After Native Claims? Frank Cassidy, Norman Dale, Institute for Research on Public Policy, 1988 Study of how a resolution of issues that give rise to and result from comprehensive claims by native peoples might affect the economic political and environmental dimensions of natural resources centred activities The natural resource sectors examined are fishery forestry and non renewable resources Native People, Native Lands Bruce Alden Cox, 1988 The changing roles of native women devices for assimilation the re birth of the Metis these are among the issues examined in this collection of provocative essays which explore the link between aboriginal culture and economic patterns *Religion and the Exercise of Public Authority* Benjamin L Berger, Richard Moon, 2016-06-16 In the burgeoning literature on law and religion scholarly attention has tended to focus on broad questions concerning the scope of religious freedom the nature of toleration and the meaning of secularism An under examined issue is how religion figures in the decisions actions and experiences of those charged with performing public duties This point of contact between religion and public authority has generated a range of legal and political controversies around issues such as the wearing of religious symbols by public officials prayer at municipal government meetings religious education and conscientious objection by public servants Authored by scholars from a variety of disciplines the chapters in this volume provide insight into these and other issues Yet the volume also provides an entry point into a deeper examination of the concepts that are often used to organise and manage religious diversity notably state neutrality By examining the exercise of public authority by individuals who are religiously committed or who in the discharge of their public responsibilities must account for those who are this volume exposes the assumptions about legal and political life that underlie the concept of state neutrality and reveals its limits as a governing ideal *Breaking the Ice* Barry

Zellen,2008-03-20 Breaking the Ice is a comparative study of the movement for native land claims and indigenous rights in Alaska and the Western Arctic and the resulting transformation in domestic politics as the indigenous peoples of the North gained an increasingly prominent role in the governance of their homeland This work is based on field research conducted by the author during his nine year residency in the Western Arctic Zellen discusses the major conflicts facing Alaskan Natives from the struggle to regain control over their land claims to the Native alienation from the corporate structure and culture and the resulting resurgence in tribalism He shows that while the forces of modernism and traditionalism continued to clash these conflicts were mediated by the structures of co management corporate development and self government created by the region s comprehensive land claims settlements Breaking the Ice gives testimony to the achievements of Alaskan Natives through peaceful negotiation and argues that the age of land claims has transmuted this same tribal force into something else altogether in the North a peaceful force to spawn the emergence of new structures of Aboriginal self governance **On**

Thin Ice Barry Scott Zellen,2009-11-12 On Thin Ice explores the relationship between the Inuit and the modern state in the vast but lightly populated North American Arctic It chronicles the aspiration of the Inuit to participate in the formation and implementation of diplomatic and national security policies across the Arctic region and to contribute to the reconceptualization of Arctic Security including the redefinition of the core values inherent in northern defense policy With the warming of the Earth s climate the Arctic rim states have paid increasing attention to the commercial opportunities strategic challenges and environmental risks of climate change As the long isolation of the Arctic comes to an end the Inuit who are indigenous to the region are showing tremendous diplomatic and political skills as they continue to work with the more populous states that assert sovereign control over the Arctic in an effort to mutually assert joint sovereignty across the region Published on the 50th anniversary of Ken Waltz s classic Man the State and War Zellen s On Thin Ice is at once a tribute to Waltz s elucidation of the three levels of analysis as well as an enhancement of his famous Three Images with the addition of a new Fourth Image to describe a tribal level of analysis This model remains salient in not only the Arctic where modern state sovereignty remains limited but in many other conflict zones where tribal peoples retain many attributes of their indigenous sovereignty Canadian Ethnic Studies ,1977 First Nations? Second Thoughts, Second Edition Thomas

Flanagan,2008 Over the last thirty years Canadian policy on aboriginal issues has come to be dominated by an ideology that sees aboriginal peoples as nations entitled to specific rights Indians and Inuit now enjoy legal privileges that include the inherent right to self government collective property rights immunity from taxation hunting and fishing rights without legal limits and free housing education and medical care Underpinning these privileges is what Tom Flanagan describes as aboriginal orthodoxy the belief that prior residence in North America is an entitlement to special treatment Flanagan shows that this orthodoxy enriches a small elite of activists politicians administrators and well connected entrepreneurs while bringing further misery to the very people it is supposed to help Controversial and thought provoking First Nations Second

Thoughts dissects the prevailing ideology that determines public policy towards Canada's aboriginal peoples. In this updated edition, Flanagan analyzes the developments of the last ten years, showing how a conflict of visions has led to a stalemate in aboriginal policy making. He concludes that aboriginal success will be achieved not as the result of public policy changes in government but through the actions of the people themselves.
