The Internet Voyeur:

Voyeur Nation Clay Calvert, 2009-04-21 From 24 hour a day girl cam sites on the World Wide Web to trash talk television shows like Jerry Springer and reality television programs like Cops we've become a world of voyeurs. We like to watch others as their intimate moments, private facts, secrets, and dirty laundry are revealed. Voyeur Nation traces the evolution and forces driving what the author calls the voyeurism value. Calvert argues that although spectatorship and sensationalism are far from new phenomena today, a confluence of factors—legal, social, political, and technological—pushes voyeurism to the forefront of our image-based world. The First Amendment increasingly is called on to safeguard our right via new technologies and recording devices to peer into the innermost details of others' lives without fear of legal repercussion. But Calvert argues that the voyeurism value contradicts the value of discourse in democracy and First Amendment theory since voyeurism by its very nature involves merely watching without interacting or participating. It privileges watching and viewing media images over participating and interacting in democracy.

Intimacy on the Internet Lauren Rosewarne, 2016-04-14 The focus of this book is on the media representations of the use of the Internet in seeking intimate connections, be it a committed relationship, a hook up, or a community in which to dabble in fringe sexual practices. Popular culture, film, narrative television, the news, media, and advertising present two very distinct pictures of the use of the Internet as related to intimacy. From news reports about victims of online dating to the presentation of the desperate and dateless, the perverts, and the deviants, a distinct frame for the intimacy-Internet connection is negativity. In some examples, however, a changing picture is emerging. The ubiquitousness of Internet use today has meant a slow increase in comparatively more positive representations of successful online romances in the news, resulting in more positive spin, advertising, and a more even-handed presence of such liaisons in narrative television and film. Both the positive and the negative media representations are categorized and analysed in this book to explore what they reveal about the intersection of gender, sexuality, technology, and the changing mores regarding intimacy.

Necroculture Charles Thorpe, 2016-06-24 In this book the author draws on Karl Marx's writings on alienation and Erich Fromm's conception of necrophilia in order to understand these aspects of contemporary culture as expressions of the domination of the living by the dead under capitalism Necroculture is the ideological reflection and material manifestation of this basic feature of capitalism the rule of dead capital over living labor The author argues that necroculture represents the subsumption of the world by vampire capital

Criminalizing Sex Stuart P. Green, 2020-04-15 Starting in the latter part of the 20th century the law of sexual offenses especially in the West began to reflect a striking divergence On the one hand the law became significantly more punitive in its approach to sexual conduct that is nonconsensual as evidenced by a major expansion in the definition of rape and sexual assault and the creation of new offenses like sex trafficking child grooming and revenge porn On the other hand it became markedly more permissive in how it dealt with conduct that is consensual a trend that can be seen for example in the legalization or decriminalization of sodomy adultery and adult pornography This book explores the conceptual and normative implications of this divergence At the heart of the book is a consideration of a deeply contested question How should a liberal system of criminal law adequately protect individuals in their right not to be subjected to sexual contact against their will while also safeguarding their right to engage in private consensual sexual conduct in which they do wish to participate The book develops a framework for harmonizing these goals in the context of a wide range of nonconsensual consensual and aconsensual sexual offenses hence the unified nature of the theory including rape and sexual assault in a variety of forms sexual harassment voyeurism indecent exposure incest sadomasochistic assault prostitution bestiality and necrophilia Intellectually rigorous fair minded and deeply humane Criminalizing Sex offers a fascinating discussion of a wide range of moral and legal puzzles arising out of real world cases of alleged sexual misconduct a discussion that is all the more urgent in the age of MeToo

James Ellroy and Voyeur Fiction Nathan Ashman, 2018-10-15 James Ellroy is an acclaimed yet controversial popular novelist Since the publication of his first novel *Brown s Requiem* in 1981 Ellroy s eccentric Demon Dog persona and his highly stylized often pornographically violent crime novels have continued to polarize both public and academic opinion This book addresses the voyeuristic dimensions of Ellroy s fiction one of the most significant yet underexplored issues in his work Focusing exclusively on Ellroy s two collections of epic noir fiction *The L A Quartet* and *The Underworld U S A Trilogy* it critically reflects on a vivid preoccupation with eyes visual culture and visual technologies that spans across both these bodies of work Using a combination of psychoanalysis and postmodern and cultural theory Nathan Ashman argues that Ellroy s fiction traces the development of the voyeur from a deviant and perverse peeping tom into a recognizable contemporary social type a paranoid and obsessive viewer who is a product of the decentered and hallucinatory cinematic world that he inhabits In particular *James Ellroy and Voyeur Fiction* illuminates a convergence between voyeurism and recurring patterns of ocularcentric crisis in Ellroy s texts as characters become continually unable to understand or interpret through vision Alongside a thematic analysis of obsessive watching Ashman also argues that Ellroy s works particularly his later novels are themselves voyeuristic implicating the reader in these broader narrative patterns of both visual and epistemophilic obsession
