The papers are organized in five thematic sessions on enterprise modeling, business modeling, process modeling, enterprise architecture, and model-driven development.

*Psychology and the Challenges of Life* Jeffrey S. Nevid, Spencer A. Rathus, 2009-11-23. A long-respected standard in the psychology of adjustment, *Psychology and the Challenges of Life*, Eleventh Edition, has been thoroughly updated and contemporized to provide students the ability to reflect on how psychology relates to the lives we live and the roles that psychology can play in helping us with the challenges we face. Authors Jeffrey Nevid and Spencer Rathus explore the many applications of psychological concepts and principles used to meet the challenges of daily life while encouraging students to apply concepts to themselves through active learning exercises, self-assessment questionnaires, and journaling exercises.

**The Psychology Project Manual** Emma Whitt, Stephanie McDonald, Kate Bailey, Alice Doherty, 2023. The most practical guide to completing your research project where straightforward student-centred advice is quickly found and easily applied. The Psychology Project Manual supports students through the whole of the empirical project. It is a practical guide addressing common challenges that students face when undertaking the project. Students can quickly and easily find the answer to a question they have. The authors' approachable writing style also provides information that is direct and straightforward. The manual takes a student-centred approach by incorporating the student voice. In each chapter, there are smart solutions which are challenges that students encountered when conducting their project and detail how they solved or dealt with those challenges. There is also a handy hints feature which includes advice from students about aspects of the project. In addition, Future focus boxes identify links between students' research project experience and their future plans. This ties into the focus throughout the text on the employability skills that students develop when undertaking a project, whether they are going into further study or work in psychology or going into a graduate job.
