction delves into the mysteries surrounding paranormal events such as ghost sightings hauntings and extrasensory perception The book explores various scientific theories and methods used to study these phenomena questioning whether they can be explained through natural laws or if they defy logical explanation It examines historical accounts modern day investigations and the psychological factors that might influence perceptions of the paranormal By blending scientific inquiry with anecdotal evidence the book challenges readers to reconsider what they know about the boundaries of science and the possibility of phenomena beyond the observable world *Modern Science and the Paranormal* Marie D. Jones,2009-01-15 This book uses scientific theory to explain some of the extrascientific phenomena such as UFOs and poltergeists

Paranormal Phenomena: An Encyclopedia of the Supernatural Pasquale De Marco,2025-05-13 Paranormal Phenomena An Encyclopedia of the Supernatural is the ultimate guide to the paranormal exploring the unexplained phenomena that have fascinated and intrigued humanity for centuries From ghostly apparitions and haunted houses to psychic abilities and UFO sightings this book delves into the latest scientific research and personal accounts to uncover the truths and myths that surround this enigmatic world Inside you ll discover The evidence for and against the existence of ghosts exploring the different types of hauntings and the theories that attempt to explain them An examination of psychic phenomena including clairvoyance clairsaudience telepathy and psychokinesis and the evidence for and against their existence A look at unexplained phenomena such as UFO sightings alien abductions crop circles and Bigfoot encounters and the different theories that attempt to explain them The cultural significance of the paranormal examining how it has influenced art literature music and film throughout history The importance of critical thinking and skepticism in the study of the paranormal and tips on how to evaluate paranormal claims and separate fact from fiction Whether you re a seasoned

paranormal investigator or simply curious about the mysteries of the unknown Paranormal Phenomena An Encyclopedia of the Supernatural is your essential guide to the paranormal Prepare to enter a world where the unexplained becomes tangible where the boundaries of reality blur and where the mysteries of the paranormal await your discovery If you like this book write a review on google books *Future Science* John Warren White, Stanley Krippner, 1977 [The Physics of Miracles](#) Richard Bartlett, Melissa Joy Jonsson, 2009-10-13 Includes a preview of Richard Bartlett s bestselling Matrix Energetics The Physics of Miracles will change your perceptions about what is possible with real practical applications for healing and transformation As a follow up to his popular first book Matrix Energetics Dr Richard Bartlett presents The Physics of Miracles Building on the success of his dynamic and popular seminars Dr Bartlett shares new concepts on the cutting edge of healing and transformation The strength of Bartlett s energetic healing work and why he s already becoming one of the most well respected teachers in modern energy medicine is that you don t have to understand the actual science to put it to use The Physics of Miracles utilizes advanced scientific concepts while remaining accessible to everyone from children to medical professionals Discussing seemingly implausible topics such as time travel alternate universes and invisibility this book is fascinating and instantly applicable The Physics of Miracles will reshape the way people think about their place in the universe and their capacity for health and healing [The Physics of the Mind](#) Phil Mollon, 2025-10-09 The Physics of the Mind New Perspectives for Psychotherapists Healers and Seekers is aimed at psychotherapists psychoanalysts healers and anyone interested in the interface of physics and the mind Both are interesting topics even more so when combined Phil Mollon s expertise is within psychology and over his long career he came to realise the importance of physics to the field In particular the branches that place mind and consciousness in the foreground of how we might understand the universe and our place within it There is a deep organising principle operating at all levels of the universe It gives rise to life and is apparent within the human mind in dreams and creativity A key lesson from quantum physics is that consciousness and the human mind are inextricably involved in the emergence of what we can observe and experience of our matter based realm In other words the behaviour of the quantum realm is shaped by our observation of it Just as we think of space time as shaped by gravitational forces and massive bodies so we can conceptualise mind space The latter contains mathematical correlithms of thought emotion and memory whereby what is similar attracts more of the same in a manner analogous to gravity These have effects within the mind and in the wider life field For example severe and repeated childhood trauma creates the equivalent of black holes in the mind space Metaphysics posits that our matter based universe is subtended within an infinite unified field of intelligence and creativity We are contained within a vast mind The principle is that unlimited guidance and knowledge is available via meditation and intuition requiring only that we seek It is never thrust upon us This is a book filled with extraordinary ideas to dip into wherever curiosity and intuition lead It is the author s fervent wish that what is within will stimulate thought and awareness and spark continuing creative concepts concerning our place in this cosmos
