duty of a
thoughtful
patriotism."*

The Political Writings of
Rufus Choate

edited by Thomas E. Woods, Jr.

The Political Writings Of Rufus Choate

Roger K. Newman

The Political Writings Of Rufus Choate:

The Political Writings of Rufus Choate Rufus Choate, 2002 An orator of great renown a congressman senator and colleague of Daniel Webster Rufus Choate was a strong proponent of protective tariffs to assist domestic industry **After Nationalism** Samuel Goldman, 2021-06-04 Nationalism is on the rise across the Western world serving as a rallying cry for voters angry at the unacknowledged failures of globalization that has dominated politics and economics since the end of the Cold War In *After Nationalism* Samuel Goldman trains a sympathetic but skeptical eye on the trend highlighting the deep challenges that face any contemporary effort to revive social cohesion at the national level Noting the obstacles standing in the way of basing any unifying political project on a singular vision of national identity Goldman highlights three pillars of mid twentieth century nationalism all of which are absent today the social dominance of Protestant Christianity the absorption of European immigrants in a broader white identity and the defense of democracy abroad Most of today's nationalists fail to recognize these necessary underpinnings of any renewed nationalism or the potentially troubling consequences that they would engender To secure the general welfare in a new century the future of American unity lies not in monolithic nationalism Rather Goldman suggests we move in the opposite direction go small embrace difference as the driving characteristic of American society and support political projects grounded in local communities **The Yale Biographical Dictionary of American Law** Roger K. Newman, 2009-01-01 This book is the first to gather in a single volume concise biographies of the most eminent men and women in the history of American law Encompassing a wide range of individuals who have devised replenished expounded and explained law The Yale Biographical Dictionary of American Law presents succinct and lively entries devoted to more than 700 subjects selected for their significant and lasting influence on American law Casting a wide net editor Roger K Newman includes individuals from around the country from colonial times to the present encompassing the spectrum of ideologies from left wing to right and including a diversity of racial ethnic and religious groups Entries are devoted to the living and dead the famous and infamous many who upheld the law and some who broke it Supreme Court justices private practice lawyers presidents professors journalists philosophers novelists prosecutors and others the individuals in the volume are as diverse as the nation itself Entries written by close to 600 expert contributors outline basic biographical facts on their subjects offer well chosen anecdotes and incidents to reveal accomplishments and include brief bibliographies Readers will turn to this dictionary as an authoritative and useful resource but they will also discover a volume that delights and entertains Listed in *The Yale Biographical Dictionary of American Law* John Ashcroft Robert H Bork Bill Clinton Ruth Bader Ginsburg Patrick Henry J Edgar Hoover James Madison Thurgood Marshall Sandra Day O Connor Janet Reno Franklin D Roosevelt Julius and Ethel Rosenberg John T Scopes O J Simpson Alexis de Tocqueville Scott Turow And more than 700 others [Politically Incorrect Guide to American History](#) Thomas E. Woods, 2004-01-04 The problem in America isn't so much what people don't know the problem is what people think they know that just ain't so

