The Internet In The Middle East:

Internet in the Middle East, The Deborah L. Wheeler, A surprising look at how the Internet does and does not affect public discourse and social practice in the Middle East and Kuwait in particular *The Internet in the Mideast and North Africa* Eric Goldstein, 1999 VI Cybercensorship its various forms *The Internet in the Middle East* Deborah L. Wheeler, 2005-10-27 A surprising look at how the Internet does and does not affect public discourse and social practice in the Middle East and Kuwait in particular *Broadband Networks in the Middle East and North Africa* Natalija Gelvanovska, Michel Rogy, Carlo Maria Rossotto, 2014-02-11 The existing telecommunications infrastructure in the Middle East and North Africa MENA suffers from various regulatory and market bottlenecks that are hampering the growth of the Internet in most countries and related access to information and to potential new job sources *Sexuality in the Middle East and North Africa* J. Michael Ryan, Helen Rizzo, 2024-10-15 Issues of sexuality in the Middle East and North Africa have served as a lightning rod for international discussions surrounding the treatment of those who identify as LGBTQ sexual and reproductive health and the prevention of sexual violence While a growing body of scholarship and internal advocacy groups have brought more open dialogue within and about the MENA region this volume builds on the small but growing literature on sexuality in the Middle East and North Africa by providing critical insights and academic analysis into a broad range of complex and controversial issues Spanning a wide array of countries from Algeria to Yemen Egypt Iran Israel and Saudi Arabia this volume offers a comprehensive regional analysis that transcends the limitations of country specific studies Three themes guide the volume s organization sexual politics rights and movements gender and sexual minorities and sexual health identity and well being Drawing on contemporary scholarship and ethnographic fieldwork the contributors shed light on how sexuality is a foundational element of national and regional discourses acts as a political tool for marking difference and has the possibility to enlighten restrict liberate or oppress the millions of individuals living in the region This volume is essential reading for scholars policymakers and anyone interested in the intersection of sexuality identity and human rights in the Middle East and North Africa **The Middle East** Ellen Lust, 2016-04-25 In the Fourteenth Edition of *The Middle East* Ellen Lust brings important new coverage to this comprehensive balanced and superbly researched text In clear prose Lust and her outstanding contributors explain the many complex changes taking place across the region New to this edition is a country profile chapter on Sudan by Fareed Hassan All country chapters now address domestic and regional conflict more explicitly and all tables figures boxes and maps have been fully updated with the most recent data and information

Women and Media in the Middle East Naomi Sakr, 2004-09-24 Is today s changing media landscape in the Middle East empowering women This is the first book to address the dynamics of media ecology and women s advancement in the contemporary Middle East The book spans both the region and media forms from Iran s women s press via Maghrebi women filmmakers and Egyptian political films Palestinian TV and Hezbollah s TV station Al Manar It takes as its starting point the

