The Plain And Simple Way For The Attainment Of High Knowledge:

The Treasury of Knowledge: Books Two, Three, and Four Jamgon Kongtrul, 2010-08-16 Jamgon Kongtrul's ten volume Treasury of Knowledge is a unique encyclopedic masterpiece embodying the entire range of Buddhist teachings as they were preserved in Tibet. Tibetan Buddhist teachers expected their students to study Buddhist philosophical texts as well as practice reflection and meditation. Present day students have also realized that awakening has its source in study as well as in reflection and practice. Buddhism's Journey to Tibet presents Kongtrul's masterful history of Buddhism in India and Tibet. Beginning with the appearance of the Buddha in our world, Book Two it describes the Buddha's life, his enlightenment, and what he taught. Book Three from a multitude of Buddhist viewpoints, Buddhism's transmission to and preservation in Tibet is the focus of the main part of this volume. Book Four which describes the scriptural transmissions and lineages of meditation practice as well as the Buddhist arts that together make up the world of Tibetan Buddhism.

Footfalls of the Indian Rishis - Volume I Babaji Bob Kindler, 2023-08-09 The Holy Feet of Illumined Souls on Earth. From dreams awake from bonds be free. Know the Truth Thou art. He thou art. She. The Rishis of India, knowers of Truth in seeking the ultimate welfare and highest good for all of humanity throughout the ages, pioneered an unprecedented myriad of religious and philosophical systems. These availed the aspiring soul of a copious network of wisdom pathways opening inwards to the Light of Nondual Reality. Veda, Tantra, Sankhya, Nyaya, Vaisheshika, Purva Mimamsa, Vedanta, Yoga, Buddhism, Patanjala Yoga, Sikhism, Jainism, Vaishnavism, Shaivism, Shaktism, Sourism, Ganapatya, the list goes on and on. This reveals a universal vision the likes of which was never before seen in any country or conceived of by any other race of human beings. Here is not only one holy book or merely one divine incarnation or just a single prophet but dozens to hundreds of each, all supported, maintained, and lovingly transmitted by countless luminaries stretching back millennia. B C E India therefore stands as an exceptional example before the eyes of the world. The main principle which makes her so is realization of and adherence to Truth as demonstrated and elucidated upon in this book. It is founded upon the natural acceptance of the presence of God as Existence Itself. This Truth was tempered on earth over millennia in the fires of spiritual practice, infusing Vedic philosophy and religion with many important keys concerning the attainment of direct spiritual experience. The subtitle of this book, Charting the Timeless Wisdom of Mother India, proves itself through 299 charts, all created to transmit the depth and breadth of India's dharmic teachings and replete with thorough and in-depth commentaries.

The Causes of High and Low Reading Achievement Ronald P. Carver, 2000-02-01 This book describes all of the important factors that cause some students to have low reading achievement and others to have high reading achievement. An attempt is made to answer the following questions: what can educators do to increase reading achievement and what is beyond their influence? The author is directly concerned with achievement associated with normal or typical reading. The focus of the book is on things teachers can do.