Thomas E Woods Most Americans trust that their history professors and high school teachers will give students honest and accurate information The Politically Incorrect Guide to American History makes it quite clear that liberal professors have misinformed our children for generations Professor Thomas E Woods Jr takes on the most controversial moments of American history and exposes how history books are merely a series of clichés drafted by academics who are heavily biased against God democracy patriotism capitalism and most American family values Woods reveals the truth behind many of today's prominent myths MYTH The First Amendment prohibits school prayer MYTH The New Deal created great prosperity MYTH What the Supreme Court says goes From the real American revolutionaries to the reality of labor unions The Politically Incorrect Guide to American History is all you need for the truth about America objective and unvarnished **The Past Is a Foreign Country - Revisited** David Lowenthal, 2015-10-01 The past remains essential and inescapable A quarter century after the publication of his classic account of man's attitudes to his past David Lowenthal revisits how we celebrate expunge contest and domesticate the past to serve present needs He shows how nostalgia and heritage now pervade every facet of public and popular culture History embraces nature and the cosmos as well as humanity The past is seen and touched and tasted and smelt as well as heard and read about Empathy re-enactment memory and commemoration overwhelm traditional history A unified past once certified by experts and reliant on written texts has become a fragmented contested history forged by us all New insights into history and memory bias and objectivity artefacts and monuments identity and authenticity and remorse and contrition make this book once again the essential guide to the past that we inherit reshape and bequeath to the future *The Scarlet Letter and Other Writings (Second International Student Edition) (Norton Critical Editions)* Nathaniel Hawthorne, 2017-02 This perennially popular Norton Critical Edition has been revised to reflect the most current scholarly approaches to The Scarlet Letter Hawthorne's most widely read novel as well as to the five short prose works Mrs Hutchinson Endicott and the Red Cross Young Goodman Brown The Minister's Black Veil and The Birth mark that closely relate to the 1850 novel This Second Norton Critical Edition also includes Revised and expanded explanatory footnotes a new preface and a note on the text by Leland S Person Key passages from Hawthorne's notebooks and letters that suggest the close relationship between his private and public writings Seven new critical essays by Brook Thomas Michael Ryan Thomas R Mitchell Jay Grossman Jamie Barlowe John Ronan and John F Birk A Chronology and revised and expanded Selected Bibliography *Utilitarianism in the Early American Republic* James E. Crimmins, 2021-11-01 In Utilitarianism in the Early American Republic James E Crimmins provides a fresh perspective on the history of antebellum American political thought Based on a broad ranging study of the dissemination and reception of utilitarian ideas in the areas of constitutional politics law education law reform moral theory and political economy Crimmins illustrates the complexities of the place of utilitarianism in the intellectual ferment of the times in both its secular and religious forms intersection with other doctrines and practical outcomes The pragmatic character of American political thought revealed culminating in the postbellum rise of

Pragmatism stands in marked contrast to the conventional interpretations of intellectual history in this period Utilitarianism in the Early American Republic will be of interest to academic specialists and graduate and senior undergraduate students engaged in the history of political thought moral philosophy and legal philosophy particularly scholars with interests in utilitarianism the trans Atlantic transfer of ideas the American political tradition and modern American intellectual history

Nature and History in American Political Development James W CEASER, Jack N Rakove, Nancy L Rosenblum, Rogers M Smith, James W Ceaser, 2009-06-30 In this inaugural volume of the Alexis de Tocqueville Lectures James Ceaser traces the way certain foundational ideas including nature history and religion have been understood and used over the course of American history Ceaser treats these ideas as elements of political discourse that provide the ground for other political ideas such as liberty or equality Three critical commentators challenge Ceaser s arguments and a spirited debate about large and enduring questions in American politics ensues

The Conservatives Patrick Allitt, 2009-05-26 This lively book traces the development of American conservatism from Alexander Hamilton John Adams and Daniel Webster through Abraham Lincoln Teddy Roosevelt and Herbert Hoover to William F Buckley Jr Ronald Reagan and William Kristol Conservatism has assumed a variety of forms historian Patrick Allitt argues because it has been chiefly reactive responding to perceived threats and challenges at different moments in the nation s history While few Americans described themselves as conservatives before the 1930s certain groups beginning with the Federalists in the 1790s can reasonably be thought of in that way The book discusses changing ideas about what ought to be conserved and why Conservatives sometimes favored but at other times opposed a strong central government sometimes criticized free market capitalism but at other times supported it Some denigrated democracy while others championed it Core elements however have connected thinkers in a specifically American conservative tradition in particular a skepticism about human equality and fears for the survival of civilization Allitt brings the story of that tradition to the end of the twentieth century examining how conservatives rose to dominance during the Cold War Throughout the book he offers original insights into the connections between the development of conservatism and the larger history of the nation

The Social Contract in America Mark Hulliung, 2007 The first comprehensive examination of the social contract s role in American political development Traces the history of the contract the closest thing we have to a common philosophy from its role in the Founding up to current day debates and charts its rise and demise in influence over American political thought