diverse experiences and multi layered identities of women and treats media institutions and practices as part of wider power relations in society By analysing media production consumption and texts it reveals where and how gender boundaries have been erected or crossed *Cultural Sociology of the Middle East, Asia, and Africa* Andrea L. Stanton,Edward Ramsamy,Peter J. Seybolt,Carolyn M. Elliott,2012-01-05 In our age of globalization and multiculturalism it has never been more important for Americans to understand and appreciate foreign cultures and how people live love and learn in areas of the world unfamiliar to most U S students and the general public The four volumes in our cultural sociology reference encyclopedia take a step forward in this endeavor by presenting concise information on those regions likely to be most foreign to U S students the Middle East Asia and Africa The intent is to convey what daily life is like for people in these selected regions It is hoped entries within these volumes will aid readers in efforts to understand the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions **Politics and Digital Literature in the Middle East** Nele Lenze,2018-05-14 During the 2000 s online literature in Arabic language was popular among a larger readership Writings on subjects dealing with politics globalization and social matters gained are well received While mapping the genre this monograph shows literary developments in print and digital during these peak years to provide a historical context for the material Online literary culture is linked to social economic and political developments within the last two decades This book presents the differences between online and print literature as it relates to writer readership interaction literary quality language and style critical reception and circulation The geographic location of the analysis focuses on Gulf countries featuring a comparative study of Egypt and Lebanon **Instability in the Middle East** Karel Černý,2017-07-01 Middle Eastern instability is manifest externally in many ways by crises afflicting governing regimes the rise of political Islam terrorism revolution civil war increased migration and the collapse of many states This book examines the roots of this instability using a theoretically original and empirically supported historical sociological comparative analysis Up till now interpretations of the development of the post colonial Middle East have been dominated by two opposing theses The first views the region as backward unchanging and rigid the second as undergoing excessively rapid transformation This book offers an alternative perspective focusing on the highly uneven and unsynchronised pace of change in individual dimensions of Middle Eastern modernisation What we are seeing is 1 rapid socio demographic change a sharp increase in the population and the proportion of young people rapid urbanisation and the expansion of the media and education 2 slower and unstable economic change dependency on oil exports high unemployment and 3 slow or regressive political change erosion of the capacity to govern the absence of democratisation and liberalisation The theoretical model employed emerged from a critical reading of theories of modernisation and a concept of multiple modernities that also allows for an interrogation of the broader cultural religious and international political context of uneven modernisation in the Middle East This model is then tested empirically using the

time series 1960 2010 of dozens of indicators covering the demographic social economic and political dimensions of the modernisation process In general the book does not concentrate on externally monitorable political actors and their rivalries as so often is the case Instead it focuses on the political rivalries of deep long term cumulative demographic social and economic change taking place beneath the surface It looks at changes that are not simply taking place in individual countries of the Middle East but since the end of the Second World War have affected the entire region and are responsible for the emergence of a Middle East completely different to that to which we were accustomed for many decades

Online Activism in the Middle East Jon Nordenson, 2017-03-17 Does the internet facilitate social and political change or even democratization in the Middle East Despite existing research on this subject there is still no consensus on the importance of social media and online platforms or on how we are to understand their influence This book provides empirical analysis of the day to day use of online platforms by activists in Egypt and Kuwait The research evaluates the importance of online platforms for effecting change and establishes a specific framework for doing so Egypt and Kuwait were chosen because since the mid 2000s they have been the most prominent Arab countries in terms of online and offline activism In the context of Kuwait Jon Nordenson examines the oppositional youth groups who fought for a constitutional democratic monarchy in the emirate In Egypt focus surrounds the groups and organizations working against sexual violence and sexual harassment Online Activism in the Middle East shows how and why online platforms are used by activists and identifies the crucial features of successful online campaigns Egypt and Kuwait are revealed to be authoritarian contexts but where the challenges and possibilities faced by activists are quite different The comparative nature of this research therefore exposes the context specific usage of online platforms separating this from the more general features of online activism Nordenson demonstrates the power of online activism to create an essential counterpublic that can challenge an authoritarian state and enable excluded groups to fight in ways that are far more difficult to suppress than a demonstration

Launching Into Cyberspace Marcus F. Franda, 2002 Franda government and politics U of Maryland examines the extent to which Internet development has taken place in Africa the Middle East Asia Eurasia and Central and Eastern Europe His focus is on the impact of the Internet on international relations He discusses in detail the different ways each region has reacted to the spread of the global Internet and the consequences of these reactions for international relationships c Book News Inc

Digital Resistance in the Middle East Deborah L. Wheeler, 2017-06-26 This book argues that Internet diffusion and use in the Middle East enables meaningful micro changes in citizens lives even in states where no Arab Spring revolution occurred Using ethnographic evidence and taking a comparative perspective it presents a grass roots look at how new media use fits into the practice of everyday life It explores why citizens use social media to digitally route around state and other forms of power at work in their lives This increase in citizen civic engagement supported by new media use offers the possibility of a new order of things from redefining patriarchal power relations at home to reconfigurations of citizens relationships with the state broadly defined The

author argues that new media channels offer pathways to empowerment widely and cheaply in the Middle East
